

1

ANNEX II

LIST OF WORKING OR PROCESSING REQUIRED TO BE CARRIED OUT ON NON-ORIGINATING MATERIALS IN ORDER THAT THE PRODUCT MANUFACTURED CAN OBTAIN ORIGINATING STATUS

All products mentioned in the list may not all be covered by the Agreement. It is therefore necessary

to consult the remaining parts of the Agreement

HS Tar.No Description of the goods Working or processing carried out on materials non-originating domestically after

which they obtain a status of products originating domestically

(1) (2) (3) or (4)

Chapter 01 Live animals All animals of Chapter 1 must be wholly obtained

Chapter 02 Meat and edible meat offal Manufacture in which all used materials from Chapter 1 and 2 must be wholly obtained

Chapter 03 Fish, crustaceans, mollusks and other aquatic invertebrates

Manufacture in which all used materials from Chapter 3 must be wholly obtained

Ex Chapter

04

Dairy produce:, birds' eggs, natural honey, edible products of animal origin, not elsewhere specified or included; other than

Manufacture in which all used materials from Chapter 4 must be wholly obtained

0403 Buttermilk, curdled milk and cream, yogurt, kefir and other fermented or acidified milk or cream, whether or not concentrated or containing added sugar or other sweetening matter or flavored or containing added fruits, nuts or cocoa

Manufacture in which:

- the materials used in Chapter 4 must be wholly obtained;

- the used fruit juice (other than pineapple, lemon, lime or grapefruit) from heading No 2009 must be domestically originating;

- the value of the used materials of Chapter 17 must not exceed 30% of the ex works price of the product.

Ex Chapter

05

Products of animal origin, not elsewhere

specified or included; other than:

Manufacture in which all used materials of Chapter 5 must be wholly obtained
ex 0502 Pigs', hogs' or boars' bristles and hair and waste thereof

Cleaning, disaffection, sorting and straightening of bristles and hair

Chapter 06 Live trees and other plants; bulbs, roots and the like; cut flowers, ornamental foliage

Manufacture in which:

- the materials used in Chapter 6 must be wholly obtained;
- the value of the used materials must not exceed 50% of the ex works price of the product

2

Chapter 07 Edible vegetables and certain roots and tubers

Manufacture in which all used materials of Chapter 7 must be wholly obtained;

Chapter 08 Edible fruit and nuts, peel of citrus fruits, and melons and water melons

Manufacture in which:

- fruit and nuts used must be wholly obtained;
- the value of the used materials of Chapter 17 must not exceed 30% of the ex works price of the product

Ex Chapter

09

Coffee, tea, mate, and spices other than: Manufacture in which all used materials of Chapter 9 must be wholly obtained

0901 Coffee whether or not roasted or decaffeinated, coffee husks and skins; coffee substitutes containing coffee in any proportion

Manufacture from materials of any heading

0902 Tea whether or not flavored Manufacture from materials of any heading

ex 0910 Mixtures of spices Manufacture from materials of any heading

Chapter 10 Cereals Manufacture in which all used materials of Chapter 10 must be wholly obtained;

ex Chapter

11

Products of the milling industry; malt;

starches; insulin; wheat gluten; other than
Manufacture in which all used grains,
vegetables, roots and tubers of heading
No 0714 or fruits must be wholly
obtained;

ex 1106 Flour and meal of dried leguminous
vegetables of heading 0713

Drying and grinding of leguminous
vegetables of heading No 0708

Chapter 12 Oil seeds and oleaginous fruits;
miscellaneous grains, seeds and fruits;
industrial or medical plants; straw and
fodder

Manufacture in which all used materials
of Chapter 12 must be wholly obtained;

1301 Lack, natural gums, resins, gum-resins
and oil resins (for ex. balsams)

Manufacture in which the value of the
used materials of the heading No 1301
must not exceed 50% of the ex works
price of the product.

1302 Vegetable saps and extracts; pectic
substances, pectinates and pectates;
agar-agar and other mucilage and
thickeners, whether or not modified
derived from vegetable products:

- mucilage and thickeners, derived from
vegetable products, modified:

Manufacture from not modified mucilage
and thickeners

3

- other Manufacture in which the value of the
used materials must not exceed 50% of
the ex works price of the product.

Chapter 14 Vegetable plaiting materials; vegetable
products not elsewhere specified or
included

Manufacture in which all used materials
of Chapter 14 must be wholly obtained;
ex Chapter

15

Animal or vegetable fats and oils and their
cleavage; prepared edible fats; animal or
vegetable waxes; other than:

Manufacture in which all used materials
are classified in a heading other than
that of the product

1501 Lard (including pig fat) poultry fat, other

than those of heading No 0209 or 1503:

- Fat of bones or waste Manufacture from materials of any heading, except for headings Nos.

0203, 0206 or 0207 or of bones of heading No 0506

- Other Manufacture from meat or edible pork offal of heading No 0203 or 0206 or of meat and edible poultry offal of heading No 0207

1502 Fats of bovine animals, goats and sheep, other than those of heading No 1503

- Fats of bones or waste Manufacture from materials of any heading other than of headings Nos.

0201, 0202, 0204 or 0206 or of bones of heading No 0506

- Other Manufacture in which all used materials of Chapter 2 must be wholly obtained;

1504 Fats and oils and their fractions, of fish or marine mammals, whether or not refined, but not chemically modified

- solid fractions Manufacture from materials of any heading, including other materials of heading 1504

- Other Manufacture in which all used materials of Chapter 2 and 3 must be wholly obtained;

Ex 1505 Refined lanolin Manufacture from fats of crude wool of heading No 1505

1506 Other animal fats and oils and their fractions, whether or not refined, but not chemically modified

4

- solid fractions Manufacture from materials of any heading, including other materials of heading No 1506

- Other Manufacture in which all used materials of Chapter 2 must be wholly obtained;

1507 to
1515

Vegetable oils and their fractions

- Soya-bean oil, peanuts oil, palm tree oil, cocoa nut oil, coconut oil, babassu oil, tunga oil, oiticica oil, myrtle wax and Japan wax, jojoba oil fractions and oils for industrial and technical use, other than foodstuffs for human consumption

Manufacture in which all used materials are classified in a heading other than

that of the product

- solid fractions, other than jojoba oil Manufacture from other materials of heading No 1507 to 1515

-other Manufacture in which all used vegetable materials must be wholly obtained;

1516 Animal or vegetable fats and oils and their fractions, partly or fully hydrogenated, inter-esterified, re-esterified or elaidinized, whether or not refined, but further not prepared

Manufacture in which:

-all used materials of Chapter 2 must be wholly obtained;

- all used vegetable materials must be wholly obtained. However, materials of heading No 1507, 1508, 1511 and 1513 can be used

1517 Margarine, edible mixtures of animal and vegetable fats and oils or oils of fractions of different fats or oils of this Chapter, other than edible fats or oils or their fractions of heading No 1516

Manufacture in which:

-all used materials of Chapter 2 and 4 must be wholly obtained;

- all used vegetable materials must be wholly obtained. However, materials of heading No 1507, 1508, 1511 and 1513 can be used

Chapter 16 Preparations of meat, of fish or of crustaceans, mollusks and other aquatic invertebrates

Manufacture from animals of Chapter 1.

All used materials of Chapter 3 must be wholly obtained

Ex Chapter

17

Sugar and sugar confectionary; other than Manufacture in which all used materials are classified in a heading other than that of the product.

Ex 1701 Cane or beet sugar and chemically pure sucrose, in solid form, flavored or colored

Manufacture in which the value of the all used materials of Chapter 17 does not exceed 30% of the ex works price of the product.

1702 Other sugars, including chemically pure lactose, maltose, glucose and fructose, in

solid form; sugar syrups not containing added flavoring or coloring matter;

5

artificial honey, whether or not mixed with natural honey, caramel

- chemically pure maltose and fructose Manufacture from materials of any heading, including other materials of heading No 1702

Other sugar products in solid form, flavored or colored

Manufacture in which the value of the all used materials of Chapter 17 does not exceed 30% of the ex works price of the product.

- other Manufacture in which all used materials must be domestically originating;

Ex 1703 Molasses resulting from extraction or refining of sugar, flavored or colored

Manufacture in which the value of the all used materials of Chapter 17 does not exceed 30% of the ex works price of the product

1704 Sugar confectionery (including white chocolate) not containing cocoa

Manufacture in which:

-all used materials are classified in a heading other than that of the product;

- the value of the all used materials of Chapter 17 does not exceed 30% of the ex works price of the product.

Chapter 18 Cocoa and cocoa preparations Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of the all used materials of Chapter 17 does not exceed 30% of the ex works price of the product.

1901 Malt extract:

food products of flour, meal, starch or malt extract, not containing cocoa powder or containing cocoa powder in a proportion by weight of less than 40% calculated on a base from which the grease has completely been removed, that are not elsewhere specified or included;

Food products of goods of heading No 0401 to 0404 not containing cocoa or containing cocoa in a proportion by weight of less than 5% calculated on a base from

which the grease has completely been removed, not elsewhere specified or included;

- Malt extract Manufacture from cereals of Chapter 10

- Other Manufacture in which:

- all used materials are classified in a 6

heading other than that of the product

- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the product

1902 Pasta cooked or uncooked or stuffed (with meat or other substances) or otherwise prepared, such as spaghetti, macaroni, noodles, lasagna, gnocchi, ravioli, cannelloni, coucous, prepared or unprepared

Containing meat, meat offal, fish, crustaceans, mollusks in a proportion by weight of less than 20%

Manufacture in which all used cereals and derivatives (except durum wheat and its derivatives) must be wholly obtained

Containing meat, meat offal, fish, crustaceans, mollusks in a proportion by weight of more than 20%

Manufacture in which:

-all used cereals and derivatives (except durum wheat and its derivatives) must be wholly obtained

-all used materials of Chapter 2 and 3 must be wholly obtained

1903 Tapioca and substitutes thereof prepared from starch in form of flakes, grains, pearls or similar forms

Manufacture from material of any heading other than potato starch of heading No 1108

1904 Prepared foods obtained by swelling or roasting or cereal products (for example corn flakes) , cereals, other than maize (corn) in grain form or in a form of flakes, or otherwise prepared (other than flour or meal) cooked or otherwise prepared, not elsewhere specified or included

Manufacture:

- of materials that are not classified in

heading No 1806

- in which all used materials (other than durum wheat and its derivatives) must be wholly obtained;

- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the product

1905 Bread, pastry, cakes, biscuits and other bakers' wares, whether or not containing cocoa; wafers, empty caches of a kind suitable for pharmaceutical use, sealing wafers, rice paper and similar goods

Manufacture from materials classified in any heading other than Chapter 11
ex Chapter

20

Preparations of vegetables, fruit, nuts or other parts of plants

Manufacture in which all used fruit, nuts or vegetables must be wholly obtained

ex 2001 Sweet potato and similar edible parts of plants containing 5% or more by weight of starch, prepared or preserved by vinegar or acetic acid

Manufacture in which all used materials are classified in a heading other than that of the product

ex 2004

and 2005

Potato in a form of flour, meal or flakes, prepared or preserved other than by vinegar or acetic acid

Manufacture in which all used materials are classified in a heading other than that of the product

7

2006 Vegetables, fruit, nuts, fruit-peel and other parts of plants; preserved by sugar (drained, glaze or crystallized)

Manufacture in which the value of the used materials of Chapter 17 must not exceed 30% of the ex works price of the product

2007 Jams, fruit jellies, marmalades, puree or pastes of fruit or nuts, obtained by boiling with or without added sugar or other sweeteners

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the product

ex 2008 Nuts not containing added sugar or added spirit

Manufacture in which the value of the used nuts and oilseed of domestic origin of heading No 0801, 0802 and 1202 through 1207 does not exceed 60% of the ex works price of the product

- Peanut butter, mixtures of grains, palm tree kernels, corn

Manufacture in which all used materials are classified in a heading other than that of the product

- Other, except for fruit and nuts prepared differently than on a steam or in boiling water, with no sugar added, frozen

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the product

2009 Fruit juices and vegetable juices (including grape must) unfermented and with no alcohol added, with or without added sugar or other sweeteners

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the product

ex Chapter

21

Miscellaneous edible preparations;

Other than:

Manufacture in which all used materials are classified in a heading other than that of the product

2101 Extracts, essences and concentrates of coffee, tea or mate, roasted chicory and other coffee substitutes

Manufacture in which:

- all used materials are classified in a

heading other than that of the product

- all used chicory must be wholly obtained

2103 Sauces and preparations thereof; mixed condiments and mixed seasonings, mustard flour and meal and prepared mustard

- Sauces and preparations, mixed condiments and mixed seasonings
Manufacture in which all used materials are classified in a heading other than that of the product

However, mustard flour and meal and 8

prepared mustard may be used

- Mustard flour and meal and prepared mustard

Manufacture from material of any heading

ex 2104 Soups and broth and preparations therefor Manufacture from material of any heading other than prepared or preserved vegetables of heading No 2002 through 2005

2106 Food products not elsewhere specified or included

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the product
ex Chapter

22

Beverages, spirits and vinegar

Other than

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- all used grapes and grapes' derivatives must be wholly obtained

2202 Waters, including mineral waters and aerated waters containing added sugar or other sweeteners or flavored and other non-alcoholic beverages, not including fruit or vegetable juices of heading No 2009

Manufacture in which:

- all used materials are classified in a

heading other than that of the product

- the value of all used materials of Chapter 17 does not exceed 30% of the ex works price of the good

- every used fruit juice (other than pineapple, grapefruit or lime juice)

must be originating fruit juice

2208 Indentured ethyl alcohol of an alcoholic strength by volume of less than 80% vol.; spirits, liqueurs and other spirituous beverages

Manufacture:

- of materials that are not classified in heading No 2207 or 2208;

- in which all used grapes or grapes' derivatives must be wholly obtained or if all used materials are originating materials, arrack of strength by volume of up to 5% vol. can be used

ex Chapter

23

Residues and waste from the food industries; prepared animal fodder; other than

Manufacture in which all used materials are classified in a heading other than that of the product

ex 2301 Flours, meal and pellets, of meat offal, of fish or of crustaceans, mollusks or other aquatic invertebrates, unfit for human consumption;

Manufacture in which all used materials of Chapter 2 and 3 must be wholly obtained

ex 2303 Residues of starch manufacture and similar residues, (other than concentrated steeping liquids), containing proteins

Manufacture in which all used corn must be wholly obtained

9

calculated for dry product 40% or more by weight

ex 2306 Oil-cake and other solid residues resulting from extraction of vegetable oils containing olive oil 3% or more by weight

Manufacture in which all used olives must be wholly obtained

2309 Preparations of a kind used in animal

feeding

Manufacture in which:

- all used cereals, sugar or molassa or meat are originating goods;

- all used materials set out in Chapter 24 must be wholly obtained

ex Chapter

24

Tobacco and manufactured tobacco substitutes

other than

Manufacture in which all used materials set out in Chapter 24 must be wholly obtained

2402 Cigars, cigarillos and cigarettes of tobacco or of tobacco substitutes

Manufacture in which at least 70% by weight of the not manufactured tobacco or residues of the used tobacco set out in heading No 2401 must be originating domestically

ex 2403 Smoking tobacco Manufacture in which at least 70% by weight of the not manufactured tobacco or residues of the used tobacco set out in heading Nor 2401 must be originating domestically

ex Chapter

25

Salt, sulfur; earth and stone; plastering materials; lime and cement; other than Manufacture in which all used materials are classified in a heading other than that of the product

ex 2504 Natural graphite and crystal, enriched with carbohydrate, purified and granulated Enrichment of the contents with carbon, purification and granulation of the raw crystal graphite

ex 2515 Marble, whether or not roughly trimmed or merely cut, by sawing or otherwise, into blocks or slabs of a rectangular (including square) shape of a thickness not exceeding 25 cm

Cutting of marble with saw or otherwise cut (even it has already been cut with saw) with thickness not bigger than 25 cm

ex 2516 Granite, porphyry, basalt, sandstone and

other stone for monuments and for construction cut with saw or otherwise cut in blocks or plates in form of rectangle (including square) with thickness not bigger than 25 cm

Cutting of stone with saw or otherwise cut (even it has already been cut with saw) of thickness not bigger than 25 cm

ex 2518 Calcined dolomite Calcining of not calcimined dolomite
10

ex 2519 Crushed natural magnesium carbonate (magnesite) in hermetically sealed containers;, and magnesium oxide, whether or not pure, other than electrically melted magnesite or dead-burned (sintered) magnesia

Manufacture in which all used materials are classified in heading No other than that of the product. However natural magnesium carbonate may be used

ex 2520 Gypsum specially prepared for stomatology

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

ex 2524 Natural asbestos fibers Manufacture from asbestos concentrate

ex 2525 Mica powder Grinding of mica or mica residues

ex 2530 Earth colors, calcined or in powder Calcining or grinding of earth colors

Chapter 26 Ores, slag and ash Manufacture in which all used materials are classified in heading No other than that of the product

ex Chapter

27

Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes;

Other than

Manufacture in which all used materials are classified in heading No other than that of the product

ex 2707 Oils in which the weight of the aromatic constituents exceeds that of the nonaromatic constituents, oils similar to the minerals oils obtained from distillation of high temperature coal, of which 65% or more by volume distils at 250C (including mixtures of naphthalene and benzole) for use as power or heating fuels

Operations of refining and/or one or more specific process(s) or other operations in which all used materials are classified in a heading No other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product

ex 2709 Crude oils obtained from bituminous minerals

Dry distillation of the bituminous minerals

2710 Petroleum oils and oils obtained from bituminous minerals, other than crude; preparation not elsewhere specified or included, containing by weight 70% or more of petroleum oils or of oils obtained from bituminous minerals, these oils being the basic constituents of the preparations

Operations of refining and/or one or more specific process(s)¹ or other operations in which all used materials are Classified in a heading other than that of the product.

- However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the good

2711 Petroleum gases and other gaseous Operations of refining and/or one or more specific process(s)¹ or other

1 For the special requirements regarding "specific processes" see introductory note 7.2
1 1

hydrocarbons operations in which all used materials are classified in a heading other than that of the product

- However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product

2712 Petroleum jelly, paraffin wax, microcrystalline petroleum wax, slack wax, ozokerite, lignite wax, peat wax, other mineral waxes and similar products obtained by synthesis or by other processes, whether or not colored
Operations of refining and/or one or more specific process(s)¹ or

Other operations in which all used materials are classified in a heading other than that of the product
- However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product
2713 Petroleum coke, petroleum bitumen and other residues of petroleum oils or oils obtained from bituminous materials
Operations of refining and/or one or more specific process(es) or²

Other operations in which all used materials are classified in a heading other than that of the product
However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product
2714 Bitumen and asphalt, natural; bituminous or oil shale and tar sands; asphaltites and asphalt rocks
Operations of refining and/or one or more specific process(es) or²

Other operations in which all used materials are classified in a heading other than that of the product
However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product
2715 Bituminous mixtures based on natural asphalt, natural bitumen, on petroleum bitumen, mineral tar or on mineral tar pitch
Operations of refining and/or one or more specific process(es) or

Other operations in which all used

1 For the special requirements regarding "specific processes" see introductory note 7.2

2 For the special requirements regarding "specific processes" see introductory note 7.1 and 7.3

2 For the special requirements regarding "specific processes" see introductory note 7.1 and 7.3

12

materials are classified in a heading other than that of the product
However, the materials classified in the same heading may be used provided their value does not exceed 50% of the

ex works price of the product

Ex Chapter

28

Inorganic chemicals; organic or inorganic compounds of precious materials of rareearth metals, of radioactive elements or of isotopes, other than

Manufacture in which all used materials are classified in a heading other than that of the product

However, the materials classified in a heading may be used provided their value does not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 2805 Manufacture with electrolysis or thermal treatment in which the value of all used materials does not exceed 50% of the ex works price of the product

Ex 2811 Sulfur trioxide Manufacture from sulfur trioxide Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

Ex 2833 Aluminum sulfate Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

Ex 2840 Sodium perborate Manufacture from disodium tetraborate pentahydrate

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex Chapter

29

Organic chemicals;
except for

Manufacture in which all used materials are classified in a heading other than that of the product

However, the materials classified in a heading may be used provided their value does not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

13

Ex 2901 Acyclic hydrocarbons for use as power or heating fuels

Operations of refining and/or one or more specific process(s) or

Other operations in which all used materials are classified in heading other than that of the product.

However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product

Ex 2902 Cyclanes and cyclenes (other than azulenes), benzene, toluene, xylenes for use as power or heating fuels

Operations of refining and/or one or more specific process(s) or

Other operations in which all used materials are classified in heading other than that of the product.

However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product

Ex 2905 Metal alcoholates of alcohols classified in this heading and of ethanol or glycerin Manufacture from materials classified in any heading, including other materials classified in heading No 2905.

However, the metal alcoholates classified in this heading may be used provided their value does not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

2915 Saturated acyclic monocarboxylic acids and their anhydrides, halides, peroxides and peroxyacids; their halogenated, sulphonated, nitrated or nitrosated derivatives

Manufacture from materials classified in any heading. However, the value of all used materials classified in heading No 2915 and 2916 shall not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 2932 - internal ether and their halogenated, sulphonated, nitrated or nitrosated derivatives

Manufacture from materials classified in any heading. However, the value of all used materials classified in heading No 2909 shall not exceed 20% of the ex works price of the good

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- Cyclic internal ether and their halogenated, sulphonated, nitrated or nitrosated derivatives

Manufacture from materials classified in any heading.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

2933 Heterocyclic compounds with nitrogen hetero-atoms only;

Manufacture from materials classified in any heading. However, the value of all used materials classified in heading No

Manufacture in which the value of all used materials does not exceed 40% of

1 For the special requirements regarding "specific processes" see introductory note 7.1 and 7.3

14

2932 and 2933 shall not exceed 20% of the ex works price of the product
the ex works price of the product

2934 Nucleic acids and their salts; other heterocyclic compounds

Manufacture from materials classified in any heading. However, the value of all used materials classified in heading No 2932, 2933 and 2934 shall not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

ex Chapter

30

Pharmaceutical products;

Other than

Manufacture in which all used materials are classified in heading other than that

of the product.

However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product

3002 Human blood; animal blood prepared for therapeutic, prophylactic or diagnostic uses; serums and other blood fractions and modified immunologic products, including those obtained by biotechnological processes; vaccines, toxins, cultures of micro-organisms (excluding yeasts) and similar products:

- Products containing one or more substances mixed for therapeutic or, prophylactic uses, or not mixed products for these uses, prepared in measured doses or in form of packages put up for retail sale

Manufacture from materials classified in any heading, including materials classified in heading No 3002. The materials of this heading may be used provided their value does not exceed 20% of the ex works price of the products

- Other

- Human blood Manufacture from materials classified in any heading, including materials classified in heading No 3002. The materials of this heading may be used provided their value does not exceed 20% of the ex works price of the product

- animal blood, prepared for therapeutic or , prophylactic uses

Manufacture from materials classified in any heading, including materials classified in heading No 3002. The materials of this heading may be used provided their value does not exceed 20% of the ex works price of the product

- blood fractions other than serum, hemoglobin and serum globulins

Manufacture from materials classified in any heading, including materials classified in heading No 3002. The materials of this heading may be used

provided their value does not exceed 20% of the ex works price of the product
- hemoglobin, blood globulins and serum globulins

Manufacture from materials classified in any heading, including materials classified in heading No 3002. The materials of this heading may be used provided their value does not exceed 20% of the ex works price of the product

- Other Manufacture from materials classified in any heading, including materials classified in heading No 3002. The materials of this heading may be used provided their value does not exceed 20% of the ex works price of the product
3003 and
3004

Medicines (excluding products of heading Nor 3002, 3005 and 3006)

- obtained by ampicillin of heading No 2941

Manufacture from materials classified in any heading, including materials classified in heading No 3003 and 3004. The materials of this heading may be used provided their value does not exceed 20% of the ex works price of the product

- other Manufacture in which all used materials are classified in a heading other than that of the product. However, materials classified in heading No 3003 or 3004 may be used provided their value (taken together) does not exceed 20% of the ex works price of the product

- the value of all used materials shall not exceed 50% of the ex works price of the good

ex Chapter

31

Fertilizers,
Other than

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does

not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
ex 3105 Minerals or chemical fertilizers containing two or three of the fertilizing elements, nitrogen, phosphorus and potassium; other fertilizers; goods of this Chapter in tablets or similar forms or in packages of a gross weight not exceeding 10 kg other than:

- sodium nitrate
- calcium cyanamide
- potassium sulfite

Manufacture in which:

- all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

- the value of all used materials shall not

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

16

- magnesium potassium sulfate exceed 50% of the ex works price of the product

Ex Chapter

32

Tanning or dyeing extracts; tannins and their derivatives; dyes, pigments and other coloring matter; prepared paints and varnishes, putty; inks; other than

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3201 Tannins and their salts, ethers, esters and other derivatives

Manufacture from extracts for tanning of

vegetable origin

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

3205 Organic pigments; preparations envisaged in Note 3 of this Chapter on the basis of organic pigments¹

Manufacture from materials classified in any heading, other than heading No 3203, 3204 and 3205.

However, the materials classified in heading No 3205 may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex chapter

33

Essential oils and resinoids; perfumery, cosmetic or toilet preparations, other than:

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

3301 Essential oils (turpeneless or not), including concentrates and absolutes, resinoids, concentrates of essential oils in fats, infixed oils, in waxes or in the like obtained by enfleurage or maceration; terpenic by-products of deterpenation of essential oils; aqueous distillates and aqueous solutions of essential oils

Manufacture from materials classified in any heading, including materials classified in other "group"² of this heading.

However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

Ex Chapter

34

Soap, organic surface active agents, washing preparations, lubricating preparations, artificial waxes, prepared waxes, polishing and scoring preparations, candles and similar articles, modeling pastes, "dental waxes" and dental preparations with a basis of plaster, other than

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

1 Note 3 of Chapter 32 specifies that such preparations are those used for coloring any material or used as

substance in the manufacture of colored preparations, they are not classified in other heading than Chapter

32.

2 "Group" is any part of the heading separated by others by semicolon.

17

Ex 3403 Lubricating preparations containing as basic constituents 70% or more by weight petroleum oils or oils obtained from bituminous minerals

Operations of refining and/or one or more specific process(es)¹ or

Other operations in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product.

3404 Artificial waxes and prepared waxes:

With a basis of paraffin, petroleum waxes, waxes obtained from bituminous minerals, wax of carbon powder or wax from which the oil has been removed

Manufacture in which all used materials

are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 50% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- other Manufacture from materials classified in any heading, except for

- hydrogenated oils that have character of waxes of heading No 1516;

- chemically undefined oily acids or industrial oily alcohols that have characteristics of waxes of heading No 3823;

- materials of heading No 3404

However, these materials may be used provided their value does not exceed 20% of the ex works price of the product.

Ex Chapter

35

Albuminoidal substances, modified starches; glues; enzymes;

Other than

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

3505 Dextrines and other modified starches (for ex. pregelatinized or esterified starches);

glues base on starches, dextrans and other modified starches:

1 For the special requirements regarding "specific processes" see introductory note 7.1 and 7.3

18

Starches, etherified and esterified Manufacture from materials classified in any heading, including other materials of heading No 3505

Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

- Other Manufacture from materials classified in any heading, except for those classified in heading No 1108

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3507 Enzymes, prepared enzymes not elsewhere specified or included

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

Chapter 36 Explosives, pyrotechnical products, pyroforic alloys, certain inflammable preparations

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex Chapter

37

Photographic and cinematographic goods Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

3701 Photographic plates and film in the flat, sensitized, unexposed, of any material other than paper, paperboard or textiles; instant print film in the flat, sensitized, unexposed, whether or not in packs; - instant print film for color photography, in pack

Manufacture in which all used materials are classified in any heading other than heading No 3701 or 3702. However, the

materials of heading No 3702 may be used provided their value does not exceed 30% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
- other Manufacture in which all used materials are classified in any heading other than heading No 3701 or 3702. However, the materials of heading No 3701 or 3702 may be used provided their value does not exceed 30% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
3702 Photographic film in rolls, sensitized, unexposed, of any material other than paper, paperboard or textiles; instant print films in rolls, sensitized, unexposed,
Manufacture in which all used materials are classified in any heading other than heading No 3701 or 3702.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
19

3704 Photographic plates, film, paper, paperboard and textiles exposed but not developed

Manufacture in which all used materials are classified any heading other than heading No 3701 through 3704.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex Chapter

38

Miscellaneous chemical products;
Other than

Manufacture in which all used materials are classified in a heading other than that of the product. However, the materials classified in the same heading may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3801 Colloidal graphite in suspension in oil and semi-colloidal graphite, carbonaceous pastes for electrodes

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

- graphite in a form of paste, containing as basic constituents 30% or more by weight mixture of graphite and mineral oils

Manufacture in which the value of all used materials classified in heading No 3403 does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3803 Tall oil refined Refining of crude tall oil Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3805 Alcohols of sulfate turpentine, purified Purifying by distillation or refining of crude alcohols of sulfate turpentine

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3806 Rosin esters Manufacture from rosin acids Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 3807 Wood resin (tar wood resin) Distillation of wood tar Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

3808 Insecticides, rodenticides, fungicides, herbicides, anti-sprouting products and plant growth regulators, disinfectants and similar products, put up in forms for retail sale or as preparations or articles (for ex. sulfur –treated bands, wicks and candles and fly- papers)

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3809 Finishing agents, dye carriers to accelerate the dyeing or fixing of dyestuffs and other products and preparations (for ex. dressings and mordants) of a kind

used in the textile, paper, leather or like industries, not elsewhere specified or mentioned

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3810 Pickling preparations for metal surfaces; fluxes and other auxiliary preparations for Manufacture in which the value of all used materials does not exceed 50% of 20

soldering and welding; or welding powders and pastes consisting of metals and other materials; preparations of a kind used as cores or coatings for welding electrodes or rods

the ex works price of the product

3811 Anti-knock preparations, oxidation inhibitors, gum inhibitors, viscosity, improvers, anti-corrosive preparations and other prepared additives, for mineral oils (including gasoline) or for other liquids used for same purposes as mineral oils - prepared additives for lubricating oils, containing petroleum oils or oils obtained from bituminous minerals

Manufacture in which the value of all used materials classified in heading No 3811 does not exceed 50% of the ex works price of the product.

- other Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3812 Prepared rubber accelerators, compound plastificators for rubber or plastics, not elsewhere specified or included; antioxidizing preparations, preparations and other compound stabilizers for rubber and plastics:

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3813 Preparations and charges for fire extinguishers, charged fire-extinguishers grenades

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3814 Organic composite solvents and thinners not elsewhere specified or included; prepared paint or varnish removers; Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3818 Chemical elements doped for use in electronics, in the form of discs or similar forms; chemical compounds doped for use in electronics

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3819 Hydraulic brake fluids and other prepared fluids for hydraulic transmission, not containing less than 70% by weight of petroleum or oils obtained from bituminous minerals

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3820 Anti-freezing preparations and prepared de-icing fluids

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

3822 Diagnostic or laboratory reagents on a base and prepared diagnostic or laboratory reagents, on a base or not, Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product.

21

other than those of heading No 3002 or 3006

3823 Industrial monocarbonate oily acids; sour oils from refined industrial oily alcohols
- Industrial monocarbonate oily acids, sour oils from refining

Manufacture in which all used materials are classified in heading other than that of the product.

- industrial oily alcohols Manufacture from materials classified in any heading including those of heading No 3823.

3824 Prepared fusible means for molds or cores; chemical products and

preparations of the chemical or related industries (including those containing mixtures of natural products) not elsewhere specified or included; residues of products of chemical and related industries not elsewhere specified or included;

- The following product of this heading:

- Prepared fusible matters for molds or cores, based on natural resin products

- Petroleum acids; their salts insoluble in water and their esters

Manufacture in which all used materials are classified in heading other than that of the product.

However, the materials classified in the same heading No may be used provided their value does not exceed 20% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Sorbitole other than heading No 2905

Petroleum sulfonate, other than petroleum sulfonates of alkali metals, of ammonia or ethanolimine; tiophenized sulfate acids of oils obtained from bituminous minerals and their salts

Exchangers of ions

Dryers of vacuum tubes

Alkali iron oxide for filtering gases

Ammonia gas liquids and disposable oxide produced upon filtering of carbon gas

Sulfo-petroleum acids, their salts insoluble in water and their esters

Fusel-oil and Dippel-oil

Mixtures of salts that contain different anions

Jelly pastes for copying, with or without paper or textile base

- Other Manufacture in which the value of all

22

used materials does not exceed 40% of the ex works price of the good

3901

through

3915

Plastic in primary forms, waste, parings and scraps; other than titles of heading No 3907 and 3912, for which the rules are given below:

Additive products for homopolymerization in which one polymer constitutes 99% by weight in the total composition of the polymer

Manufacture in which:

- the value of all used materials does not exceed 50% of the ex works price of the product;

- the value of all used materials classified in Chapter 39 does not exceed 20% of the ex works price of the product

- the value of all used materials classified in Chapter 39 does not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- Other Manufacture in which the value of all used materials of Chapter 39 does not exceed 20% of the ex works price of the product¹.

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product.

Ex 3907 Copolymers of polycarbonate and acrylonitrile – butadien-styrenecopolimer (ABS)

Manufacture in which all used materials are classified in heading other than that of the product.

However, the materials of the same heading may be used provided their value does not exceed 50% of the ex works price of the product¹ .

- polyester Manufacture in which the value of all used materials of Chapter 39 does not exceed 20% of the ex works price of the product and/or manufacture from polycarbonate tetrabrom (bisfenol A)

3912 Cellulose and its chemical derivatives not elsewhere specified or included

Manufacture in which the value of all materials classified in heading other than that of the product does not exceed 20% of the ex works price of the product.

3916

through

3921

Semi-products and products of plastics, other than heading Nos. ex 3916, ex 3917, ex 3920 and ex 3921 for which the following rules are given:

23

- Flat products, other than only surfaceworked or cut in forms other than

rectangle (including square); other products, other than only surface-worked

Manufacture in which the value of all used materials classified in Chapter 39 does not exceed 50% of the ex works price of the product.

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the products.

-Other

- Additive products for homopolymerization in which one polymer constitutes 99% by weight in the total composition of the polymer

Manufacture in which:

- the value of all used materials does not exceed 50% of the ex works price of the product;

- the value of all used materials of Chapter 39 does not exceed 20% of the ex works price of the product¹

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

- other Manufacture in which the value of all used materials set out in Chapter 39 does not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

ex 3916

and ex

3917

- profiles and tubes Manufacture in which:
- the value of all used materials does not exceed 50% of the ex works price of the product;

- the value of all used materials classified in heading other than that of the product does not exceed 20% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

Ex 3920 - Plate or film for ionometer Manufacture from thermoplastic auxiliary salt which is copolymer of ethylene and metacrylic acid partially neutralized with ions of metal,

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

- plates of regenerated cellulose, polyamides or polyethylene

Manufacture in which the value of all materials that are classified in a heading other than that of the product does not exceed 20% of the ex works price of the product.

Ex 3921 Foils of plastics, metalized Manufacture from highly transparent polyester foils of a thickness less than 23 micrones¹

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

3922

through

3926

Articles of plastics Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

1 If the products are composed of materials classified within heading Nos. 3901 to 3906 on one side, and

heading Nos. 3907 to 3911 on the other, this restriction shall apply only to the group of materials that prevail

in the weight of the product.

1 The following foils shall be considered to be highly transparent foils: foils with optical vagueness of less than

2%, measured according to the ASTM-D 1003 of Gardner Hazemeter (i.e. Hazefactor).

24

Ex Chapter

40

Rubber and articles thereof Manufacture in which all used materials are classified in heading other than that of the product.

Ex 4001 Plates or crene rubber for shoes Making layers of plates of natural rubber

4005 Compounded rubber, unvulcanized, in primary forms or in plates, sheets or strips

Manufacture in which the value of all used materials, other than natural rubber does not exceed 50% of the ex works price of the product.

4012 Retreaded or used pneumatic tyres of rubber; solid or cushion tyres, interchangeable tyre trades and tyre flaps, of rubber:

- retreaded pneumatic tyres of rubber, solid or cushion tyres, of rubber:

Treading of used tyres

- Other Manufacture from materials classified in any heading, other than those of heading No 4011 or 4012.

Ex 4017 Articles of hard rubber Manufacture from hard rubber

Ex Chapter

41

Raw skins (other than furskins);

Other than

Manufacture in which all used materials are classified in heading other than that of the product.

Ex 4102 Raw skins of sheep or lambs, without wool on

Removing wool from skins of sheep or lamb with hair on

4104

through

4107

Leather, without hair or wool on, other than leather of heading No 4108 or 4109

Repeated tanning of previously tanned leather or

Manufacture in which all used materials are classified in heading other than that of the product.

4109 Patent leather and patent laminated leather; metallized leather

Manufacture from leather of heading No 4104 through 4107 provided its value does not exceed 50% of the ex works

price of the product

Chapter 42 Articles of leather;
Saddlery and harness, travel goods, and
similar containers; products of animal gut
(other than silkworm gut)

Manufacture in which all used materials
are classified in heading other than that
of the product.

Ex Chapter

43

Furskins and artificial fur; manufactures
thereof; other than:

4302 Tanned or dressed furskins, assembled

25

- plates, crosses and similar forms Bleaching or coloring, besides cutting
and assembling of unassembled tanned
or worked furskins

- Other Manufacture from unassembled tanned
or worked furskins

4303 Articles of apparel, clothing accessories
and other articles of furskin

Manufacture from unassembled tanned
or worked furskin of heading No 4302

Ex Chapter

44

Wood and articles of wood; wood
charcoal; other than:

Manufacture in which all used materials
are classified in heading other than that
of the product.

Ex 4403 Wood in the rough Manufacture from wood in the rough,
whether or not stripped of bark, or
roughly squared

ex 4407 Wood sawn or chipped lengthwise sliced
or peeled, of a thickness not exceeding
6mm, planed, sanded or finger jointed
Finger-jointed, planed or sanded

ex 4408 Veneer sheets and sheets for plywood,
and other wood sawn lengthwise, sliced or
peeled, planed, sanded or finger-jointed of
a thickness not exceeding 6 mm
Finger-jointed, planned or sanded

ex 4409 Wood continuously shaped along any of
its edges or faces, planed, sanded or
finger-jointed

- sanded or finger-jointed Sanding or finger-joining

- Rounded and molded shapes of wood Ornamenting or shaping

ex 4410

through

4413

Rounded and molded wood including
molded frames and other molded plates

Ornamenting or shaping

ex 4415 Packing cases, boxes, crates, drums and
similar packing, of wood

Manufacture from boards not cut in any
size or shape

ex 4416 Casks, barrels, vats, tubs, and other
coopers' products and parts thereof

Manufacture from riven staves of wood,
sawn only on the two principal surfaces

ex 4418 Carpentry and other wood products for
construction

Manufacture in which all used materials
are classified in heading other than that
of the product. However, cellulose wood
boards and shingles may be used

- Rounded and molded wood Ornamenting and shaping

ex 4421 Match splins, wooden pegs or pins for
footwear

Manufacture from wood classified in any
heading other than worked wood of

26

heading No 4409

ex Chapter

45

Cork and articles of cork; other than: Manufacture in which all used materials
are classified in heading other than that
of the product.

4503 Articles of natural cork Manufacture from cork of heading No

4501

Chapter 46 Products of straw, of esparto or other
plaiting materials; basketware and
wickerwork

Manufacture in which all used materials
are classified in heading other than that
of the product.

Chapter 47 Pulp of wood or of other fibrous cellulosic
material; waste and scrap of paper or
paperboard

Manufacture in which all used materials
are classified in heading other than that
of the product.

Ex Chapter

48

Paper and paperboard; articles of paper

pulp, of paper or of paperboard; other than:

Manufacture in which all used materials are classified in heading other than that of the product.

Ex 4811 Paper and paperboard, only impregnated, surface decorated of a rectangle form
Manufacture from materials for making paper of Chapter 47

4816 Carbon paper, self-copy paper and other copying or transfer paper (other than those of heading No 4809), duplicator stencils and offset-plates, of paper, whether or not in boxes

Manufacture from materials for making paper of Chapter 47

4817 Envelopes, letter-cards, plain postcards and correspondence cards, of paper or paperboard; boxes, pouches, wallets and writing compendiums, of paper or paperboard, containing an assortment of paper stationery

Manufacture in which all used materials are classified in heading other than that of the product.

- the value of all used material does not exceed 50% of the ex works price of the product

ex 4818 Toilet paper Manufacture from materials for making paper of Chapter 47

ex 4819 Cartons, boxes, cases, bags and other packing containers, of paper, paperboard, cellulose wadding or webs of cellulose fibers

Manufacture in which all used materials are classified in heading other than that of the product.

- the value of all used material does not exceed 50% of the ex works price of the product

ex 4820 Letter pads Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

ex 4823 Other paper, paperboard, cellulose wadding or webs cut in size or shape
Manufacture from materials for making paper of Chapter 47

ex Chapter

49

Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans, other than:

Manufacture in which all used materials are classified in heading other than that of the product.

4909 Printed or illustrated postcards, printed cards bearing personal greetings, messages or announcements, whether or not illustrated, with or without envelopes or trimmings

Manufacture from materials that are not classified in heading No 4909 or 4911

4910 Calendars of any kind, printed, including calendar blocks

- Calendars such as "eternal" or with replaceable blocks pinned on bases not made of paper or paperboard

Manufacture in which all used materials are classified in heading other than that of the product.

- the value of all used material does not exceed 50% of the ex works price of the product

- other Manufacture from materials that are not classified in heading No 4909 or 4911

ex Chapter

50

Silk, other than Manufacture in which all used materials are classified in heading other than that of the product.

Ex 5003 Silk waste (including cocoon unsuitable for reeling yarn waste) combed

Combing silk waste

5004

through ex

5006

Silk yarn and yarn spun from silk waste Manufacture from1 :

- raw silk or silk waste combed or otherwise prepared for spinning;

- other natural fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp or

- paper-making materials

5007 Woven fabrics of silk or of silk waste

- containing gum thread

Manufacture from single woven yarn

- Other Manufacture from¹ :

- yarn of coconut fiber

- natural fibers

-artificial cut fibers not combed or otherwise prepared for spinning

- chemical materials or textile pulp or

¹ For the special requirements regarding products made of mixtures of textile materials, see introductory note

1

28

- paper or

Printing accompanied by at least two preparatory or finishing operations (such as washing, bleaching, mercerization, thermofixation, pulling out, rolling, processing against shrinking, permanent and finishing processing, decatization, impregnation, aperture, darning) where the value of the used not printed materials does not exceed 47,5% of the ex works price of the product

ex Chapter

51

Wool, fine or coarse animal hair; horsehair yarn and woven fabric

Manufacture in which all used materials are classified in a heading other than that of the product

Wool yarn of fine or coarse animal hair or horsehair

Manufacture from:

- raw silk or silk waste combed or otherwise prepared for spinning;

- other natural fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp or

- paper-making materials

5106

through

5110

Wool yarn of fine or coarse animal hair or horsehair

Manufacture from raw silk or silk waste combed or otherwise prepared for

spinning;

- natural fibers not combed or otherwise prepared for spinning;
- chemical materials or textile pulp or
- paper-making materials

5111

through

5113

Woolen fabrics of fine or coarse animal hair or horsehair

- containing gum thread

Manufacture from single woven yarn¹

- Other Manufacture from¹ :

- yarn of coconut fiber

- natural fibers

-artificial cut fibers not combed or otherwise prepared for spinning

- chemical materials or textile pulp or

- paper or

Printing accompanied by at least two preparatory or finishing operations (such as washing, bleaching, mercerization, thermofixation, pulling out, rolling, processing against shrinking,

30

5306

through

5308

Yarn of other vegetable textile fibers;

paper yarn

Manufacture from¹ :

- raw silk or silk waste combed or otherwise prepared for spinning;

- other natural fibers not combed or

otherwise prepared for spinning;
- chemical materials or textile pulp or
- paper-making materials

5309

through

5311

Yarn of other vegetable textile fibers;
paper yarn

- containing gum thread Manufacture from single woven yarn¹

- other Manufacture from¹ :

- yarn of coconut fiber

- natural fibers

-artificial cut fibers not combed or
otherwise prepared for spinning

- chemical materials or textile pulp or

- paper or

Printing accompanied by at least two
preparatory or finishing operations (such
as washing, bleaching, mercerization,
thermofixation, pulling out, rolling,
processing against shrinking,
permanent and finishing processing,
decatization, impregnation, aperture,
darning) where the value of the used not
printed materials does not exceed
47,5% of the ex works price of the
product

5401

through

5406

Yarn, monofilament and artificial filament
yarn

Manufacture from:¹

- raw silk or silk waste combed or
otherwise prepared for spinning;

- other natural fibers not combed or
otherwise prepared for spinning;

- chemical materials or textile pulp or

- paper-making materials

5407 and

5408

Fabrics of artificial filament yarn

- containing gum thread Manufacture from single woven yarn¹

32

thermofixation, pulling out, rolling, processing against shrinking, permanent and finishing processing, decatization, impregnation, aperture, darning) where the value of the used not printed materials does not exceed 47,5% of the ex works price of the product

ex Chapter

56

Wadding, felt and nonwovens; special yarns; twine; cordage, ropes and cables and articles thereof; other than:

Manufacture from1:

- raw silk or waste of silk combed or otherwise prepared for spinning;
- other natural fibers not combed or otherwise prepared for spinning;
- chemical materials or textile pulp or
- paper-making materials

5602 Felt, whether or not impregnated, coated, covered or in layers

- needle-shaped felt Manufacture from1:
- natural fibers,
- chemical materials or textile pulp,

However,

- polypropylene filament of the heading No 5402

- fibers of polypropylene of the heading Nos. 5503 or 5506 or

- twine of polypropylene of the heading No 5501 whose denomination in all cases of monofilament or fiber is smaller than 9 decitex, may be used provided their value does not exceed 40% of the ex works price of the product

- Other Manufacture from:

- natural fibers,
- artificial cut fibers made of caseine or
- chemical materials or textile pulp,

5604 Thread and cordage of gum; covered with textile; textile yarn and stripes and like from heading Nos. 5404 or 5405,

impregnated, coated, or covered with gum or plastics mass:

- Thread and cordage of gum covered with textile material

Manufacture from thread or cordage of gum, not covered with textile material

33

- Other Manufacture from1:

- natural fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp or

- paper-making materials

5605 Metallized yarn, whether or not coated, containing textile yarn, strips and like of the heading No 5404 or 5405, combined with metal in a form of tread, strips or powder or coated with metal

Manufacture from1:

- natural fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp or

- paper-making materials

5606 Coated yarn and strips of heading No 5404 or 5405, coated (except those of heading No 5605 and coated yarn of horsehair); zanila yarn (including soft zanila yarn)

Manufacture from1:

- natural fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp or

- paper-making materials

Chapter 57 Carpets and other textile floor coverings:

- of- needle-shaped felt Manufacture from1:

- natural fibers,

- chemical materials or textile pulp,

However,

- polypropylene filament of the heading No 5402

- fibers of polypropylene of the heading Nos. 5503 or 5506 or

- twine of polypropylene of the heading No 5501 whose denomination in all cases of monofilament or fiber is smaller than 9 decitex, may be used provided their value does not exceed 40% of the ex works price of the product

- of other felt Manufacture from1:

- natural fibers not combed or otherwise prepared for spinning;
- chemical materials or textile pulp or
- paper-making materials
- other Manufacture from:
- yarn of coconut fiber not combed or otherwise prepared for spinning;
- synthetic or man-made filament yarn
- natural fibers or

1 For the special requirements regarding products made of mixtures of textile materials, see introductory note

5.

34

- artificially cut fibers not combed or otherwise prepared for spinning

ex Chapter

58

Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery; except for

- combined with gum thread Manufacture from one-string yarn¹
- Other Manufacture from
- yarn of coconut fiber
- natural fibers

-artificial cut fibers not combed or otherwise prepared for spinning

- chemical materials or textile pulp or
- paper or

Printing accompanied by at least two preparatory or finishing operations (such as washing, bleaching, mercerization, thermofixation, pulling out, processing against shrinking, impregnation, aperture, darning) where the value of the used not printed materials does not exceed 47,5% of the ex works price of the product

Manufacture in which all used materials are classified in a heading other than that of the product

5805 Hand-woven tapestries of the type Gobelins, Flandres, Aubusson, Beauvais and the like, and needle-worked tapestries (for example, petit point, cross stitch) whether or not made-up

Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of all used materials does not exceed 50% of the ex works price of the product

5810 Embroidery in the piece, in stripes or in motifs

5901 Textile fabrics coated with gum or amylose substances, of a kind used for outer covers of books or the like; tracing cloth; prepared painting canvas; buckram and similar stiffened textile fabrics of a kind used for hat foundations; Manufacture from yarn

5902 Tyre cord fabric of high tenacity yarn of nylon or other polyamides, polyesters or viscose rayon;

35

- not containing more than 90% textile materials per mass

Manufacture from yarn

- Other Manufacture from chemical materials or textile pulp

5903 Fabrics impregnated, coated, covered or laminated with plastics, other than those in heading No 5902

Manufacture from yarn or

Printing accompanied by at least two preparatory or finishing operations (such as washing, bleaching, mercerization, thermofixation, pulling out, processing against shrinking, impregnation, aperture, darning) where the value of the used not printed materials does not exceed 47,5% of the ex works price of the product

5904 Linoleum, whether cut to shapes, floor coverings consisting of a coating or covering applied on a textile backing, whether cut to shape

Manufacture from yarn

5905 Textile wall coverings

- impregnated, coated, covered or laminated with gum, plastics or other materials

- Other Manufacture from

- yarn of coconut fiber

- natural fibers

-artificial cut fibers not combed or otherwise prepared for spinning

- chemical materials or textile pulp or
- paper or

Printing accompanied by at least two preparatory or finishing operations (such as washing, bleaching, mercerization, thermofixation, pulling out processing against shrinking, impregnation, aperture, darning) where the value of the used not printed materials does not exceed 47,5% of the ex works price of the product

5906 Rubberized textile fabrics, other than those of heading No 5902

- Knitted or crocheted fabrics Manufacture from:

- natural fibers
- artificial cut fibers or otherwise prepared for spinning;

- chemical materials or

36

- textile pulp

Other fabrics of synthetic filament yarn containing 90% by weight textile materials Manufacture from chemical materials

- Other Manufacture from yarn

5907 Textile fabrics otherwise impregnated; coated or covered; painted canvas being theatrical scenery, studio back-clothes, or the like

Manufacture from yarn or

Printing accompanied by at least two preparatory or finishing operations (such as washing, bleaching, mercerization, thermofixation, pulling out, processing against shrinking, impregnation, aperture, darning) where the value of the used not printed materials does not exceed 47,5% of the ex works price of the product

5908 Textile wicks, woven, plaited, or knitted, for lamps, stoves, lighters, candles or the like, incandescent gas mantles and tubular knitted gas mantle fabric therefor, whether or not impregnated

- incandescent gas mantles, impregnated Manufacture from tubular knitted gas mantle fabric for mantles

- Other Manufacture in which all used materials are classified in a heading other than that of the product

5909

through

5911

Textile product for technical uses

- Polishing disks or rings, other than felt of heading No 5911

Manufacture from yarn or waste fabrics or linen of heading No 6310

- Fabrics of a kind usually used for papermaking or other technical uses, whether or not felted, whether or not impregnated, whether or not coated, tubular or endless with onefold or multifold base and or/core or flatwoven with multifold base and/or core of heading No 5911

Manufacture from:

- yarn of coconut fibers

- the following materials:

- polytetrafluorethylene¹

- yarn, multifold, of polyamide, coated, impregnated or covered with phenol resin,

- yarn of synthetic fibers of aromatic polyamides obtained from polycondensation of m-phenyldiamine and isophthalate acid

- monophyl of polytetrafluorethylene

- yarn of synthetic textile fibers of poly pphenylterephthalamide

¹ The use of this material is restricted to manufacture of fabrics used in machines for papermaking.

37

- yarn of glass fibers, coated with phenyl resin and sawn with acryl yarn¹

- copolyester monofilaments of polyester and resin of therephtale acid and 1,4 cyclohexandinthanol and isophthalate acid

- natural fibers, cut fibers, not combed or otherwise prepared for spinning or

- chemical materials or textile pulp

- Other Manufacture from²:

- yarn of coconut fibers

- natural fibers

- artificial cut fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp

Chapter 60 Knitted or crocheted fabrics Manufacture from²:

- natural fibers

- artificial cut fibers not combed or otherwise prepared for spinning;
- chemical materials or textile pulp
Chapter 61 Articles of apparel and clothing accessories, knitted or crocheted

- Obtained by sawn or otherwise joined two or more pieces of knitted or crocheted material, cut in forms or directly obtained as forms

Manufacture from yarn

- Other Manufacture from1:

- natural fibers

- artificial cut fibers not combed or otherwise prepared for spinning;

- chemical materials or textile pulp

Semi-products, flat-rolled products, bars
and rods, angles, shapes and sections of
stainless steel

Manufacture from ingots or other basic
forms of heading No 7218

7223 Wire of stainless steel Manufacture from semi-finished
materials of heading No 7218

Ex 7224,
7225

through
7228

Semi-products, flat-rolled products, bars
and rods hot-rolled,in irregularly wound
coils; angles, shapes and sections of
other alloy steel; hollow drill bars and rods
of alloy or non-alloy steel

Manufacture from ingots or other basic
forms of headings Nos. 7206, 7218 or
7224

7229 Products of other alloy steel Manufacture from semi-finished
products of heading No 7224

Ex Chapter
73

Products of iron or steel, except Manufacture in which all used materials
are classified in a heading other than
that of the product

44

Ex 7301 Sheet piling Manufacture from materials from
heading 7206

7302 Railway or tramway track construction
material of iron or steel, the following:
rails, check-rails and rack rails, switch

blades, crossing frogs, point rods and other crossing pieces, sleepers (crossties), fish-plates, chairs, chair wedges, sole plates (base plates), rail clips and other material specialized for joining or fixing rails

Manufacture from materials from heading 7206 7304, 7305 and 7306

Tubes and hollow profiles of iron (other than cast iron) or steel

Manufacture from materials from headings Nos. 7206, 7207, 7218 or 7224

Ex 7307 Tube or pipe fittings of stainless steel (ISO X5 CrNiMo 1712) composed of several parts

Shaping, performing, drilling, pulling, grinding and work with direct stream of wrought metal plates whose value does not exceed 35% of the ex works price of the product

7308 Structures (excluding prefabricated buildings of heading 9406) and parts of structures (for example, bridges and bridge sections, lock-gates, towers, lattice masts, roofs, roofing frameworks, doors and windows and their frames and thresholds for doors, shutters, balustrades, pillars and columns), of iron or steel; plates, rods, angles, shapes, sections, tubes and the like, prepared for use in structures, of iron or steel

Manufacture in which all used materials are classified in a heading other than that of the product

However welded angles, shapes and sections of heading 7301 cannot be used

Ex 7315 Skid chain Manufacture in which the value of all used materials of heading 7315 does not exceed 50% of the ex works price of the product

Ex Chapter 74

Copper and articles thereof Manufacture in which:
- all used materials are classified in a

heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

7401 Copper mattes; cement copper (precipitated copper)

Manufacture in which all used materials are classified in a heading other than that of the product

7402 Unrefined copper; copper anodes for electrolytic refining

Manufacture in which all used materials are classified in a heading other than that of the product

45

7403 Refined copper and copper alloys, unwrought

- refined copper Manufacture in which all used materials are classified in a heading other than that of the product

- Copper alloys and refined copper containing other elements

Manufacture of refined copper, unwrought, or copper waste or scrap

7404 Copper waste and scrap Manufacture in which all used materials are classified in a heading other than that of the product

7405 Master alloys of copper Manufacture in which all used materials are classified in a heading other than that of the product

Ex Chapter

75

Nickel and articles thereof Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

7501

through

7503

Nickel mattes, nickel oxide sinters and other intermediate products of nickel metallurgy; unwrought nickel, nickel waste and scrap

Manufacture in which all used materials are classified in a heading other than that of the product

Ex Chapter

76

Aluminum and articles thereof; except Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

7601 Unwrought aluminum Manufacture with thermal or electrolytic method of non-alloy aluminum or waste or scrap thereof

7602 Aluminum waste and scrap Manufacture in which all used materials are classified in a heading other than that of the product

Ex 7616

Articles of aluminum other than gauze, gird, net, fence, articles for strengthening (including endless strips) of aluminum wire and expanded metal of aluminum Manufacture in which:

- all used materials are classified in a heading other than that of the product
- however, gauze, gird, net, fence, articles for strengthening (including endless strips) of aluminum wire and expanded metal of aluminum, may be used
- the value of all used materials does

46

not exceed 50% of the ex works price of the product

Chapter 77 Reserved for possible future use in HS

Ex chapter

78

Lead and articles thereof Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

7801 Unwrought lead

- refined lead Manufacture from lead in bars or "working lead"
- other Manufacture in which all used materials are classified in a heading other than that of the product

However, lead waste and scrap of heading No 7802 can not be used

7802 Lead waste and scrap Manufacture in which all used materials are classified in a heading other than that of the product

Ex Chapter
79

Zinc and articles thereof Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

7901 Unwrought zinc Manufacture in which all used materials are classified in a heading other than that of the product

However, zinc waste and scrap of heading No 7902 can not be used

7902 Zinc waste and scrap Manufacture in which all used materials are classified in a heading other than that of the product

Ex Chapter
80

Tin and articles thereof Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

8001 Unwrought tin Manufacture in which all used materials are classified in a heading other than that of the product

However, tin waste and scrap of
47

heading No 8002 can not be used
8002 and
8007

Tin waste and scrap, other tin articles Manufacture in which all used materials are classified in a heading other than that of the product

Chapter 81 Other base metals; cremates; articles thereof

- other base metals, wrought, articles thereof

Manufacture in which all used materials that are classified in a same heading as the product, does not exceed 50% of the ex works price of the product

- Other Manufacture in which all used materials are classified in a heading other than

that of the product

Ex Chapter

82

Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal, except:

Manufacture in which all used materials are classified in a heading other than that of the product

8206 Tools of two or more of heading Nos. 8202 to 8205, put up in sets for retail sale

Manufacture in which all used materials are not classified in heading Nos. 8202 to 8205

However, tools of heading Nos. 8202 to 8205 can be used provided their value does not exceed 15 % of the ex works price of the product

8207 Interchangeable tools for hand tools, whether or not power operated, or for machine-tools (for example, for pressing, stamping, punching, tapping, threading, drilling, boring, broaching, milling, turning or screw driving) including dies for drawing or extruding metal, and rock drilling or earth boring tools

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

8208 Knives and cutting blades, for machines or mechanical appliances

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Ex 8211 Knives with cutting blades, serrated or not (including pruning knives) other than knives of heading No 8208

Manufacture in which all used materials are classified in a heading other than that of the product

However, blades for knives and handles of base metal can be used

8214 Other articles of cutlery (for example, hair clippers, butchers' or kitchen cleavers, choppers and mincing knives, paper knives); manicure or pedicure sets and instruments (including nail files)

Manufacture in which all used materials are classified in a heading other than that of the product

However, handles of base metal can be used

48

8245 Spoons, forks, ladles, skimmers, cakeservers, fish-knives, butter-knives, sugar tongs and similar kitchen tableware

Manufacture in which all used materials are classified in a heading other than that of the product

However, handles of base metal can be used

Ex Chapter

83

Miscellaneous articles of base metal, other than cake-servers, fish-knives, butter-knives

Manufacture in which all used materials are classified in a heading other than that of the product

Ex 8302 Base metal mountings, fittings and similar articles suitable for buildings, automatic door closures

Manufacture in which all used materials are classified in a heading other than that of the product

However, other materials of heading No 8302 can be used provided their value does not exceed 20% of the ex works price of the product

Ex 8306 Statuettes and other ornaments of base metal

Manufacture in which all used materials are classified in a heading other than that of the product

However, other materials of heading No 8306 can be used provided their value does not exceed 30% of the ex works price of the product

Ex Chapter

84

Nuclear reactors, boilers, machinery and mechanical appliances thereof, other than Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex 8401 Nuclear fuel elements Manufacture in which all used materials are classified in a heading other than that of the product¹

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8402 Steam or other vapor generating boilers (other than central heating hot water boilers capable also of producing low pressure steam) super-heated water boilers

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8403 and

8404

Steam and other vapor generating boilers other than those of heading No 8402 and auxiliary plant for use with boilers

Manufacture in which all materials are classified in heading No 8403 or 8404

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8406 Steam turbines and other vapor turbines Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

¹ This rule shall be applied until 31 December 1998

49

8407 Spark-ignition reciprocating or rotary internal combustion piston engines

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
8408 Compression-ignition internal combustion engines (diesel or semi-diesel)

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
8409 Parts suitable for use solely or principally with engines of heading No 8407 or 8408

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
8411 Turbo-jets, turbo propellers and other gas turbines

Manufacture in which:
- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product
8412 Other engines and motors Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 8413 Rotary displacement pumps Manufacture in which:
- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product
Ex 8414 Industrial ventilating fans, fans and the like

Manufacture in which:
- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product
8415 Air conditioning machines, comprising

motor-driven fan and elements for changing the temperature or humidity, including those machines in which the humidity cannot be separately regulated
Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
8418 Refrigerators, freezers and other refrigerating or freezing equipment, electric or other, heat pumps other than air conditioning machines of heading No 8415

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product
- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

Ex 8419 Industrial machinery used for manufacture Manufacture in which: Manufacture in which the value of all
50

of wood, paper pulp, paper or paperboard - the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in the same heading as the product, are used only to the value of 25% of the ex works price of the product
- used materials does not exceed 30% of the ex works price of the product

8420 Calendering or other rolling machines, other than for metals and glass, and cylinders thereof

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product
- in which, within the aforementioned limit, the materials that are classified in the same heading as the product, are

used only to the value of 25% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8423 Weighing machines (excluding balances of a sensitivity of 5cg or better), including weight operated counting or checking machines; weighing machine weights of all kinds

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8425 to

8428

Lifting, handling, loading or unloading machinery

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product
- in which, within the aforementioned limit, the materials that are classified in heading 8431, are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8429 Self-propelled bulldozers, angledozers, graders, scrapers, mechanical shovels, excavators, shovel loaders, tamping machines and road rollers

- road rollers Manufacture in which:
 - the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product
- in which, within the aforementioned

limit, the materials that are classified in heading 8431, are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

51

8430

Other moving, grading, leveling, scraping, excavating, tamping, compacting, extracting or boring machinery, for earth, minerals or ores; pile-drivers and pile extractors; snow-plugs and snow-blowers
Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 8431, are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex 8431 Parts suitable for use solely or principally with the road rollers

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8439 Machinery for making pulp of fibrous cellulose material or for making or finishing paper or paperboard

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in the same heading as the product, are used only to the value of 25% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8441 Other machinery for making paper pulp, paper or paperboard, including cutting

machines of all kind

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in the same heading as the product, are used only to the value of 25% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8444 to

8447

Machines of these headings for use in the textile industry

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 8448 Auxiliary machinery for use with machines of heading No 8444 and 8445

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8452 Sewing machines, other than book-sewing machines of heading No 8440; furniture, bases and covers specially designed for sewing machines, sewing machines needles

- sewing machines (losk-stich only) with heads of a weight not exceeding 16 kg without motor or 17 kg including the motor

Manufacture:

- in which the value of all used materials does not exceed 40% of the ex works price of the product

52

- in which the value of materials not originating domestically used in assembling the head (without motor) does not exceed the value of the used materials originating domestically

- used mechanisms for tightening the thread for zik-zak and croche, are originating domestically

- other Manufacture in which the value of all used materials does not exceed 40% of

the ex works price of the product

8456 to

8466

Machine tools and machines and parts thereof and accessories of heading Nos.

8456 to 8466

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8469 to

8472

Office machines (for example, typewriters, calculating machines, automatic dataprocessing machines, duplicating machines, machines for sorting)

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8480 Molding boxes for metal foundry; mould

bases; molding patterns, moulds for metal (other than ingot moulds), metal carbides, glass, mineral materials, rubber or plastics

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

8482 Ball or roller bearings Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8484 Gaskets and similar joints of metal sheeting combined with other material or of two or more layers of metal; sets or assortments of gaskets and similar joints, dissimilar in composition, put up in pouches, envelopes or similar packing

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8485 Machinery parts, not containing electrical connectors, insulators, coils, contacts or other electrical features, not specified or included elsewhere in this Chapter

Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

Ex Chapter

85

Electrical machinery and equipment thereof; sound records and reproducers, television image and sound records and reproducers, and parts and accessories of such articles, other than:

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8501 Electric motors and generators (excluding Manufacture in which: Manufacture in which the value of all

53

generating sets) - the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 8503, are used only to the value of 10% of the ex works price of the product

used materials does not exceed 30% of the ex works price of the product

8502 Electric generating sets and rotary converters

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 8501 or 8503, taken together, are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex 8504 Apparatus for charging automatic dataprocessing machines with electric power

Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

Ex 8518 Microphones and stands thereof; loudspeakers, whether or not mounted in their enclosures; audio-frequency electric amplifiers; electric sound amplifier sets

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product
- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8519 Record-players with or without own amplifier, cassette-players and other sound reproducing apparatus, not incorporating a sound recording device

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product
- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8520 Magnetic type recorders and other sound recording apparatus, whether or not incorporating a sound recording device

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product
- the value of all used materials that are not domestically originating materials does not exceed the value of the used

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

54

domestically originating materials

8521 Video recording or reproducing, whether or not incorporating a video tuner

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8522 Parts and accessories of apparatus of heading Nos. 8519 to 8521

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8523 Prepared unrecorded media for sound recording or similar recording or other phenomena, other than of Chapter 37

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8524 Records, tapes and other recorded media for sound or other similarly recorded phenomena, including matrices and masters for the production of records, but excluding products of Chapter 37;

- matrices and masters for the production of records

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- other Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product in which,

- within the aforementioned limit, the materials that are classified in heading 8523 are used only to the value of 10%

of the ex works price of the product
Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product
8525 Transmission apparatus for radiotelephony, radio-telegraphy, radiobroadcasting or television, whether or not incorporating reception apparatus or reproducing apparatus; television cameras; video cameras for static pictures and other video cameras

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product
- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product
8526 Radar apparatus, radio navigational aid apparatus and radio remote control apparatus

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

55

the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

8527 Reception apparatus for radio-telephony, radio-telegraphy or radio-broadcasting, whether or not combined, in the same housing, with sound recording or reproducing apparatus or a clock

Manufacture in which:

- all used materials are classified in a

heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8528 Television receivers, whether or not incorporating radio-broadcast receivers or sound or video recording or reproducing apparatus

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8529 Parts suitable for use solely or principally with the apparatus of heading Nos. 8525 to 8528

- suitable for use solely or principally for recording apparatus or reproducers of pictures

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- Other Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all

used materials does not exceed 25% of the ex works price of the product

8535 and

8536

Electrical apparatus for switching or protecting electrical circuits, or for making connections to or in electrical circuits

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 8538 are used only to the value of 10% of the ex works price of the

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

56

product

8537 Boards, panels, consoles, desks, cabinets and other bases, equipped with two or more apparatus of heading No 8535 or 8536, for electric control of the distribution of electricity, including those incorporating instruments or apparatus of Chapter 90, other than switching apparatus of heading No 8517

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 8538 are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex 8541 Diodes, transistors and similar semiconductor devices, other than semiconductor bases not assembled in modules

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does

not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8542 Electronic integrated circuits and microassemblies

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 8541 or 8542, taken together, are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

8544 Insulated (including enameled or anodized) wire, cable (including coaxial cable) and other insulated electric conductors, whether or not fitted with connectors; optical fiber cables, made up of individually sheathed fibers, whether or not assembled with electric conductors or fitted with connectors

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8545 Carbon electrodes, carbon brushes, lamp carbons, battery carbons and other articles of graphite or other carbon, with or without metal, of a kind used for electrical purposes

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8546 Electric insulators of any material Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8547 Insulating fittings for electrical machines, appliances or equipment, being fittings wholly of insulating material apart from any minor components of metal (for example, threaded sockets) incorporated during molding solely for purposes of Manufacture in which the value of all

used materials does not exceed 40% of the ex works price of the product

57

assembly, other than insulators of heading No 8546; electrical conduit tubing and joints thereof, of base metal lined with insulating material

8548 Waste and scrap of galvanic elements, galvanic batteries and electric battery; spent galvanic elements, spent galvanic batteries and spent electric batteries; electric parts of machines or apparatus not elsewhere specified or mentioned in this Chapter

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex Chapter

86

Railway or tramway locomotives, rolling stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signaling equipment of all kinds

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8608 Railway or tramway track fixtures and fittings; mechanical (including electromechanical) signaling, safety or traffic control equipment for railways, tramways, roads, inland waterways, parking facilities, port installations or airfields; parts of the foregoing

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex Chapter

87

Vehicles other than railway or tramway rolling-stock, and parts and accessories

thereof, other than

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

8709 Works trucks, self-propelled, not fitted with lifting or handling equipment, of the type used in factories, warehouses, dock areas or airports for short distance transport of goods, tractors of the type used on railway station platforms; parts of the foregoing vehicles

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8710 Tanks and other armored fighting vehicles, whether or not fitted with weapons, and parts of such vehicles

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8711 Motor-cycles (including mopeds) and cycles fitted with an auxiliary motor, with or without side-cars, side-cars

- with reciprocating internal combustion piston engine of a cylinder capacity

58

- not exceeding 50 cm³ Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product
- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 20% of the ex works price of the product

- exceeding 50 cm³ Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

- other Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex 8712 Bicycles without ball bearings Manufacture of materials that are not classified in heading 8714

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8715 Baby carriages and parts thereof Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

8716 Trailers and semi-trailers; other vehicles, not mechanically propelled; parts thereof

Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all

used materials does not exceed 30% of the ex works price of the product

Ex Chapter

88

Aircraft, spacecraft, and parts thereof Manufacture in which all used materials are classified in a heading other than that of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 8804 Rotochutes Manufacture of materials classified in any heading, including those of heading

8804

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

59

8805 Aircraft launching gear; deck-arrest or similar gear; ground flying trainers; parts of the foregoing articles

Manufacture in which all used materials are classified in a heading other than that of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Chapter 89 Ships, boats and floating structures Manufacture in which all used materials are classified in a heading other than that of the product

However, boat hull of heading 8906 cannot be used

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex Chapter

90

Optical, photographic, cinematographic, measuring, checking, precision, medical or surgical instruments and apparatus; part and accessories thereof; other than Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of

the ex works price of the product
9001 Optical fibers and optical fiber bundles;
optical fiber cables other than those of
heading No 8544; sheets and plates of
polarizing material (including contact
lenses), prisms, mirrors and other optical
elements, of any material, unmounted,
other than such elements of glass not
optically worked

Manufacture in which the value of all
used materials does not exceed 40% of
the ex works price of the product

9002 Lenses, prisms, mirrors and other optical
elements, of any material, mounted, being
parts of or fittings for instruments or
apparatus, other than such elements of
glass not optically works

Manufacture in which the value of all
used materials does not exceed 40% of
the ex works price of the product

9904

Spectacles, goggles and the like,
corrective, protective or other

Manufacture in which the value of all
used materials does not exceed 40% of
the ex works price of the product

Ex 9005 Binoculars, monoculars, other optical
telescopes, and mountings therefor, but
not including instruments for radioastronomy

Manufacture in which:

- all used materials are classified in a
heading other than that of the product
- the value of all used materials does
not exceed 40% of the ex works price of
the product

- the value of all used materials that are
not domestically originating materials
does not exceed the value of the used
domestically originating materials

Manufacture in which the value of all
used materials does not exceed 30% of
the ex works price of the product

Ex 9006 Photographic (other than
cinematographic) cameras; photographic
flashlight apparatus and flashbulbs other
than flashlamps with electric discharge

Manufacture in which:

- all used materials are classified in a

heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product
60

not domestically originating materials does not exceed the value of the used domestically originating materials
9907 Cinematoraphic cameras and projectors, whether or not incorporating sound recording or reproducing apparatus

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

9011 Compound optical microscopes, including those for photomicrography, cinephotomicrography or microprojection

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

Ex 9014 Other navigational instruments and appliances

Manufacture in which the value of all used materials does not exceed 40% of

the ex works price of the product

9015 Surveying (including photogrammetrical surveying), hydrographic, oceanographic, hydrological, meteorological or geophysical instruments and appliances, excluding compasses; rangefinders

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9016 Balances of a sensitivity of 5 cg or better, with or without weights

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9017 Drawing, marking-out of mathematical calculating instruments (for example drafting machines, pantographs, protractors, drawing sets, slide rulers, discs calculators), instruments for measuring length, for use in the hand, (for example, measuring rods and tapes, micrometers, calipers), not specified or included elsewhere in this Chapter

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9018 Instruments and appliances used in medical, surgical, dental or veterinary sciences, including scintigraphic apparatus; other electro-medical apparatus and sight-testing instruments

61

- dentists' chairs with incorporated dental equipment or dental spittoon

Manufacture of materials of any heading, including other materials of heading No 9018

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- other Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of

the ex works price of the product

9019 Mechao-therapy appliances; massage apparatus; psychological aptitude-testing apparatus; ozone therapy, oxygen therapy; aerosol therapy; artificial respiration or other therapeutic apparatus

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

9020 Other breathing appliances and gas masks, excluding protective masks having neither mechanical parts nor replaceable filters

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 25% of the ex works price of the product

9024 Machines and appliances for testing the hardness, strength, compressibility, elasticity, metals, wood, textiles, paper, plastics

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9025 Hydrometers and similar floating instruments, thermometers, pyrometers, barometers, hygrometers and psychometers, recording or not, and any combination of these instruments

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9026 Instruments and apparatus for measuring or checking the flow, level, pressure or other variables of liquids or gases (for example, flow meters, level gauges, manometers, heat meters), excluding

instruments and apparatus of heading No 9014, 9015, 9028 and 9032, Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9027 Instruments and apparatus for physical or chemical analyses (for example, polarimeters, refractometers, as or smoke analysis apparatus); instruments and apparatus for measuring or checking viscosity, porosity, expansion, surface tension or the like; instruments and apparatus for measuring or checking quantities of heat, sound or light (including exposure meters); microtomes

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

62

9028 Gas, liquid or electricity supply or production meters, including calibrating meters therefor

- Parts and accessories Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
- other Manufacture in which:
 - all used materials are classified in a heading other than that of the product
 - the value of all used materials does not exceed 40% of the ex works price of the product
 - the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

9029 Revolution counters, production counters, taximeters, milometers, pedometers and the like; speed indicators and tachometers, other than those of heading No 9014 or 9015; stroboscopes

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

9030 Oscilloscopes, spectrum analyses and other instruments and apparatus for

measuring or checking electrical quantities, excluding meters of heading No 9028; instruments and apparatus for measuring or detecting alpha, beta, gamma, X-ray or other ionizing radiation
Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
9031 Measuring or checking instruments, appliances and machines, not specified or including elsewhere in this Chapter; profile projectors

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
9032 Automatic regulating or controlling instruments or apparatus

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
9033 Parts and accessories (not specified or included elsewhere in this Chapter) for machines, appliances, instruments or apparatus of Chapter 90

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
Ex Chapter

9 1
Clocks, watches and parts thereof; other than

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
9105 Other clocks Manufacture in which:
- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product
6 3

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials
9109 Clock movements, complete and assembled

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- the value of all used materials that are not domestically originating materials does not exceed the value of the used domestically originating materials

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

9110 Complete watch or clock movements, unassembled or partly assembled (movement sets); incomplete watch or clock movements, assembled; rough watch or clock movements (personal and other)

Manufacture in which:

- the value of all used materials does not exceed 40% of the ex works price of the product

- in which, within the aforementioned limit, the materials that are classified in heading 9114 are used only to the value of 10% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

9111 Watch cases and parts thereof Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all used materials does not exceed 30% of the ex works price of the product

9112 Clock cases and cases of a similar type for other goods of this chapter, and parts thereof

Manufacture in which:

- all used materials are classified in a heading other than that of the product

- the value of all used materials does not exceed 40% of the ex works price of the product

Manufacture in which the value of all

used materials does not exceed 30% of the ex works price of the product
9113 Watch straps, watch bands and watch bracelets, and parts thereof

- of base metal, whether or not clad with precious metal

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

- other Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

Chapter 92 Musical instruments; parts and accessories of such articles

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Chapter 93 Arms and ammunition; parts and Manufacture in which the value of all used materials does not exceed 50% of

64

accessories thereof the ex works price of the product

Chapter 94 Furniture, bedding, mattresses, mattress supports, cushions and similar stuffed furnishings; lamps and lighting fittings, not elsewhere specified or included; illuminated signs; illuminated name-plates and the like; prefabricated buildings; other than

Manufacture in which all used materials are classified in a heading other than that of the product

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product

Ex 9401

and 9403

Metal furniture containing unfilled cotton material with weight of 300 gr/m² or less

Manufacture in which all used materials are classified in a heading other than that of the product

Manufacture of cotton material already worked in a form ready for use in heading No 9401 or 9402, provided its value does not exceed 25% of the ex works price of the product;

- all other used materials shall be originating materials and shall not be

classified in heading 9401 or 9403

Manufacture in which the value of all used materials does not exceed 40% of the ex works price of the product
9405 Lamps and lighting fittings including searchlights and spotlights and parts thereof, not elsewhere specified or included; illuminated signs, illuminated name-plates and the like, having a permanently fixed light source, and parts thereof not elsewhere specified or included

Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

9406 Prefabricated buildings Manufacture in which the value of all used materials does not exceed 50% of the ex works price of the product

Ex Chapter

95

Toys, games and sports requisites; parts and accessories thereof; other than Manufacture in which all used materials are classified in a heading other than that of the product

9503 Other toys; reduced-size ("scale") models and similar recreational models, working or not; puzzles of all kinds

Manufacture in which:

- all used materials are classified in a heading other than that of the product
- the value of all used materials does not exceed 50% of the ex works price of the product

ex 9506 Golf clubs and parts thereof Manufacture in which all used materials are classified in a heading other than that of the product

However, for making heads of the golf clubs, roughly shaped pieces can be used

65

ex Chapter

96

Miscellaneous manufactured articles; other than Manufacture in which all used materials are classified in a heading other than that of the product

ex 9601
and 9602

Products of vegetable, animal and mineral
carving material

Manufacture from "worked" carving
materials of the same heading

ex 9603 Brooms, brushes (except brooms of shrub
and the like and brushes of furskins of
squirrel and weasels), hand-operated
mechanical floor sweepers, not motorized,
paint pads and rollers floor sweepers with
sponge and mops

Manufacture in which the value of all
used materials does not exceed 50% of
the ex works price of the product

9605 Travel sets for personal toilet, sewing or
shoe or clothes cleaning

Each article of the set must fulfil the
requirement that would have applied to
it, if it were not included in the set.

However, articles that are nonoriginating
can be included in the set,

provided their total value does not
exceed 15% of the ex works price of the
set

9606 Buttons, press-fasteners, snap-fasteners
and press-studs, button moulds and other
parts of these articles; button blanks

Manufacture in which:

- all used materials are classified in a
heading other than that of the product
- the value of all used materials does
not exceed 50% of the ex works price of
the product

9612 Typewriter or similar ribbons, inked or
otherwise prepared for giving impressions,
whether or not on spools or in cartridges;
ink-pads, whether or not inked, with or
without boxes

Manufacture in which:

- all used materials are classified in a
heading other than that of the product
- the value of all used materials does
not exceed 50% of the ex works price of
the product

ex 9613 Lighters with pressure ignition system Manufacture in which value of all used
materials of heading 9613 does not
exceed 30% of the ex works price of the

product

ex 9614 Smoking pipes and pipe bowls Manufacture from roughly shaped pieces

Chapter 97 Works of art, collectors' pieces and antiques

Manufacture in which all used materials are classified in a heading other than that of the product
