List referred to in Article 20 of the Protocol: transitional measures, Romania**1. FREEDOM OF MOVEMENT FOR PERSONS****Treaty establishing a Constitution for Europe**

31968 R 1612: Regulation (EEC) No 1612/68 of the Council of 15 October 1968 on freedom of movement for workers within the Community (OJ L 257, 19.10.1968, p. 2), as last amended by:

— 32004 L 0038: Directive 2004/38/EC of the European Parliament and of the Council of 29.4.2004 (OJ L 158, 30.4.2004, p. 77);

31996 L 0071: Directive 96/71/EC of the European Parliament and of the Council of 16 December 1996 concerning the posting of workers in the framework of the provision of services (OJ L 18, 21.1.1997, p. 1);

32004 L 0038: Directive 2004/38/EC of the European Parliament and of the Council of 29 April 2004 on the right of citizens of the Union and their family members to move and reside freely within the territory of the Member States amending Regulation (EEC) No 1612/68 and repealing Directives 64/221/EEC, 68/360/EEC, 72/194/EEC, 73/148/EEC, 75/34/EEC, 75/35/EEC, 90/364/EEC, 90/365/EEC and 93/96/EEC (OJ L 158, 30.4.2004, p. 77).

1. Article III-133 and the first paragraph of Article III-144 of the Constitution shall fully apply only, in relation to the freedom of movement of workers and the freedom to provide services involving temporary movement of workers as defined in Article 1 of Directive 96/71/EC between Romania on the one hand, and each of the present Member States on the other hand, subject to the transitional provisions laid down in paragraphs 2 to 14.

2. By way of derogation from Articles 1 to 6 of Regulation (EEC) No 1612/68 and until the end of the two year period following the date of accession, the present Member States will apply national measures, or those resulting from bilateral agreements, regulating access to their labour markets by Romanian nationals. The present Member States may continue to apply such measures until the end of the five year period following the date of accession.

Romanian nationals legally working in a present Member State at the date of accession and admitted to the labour market of that Member State for an uninterrupted period of 12 months or longer will enjoy access to the labour market of that Member State but not to the labour market of other Member States applying national measures.

Romanian nationals admitted to the labour market of a present Member State following accession for an uninterrupted period of 12 months or longer shall also enjoy the same rights.

The Romanian nationals mentioned in the second and third subparagraphs above shall cease to enjoy the rights contained in those subparagraphs if they voluntarily leave the labour market of the present Member State in question.

Romanian nationals legally working in a present Member State at the date of accession, or during a period when national measures are applied, and who were admitted to the labour market of that Member State for a period of less than 12 months shall not enjoy these rights.

3. Before the end of the two year period following the date of accession, the Council shall review the functioning of the transitional provisions laid down in paragraph 2, on the basis of a report from the Commission.

On completion of this review, and no later than at the end of the two year period following the date of accession, the present Member States shall notify the Commission whether they will continue applying national measures or measures resulting from bilateral agreements, or whether they will apply Articles 1 to 6 of Regulation (EEC) No 1612/68 henceforth. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

4. Upon the request of Romania, one further review may be held. The procedure referred to in paragraph 3 shall apply and shall be completed within six months of receipt of the request from Romania.

5. A Member State maintaining national measures or measures resulting from bilateral agreements at the end of the five year period indicated in paragraph 2 may, in case of serious disturbances of its labour market or threat thereof and after notifying the Commission, continue to apply these measures until the end of the seven year period following the date of accession. In the absence of such notification, Articles 1 to 6 of Regulation (EEC) No 1612/68 shall apply.

6. During the seven year period following the date of accession, those Member States in which, by virtue of paragraph 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Romanian nationals, and which are issuing work permits to nationals of Romania for monitoring purposes during this period, will do so automatically.

7. Those Member States in which, by virtue of paragraphs 3, 4 or 5, Articles 1 to 6 of Regulation (EEC) No 1612/68 apply as regards Romanian nationals, may resort to the procedures set out in the subparagraphs below until the end of the seven year period following the date of accession.

When a Member State referred to in the first subparagraph undergoes or foresees disturbances on its labour market which could seriously threaten the standard of living or level of employment in a given region or occupation, that Member State shall inform the Commission and the other Member States thereof and shall supply them with all relevant particulars. On the basis of this information, the Member State may request the Commission to state that the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 be wholly or partially suspended in order to restore to normal the situation in that region or occupation. The Commission shall decide on the suspension and on the duration and scope thereof not later than two weeks after receiving such a request and shall notify the Council of such a decision. Any Member State may, within two weeks from the date of the Commission's Decision, request the Council to annul or amend the Decision. The Council shall act on such a request within two weeks, by qualified majority.

A Member State referred to in the first subparagraph may, in urgent and exceptional cases, suspend the application of Articles 1 to 6 of Regulation (EEC) No 1612/68, followed by a reasoned ex-post notification to the Commission.

8. As long as the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by virtue of paragraphs 2 to 5 and 7 above, Article 23 of Directive 2004/38/EC shall apply in Romania with regard to nationals of the present Member States, and in the present Member States with regard to Romanian nationals, under the following conditions, so far as the right of family members of workers to take up employment is concerned:

- the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State at the date of accession, shall have, upon accession, immediate access to the labour market of that Member State. This does not apply to family members of a worker legally admitted to the labour market of that Member State for a period of less than 12 months;
- the spouse of a worker and their descendants who are under 21 years of age or are dependants, legally residing with the worker in the territory of a Member State from a date later than the date of accession, but during the period of application of the transitional provisions laid down above, shall have access to the labour market of the Member State concerned once they have been resident in the Member State concerned for at least eighteen months or from the third year following the date of accession, whichever is the earlier.

These provisions shall be without prejudice to more favourable measures whether national or resulting from bilateral agreements.

9. Insofar as provisions of Directive 2004/38/EC which take over provisions of Directive 68/360/EEC ⁽¹⁾ may not be dissociated from those of Regulation (EEC) No 1612/68 whose application is deferred pursuant to paragraphs 2 to 5 and 7 and 8, Romania and the present Member States may derogate from those provisions to the extent necessary for the application of paragraphs 2 to 5 and 7 and 8.

10. Whenever national measures, or those resulting from bilateral agreements, are applied by the present Member States by virtue of the transitional provisions laid down above, Romania may maintain in force equivalent measures with regard to the nationals of the Member State or States in question.

11. If the application of Articles 1 to 6 of Regulation (EEC) No 1612/68 is suspended by any of the present Member States, Romania may resort to the procedures laid down in paragraph 7 with respect to Bulgaria. During any such period work permits issued by Romania for monitoring purposes to nationals of Bulgaria shall be issued automatically.

12. Any present Member State applying national measures in accordance with paragraphs 2 to 5 and 7 to 9, may introduce, under national law, greater freedom of movement than that existing at the date of accession, including full labour market access. From the third year following the date of accession, any present Member State applying national measures may at any time decide to apply Articles 1 to 6 of Regulation (EEC) No 1612/68 instead. The Commission shall be informed of any such decision.

13. In order to address serious disturbances or the threat thereof in specific sensitive service sectors on their labour markets, which could arise in certain regions from the transnational provision of services, as defined in Article 1 of Directive 96/71/EC, and as long as they apply, by virtue of the transitional provisions laid down above, national measures or those resulting from bilateral agreements to the free movement of Romanian workers, Germany and Austria may, after notifying the Commission, derogate from the first paragraph of Article III-144 of the Constitution with a view to limit, in the context of the provision of services by companies established in Romania, the temporary movement of workers whose right to take up work in Germany and Austria is subject to national measures.

To the extent that Germany or Austria derogate from the first paragraph of Article III-144 of the Constitution in accordance with the preceding subparagraphs, Romania may, after notifying the Commission, take equivalent measures.

14. The effect of the application of paragraphs 2 to 5 and 7 to 12 shall not result in conditions for access of Romanian nationals to the labour markets of the present Member States which are more restrictive than those prevailing on the date of signature of the Treaty of Accession.

Notwithstanding the application of the provisions laid down in paragraphs 1 to 13, the present Member States shall, during any period when national measures or those resulting from bilateral agreements are applied, give preference to workers who are nationals of the Member States over workers who are nationals of third countries as regards access to their labour market.

B. STEEL RESTRUCTURING

Treaty establishing a Constitution for Europe, Part III, Title III, Chapter I, Section 5, Rules on competition

1. Notwithstanding Articles III-167 and III-168 of the Constitution, State aid granted by Romania for restructuring purposes to specified parts of the Romanian steel industry from 1993 to 2004 shall be deemed to be compatible with the common market provided that:

- the period provided for in Article 9(4) of Protocol 2 on ECSC products to the Europe Agreement establishing an association between the European Communities and their Member States, of the one part, and Romania, of the other part ⁽¹⁾, has been extended until 31 December 2005,
- the terms set out in the national restructuring programme and the individual business plans on the basis of which the abovementioned Protocol was extended are adhered to throughout the period 2002-2008,
- the conditions set out in these provisions and in Appendix A are met,
- no State aid in any form is granted or paid to the steel mills covered by the national restructuring programme from 1 January 2005 to 31 December 2008, the end of the restructuring period, and
- no State aid for restructuring is granted or paid to the Romanian steel sector after 31 December 2004. For the purpose of these provisions and Appendix A, State aid for restructuring is to be understood as any measure concerning steel companies that constitutes State aid within the meaning of Article 87(1) of the EC Treaty and that cannot be held to be compatible with the common market in accordance with the normal rules applied in the Community.

2. Only the companies listed in Appendix A, Part I, (hereinafter referred to as the 'benefiting companies') shall be eligible for State aid in the framework of the Romanian steel restructuring programme.

3. Restructuring of the Romanian steel sector, as described in the individual business plans of the benefiting companies and in the national restructuring programme, and in line with the conditions set out in these provisions and in Appendix A, shall be completed no later than 31 December 2008 (hereinafter referred to as 'the end of the restructuring period').

⁽¹⁾ OJ L 357, 31.12.1994, p. 2. Agreement as last amended by Decision No 2/2003 of the EU/Romania Association Council of 25.9.2003 (not yet published in the Official Journal).

4. A benefiting company may not:
- (a) in the case of a merger with a company not listed in Appendix A, Part I, pass on the benefit of the aid granted to the benefiting company;
 - (b) take over the assets of any company not listed in Appendix A, Part I, and pass on the benefit of aid granted to it in the period up to 31 December 2008.
5. Any subsequent changes in the ownership of any of the benefiting companies shall respect the conditions and principles regarding viability, State aids and capacity reduction defined in these provisions and in Appendix A.
6. Companies not listed as 'benefiting companies' under Appendix A, Part I, shall not benefit from State aid for restructuring or any other aid not deemed compatible with Community State aid rules and shall not be required to reduce capacity in this context. Any capacity cuts within these companies shall not count towards the minimum reduction.
7. The total amount of gross restructuring aid to be approved for the benefiting companies shall be determined by the justifications for each and every aid measure provided in the final national restructuring programme and individual business plans to be approved by the Romanian authorities and subject to final verification of fulfilment of the criteria laid out in Article 9(4) of Protocol 2 to the Europe Agreement and approval by the Council. In any case, the total amount of gross restructuring aid granted and paid in the period 1993-2004 shall not exceed ROL 49 985 billion. Within this overall ceiling, the following sub-ceilings or maximum amounts of State aid granted and paid to each benefiting company in the period 1993-2004 shall apply:

Ispat Sidex Galați	ROL 30 598 billion

IS Câmpia Turzii	ROL 2 234 billion
COS Târgoviște	ROL 2 399 billion
Donasid (Siderca) Călărași	ROL 72 billion

The State aid shall lead to the viability of the benefiting companies under normal market conditions at the end of the restructuring period. The amount and intensity of such aid are to be strictly limited to what is absolutely necessary in order to restore such viability. The viability shall be determined taking into account the benchmarks described in Appendix A, Part III.

No further State aid shall be granted by Romania for restructuring purposes to the Romanian steel industry.

8. The total net capacity reductions for finished products to be achieved by the benefiting companies during the period 1993-2008 shall be a minimum of 2,05 million tonnes.

These capacity reductions shall be measured on the basis of permanent closure by physical destruction of the hot-rolled steel facilities concerned, such that the facilities cannot be restored to service. A declaration of bankruptcy of a benefiting company shall not qualify as a capacity reduction ⁽¹⁾.

⁽¹⁾ Capacity reductions shall be permanent as defined in Commission Decision No 3010/91/ECSC (OJ L 286, 6.10.1991, p. 20)

The minimum net capacity reduction of 2,05 million tonnes and the dates for both cessation of production and the permanent closure of the facilities covered, shall be achieved in line with the timetable set out in Appendix A, Part II.

9. The individual business plans shall have the written endorsement of the benefiting companies. They shall be implemented and in particular include:

10. Any subsequent changes in the national restructuring programme and the individual business plans must be agreed by the Commission, and where appropriate, by the Council.
11. The implementation of the restructuring shall take place under conditions of full transparency and on the basis of sound market economy principles.
12. The Commission and the Council shall closely monitor the implementation of the restructuring programme and individual business plans, as well as the fulfilment of the conditions set out in these provisions and in Appendix A before and after accession until 2009. In particular, the Commission shall monitor the main commitments and provisions set out in paragraphs 7 and 8 concerning State aid, viability and capacity reductions, using in particular the restructuring benchmarks set out in paragraph 9 and in Appendix A, Part III.  - these reports shall contain all the information necessary to monitor the restructuring process and the reduction and use of capacity and shall provide sufficient financial data to allow an assessment to be made of whether the conditions and requirements contained in these provisions and in Appendix A have been fulfilled. The reports shall at the least contain the information set out in Appendix A, Part IV, which the Commission reserves the right to modify in line with its experience during the monitoring process. In addition to the individual business reports of the benefiting companies, there shall also be a report on the overall situation of the Romanian steel sector, including recent macroeconomic developments;

- (b) Before the end of the third year following the date of accession, Member States shall notify the Commission whether they will prolong this period for a maximum of two years or whether they will fully apply Article 1 of the Regulation henceforth. In the absence of such notification, Article 1 of the Regulation shall apply. Only carriers established in those Member States in which Article 1 of the Regulation applies may perform national road haulage services in those other Member States in which Article 1 also applies.

This may include the possibility of full liberalisation.
- (e) The effect of the application of paragraphs (a) to (c) shall not lead to more restrictive access to national road haulage services than that prevailing on the date of signature of the Treaty of Accession.

For the purpose of loading and unloading, where technically possible, the use of non-upgraded parts of the secondary road network shall be allowed during the entire transitional period.

As from the date of accession, all vehicles in international traffic complying with the limit values of Directive 96/53/EC shall only be subject to temporary additional charges on the secondary Romanian road transport network if they are in excess of national axle-load limits. Temporary additional charges for using non-upgraded parts of the secondary network with vehicles in international traffic complying with the limit values of the Directive shall be levied in a non-discriminatory manner. The charging regime shall be transparent, and payment of these charges shall not place an undue administrative burden or delay on the user, nor shall the payment of these charges lead to a systematic check of axle load limits at the border. Enforcement of axle load limits shall be assured in a non-discriminatory manner throughout the territory and be effective also as regards vehicles registered in Romania.

The charges for vehicles without air-suspension complying with the limit values set out in Directive 96/53/EC shall not exceed the level of charges set out in the table below (expressed in 2002 figures). Vehicles fitted with air-suspension complying with the limit values set out in Directive 96/53/EC shall be subject to lower charges of at least 25 % less.

These plans shall ensure a further reduction of the emissions to a level significantly below the intermediate targets specified in paragraphs (a) to (d) above, in particular for emissions in 2012. If the Commission, having regard in particular to the environmental effects and to the need to reduce distortions of competition in the internal market due to the transitional measures, considers that these plans are not sufficient to meet these objectives, it shall inform Romania. Within the subsequent three months, Romania shall communicate the measures it has taken in order to meet these objectives. If subsequently the Commission, in consultation with the Member States, considers that these measures are not sufficient to meet these objectives it shall commence infringement proceedings under Article III-360 of the Constitution
