ANNEX 3-B

Import Licensing For High-Quality Beef

1. Morocco may establish an import licensing program for imports of high-quality beef from the United States to provide that the beef is sold to or imported by hotels or restaurants designated on lists agreed to by the Parties.
2. Morocco shall:

- (a) implement and administer any such import licensing program and procedures in accordance with Article VIII of GATT 1994 and the WTO Agreement on Import Licensing Procedures;
 - (b) ensure that the import licensing program and procedures do not impede the orderly fill of the in-quota quantity for high-quality beef; and
 - (c) limit the amount of any fees charged in connection with an import license to the cost of services rendered in processing the license application under the import licensing program and procedures.
3. The Parties shall review and update the lists of eligible hotels and restaurants at least once a year, or on request of either Party. The Parties shall develop an agreed set of non-discriminatory criteria and procedures for modifying the lists.
4. The Parties shall review the operation of the import licensing program at least once a year, or on request of either Party.
5. On request of either Party, the Parties shall consult on any issues related to the operation of the import licensing program. Consultations shall commence within 30 days of receipt of a request for consultations with a view to resolving the issue.
6. For purposes of this Annex:

high-quality beef means those goods defined in paragraph 5(c) of Annex 1 to the General Notes to Morocco's Schedule to Annex IV (Tariff Elimination); and

hotels and restaurants means four- and five-star hotels and officially graded restaurants.

ANNEX 3-C

Wheat Auction System

1. Morocco may implement and administer an auction system for the in-quota quantities of the TRQs on U.S. durum and non-durum wheat provided for in paragraphs 9 and 10, subject to the conditions set out in paragraphs 9(c) and 10(d), of Annex 1 to the General Notes to Morocco's Schedule to Annex IV (Tariff Elimination).
2. Morocco's auction policies and procedures shall be:
 - (a) transparent, nondiscriminatory, and made available to the public; and
 - (b) developed and implemented in a manner that minimizes the cost of participation in the auction.
3. Morocco shall ensure that solely government authorities administer its auctions and, to that end, may not delegate administration of its auctions to producer groups or other non-governmental organizations.
4. Morocco's auctions shall be held on a regular basis and conducted in a timely fashion to facilitate trade.
5. Morocco shall award licenses under the auction system:

- (a) in commercially viable shipping quantities;
 - (b) to persons who have a history in trading and have posted a performance bond in an amount agreed by the Parties; and
 - (c) in a manner that encourages competition and that precludes manipulation or control of the auction system by producer groups or other non-governmental organizations.
6. Morocco shall not condition application for, or use of, an auction license on the reexportation of the auctioned good.
7. Morocco shall require:
- (a) any license holder that fails to fill its full license amount by the date on which two-thirds of the period covered by the auction has expired to immediately transfer the unfilled portion of the license to another licensee; and
 - (b) that the original license holder shall be responsible for ensuring that at least 90 percent of the license amount originally awarded is filled.
8. Morocco shall provide that any license holder that is unable to fill at least 90 percent of its license amount during the period covered by an auction shall remit all or part of its performance bond, as agreed by the Parties, and shall not be permitted to participate in auctions for the following two years. After this period, the license holder may re-apply to participate in the auction system, unless the Parties agree otherwise.
9. For purposes of paragraphs 7 and 8, Morocco shall deem the date on which a license holder has filled a license as the date of the bill of lading for the relevant shipment.
10. The Parties shall agree on auction policies and procedures, and any changes or amendments thereto. Morocco shall disseminate the policies and procedures applicable to each auction through widely available publications, including on the websites of their relevant authorities, no later than 45 days before the auction.
11. Within 15 days of receipt of a request by either Party, the Parties shall consult on any issues related to application and operation of this Annex with a view to resolving them.

CHAPTER FOUR: TEXTILES AND APPAREL

Article 4.1

Tariff Elimination

1. Except as otherwise provided in this Agreement, each Party shall eliminate its customs duties on originating textile and apparel goods in accordance with its Schedule to Annex IV (Tariff Elimination).
2. Duties on originating textile and apparel goods provided for in the items in staging category A in a Party's Schedule shall be eliminated entirely and such goods shall be duty-free on the date this Agreement enters into force.
3. Duties on originating textile and apparel goods provided for in the items in staging category D in a Party's Schedule shall be reduced to 50 percent of that Party's base rate of duty on January 1 of

year one. Beginning January 1 of year two, duties shall be removed in five equal annual stages, and such goods shall be duty-free, effective January 1 of year six.

4. Duties on originating textile and apparel goods provided for in the items in staging category F in a Party's Schedule shall be removed in nine equal annual stages beginning January 1 of year one, and such goods shall be duty-free, effective January 1 of year nine.

5. Duties on originating textile and apparel goods provided for in the items in staging category H in a Party's Schedule shall be removed in ten stages. On January 1 of year one, duties shall be reduced by three percent of that Party's base rate, and by an additional three percent of the base rate on January 1 of each year thereafter through year four. Beginning January 1 of year five, duties shall be removed in six equal annual stages, and such goods shall be duty-free, effective January 1 of year ten.

6. The United States shall eliminate customs duties on any originating textile or apparel goods that, after the date of entry into force of this Agreement, are designated as articles eligible for duty-free treatment under the U.S. *Generalized System of Preferences*, effective from the date of such designation.

7. On the date of entry into force of this Agreement, each Party shall provide that the originating apparel goods specified in Annex 4-B shall be duty-free, up to the annual quantities identified therein. Duties on originating apparel goods specified in Annex 4-B above those quantities shall be reduced as provided for in paragraph 3.

8. An importing Party, through its competent authorities, shall require an importer claiming duty-free treatment for an originating apparel good listed in Annex 4-B to present to the competent authorities at the time of entry a declaration that it is entitled to duty-free treatment in accordance with paragraph 7 and Annex 4-B. The importing Party shall not be required to provide duty-free treatment if an importer does not provide such a declaration. An exporting Party may require the exporter to prepare a declaration of eligibility for duty-free treatment in order to administer the annual quantities listed in Annex 4-B.

9. On the request of either Party, the Parties shall consult to consider accelerating the elimination of customs duties, and to consider increasing the annual quantities listed in Annex 4-B. An agreement by the Parties to accelerate the elimination of a customs duty or to adjust the annual quantities listed in Annex 4-B shall supersede any duty rate, staging category, or annual quantity determined pursuant to this Agreement when approved by each Party in accordance with its applicable legal procedures.

Article 4.2

Special Textile And Apparel Safeguard Actions

1. If, as a result of the reduction or elimination of a duty under this Agreement, a textile or apparel good benefiting from preferential tariff treatment under this Agreement is being imported into the territory of a Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the Party may, to the extent and for such time as may be necessary to prevent or remedy such damage and to facilitate adjustment, increase the rate of duty on the good to a level not to exceed the lesser of:

- (a) the most-favored-nation ("MFN") applied rate of duty in effect at the time the action is taken; and

- (b) the MFN applied rate of duty in effect on the date of entry into force of this Agreement.
2. In determining serious damage, or actual threat thereof, the importing Party:
 - (a) shall examine the effect of increased imports of the good from the exporting Party on the particular industry, as reflected in changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits, and investment, none of which shall necessarily be decisive; and
 - (b) shall not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.
3. The importing Party may take a safeguard action under this Article only following an investigation by its competent authorities.
4. The importing Party shall deliver to the exporting Party, without delay, written notice of its intent to take a safeguard action and, on the request of the exporting Party, shall enter into consultations with that Party regarding the matter.
5. An importing Party:
 - (a) shall not maintain a safeguard action for a period exceeding three years, except that the Party may extend the period by up to two years if the Party's competent authorities determine, in conformity with the procedures set out in paragraphs 3 and 4, that the action continues to be necessary to prevent or remedy serious damage and to facilitate adjustment by the domestic industry, and that there is evidence that the industry is adjusting;
 - (b) shall not take or maintain a safeguard action against a good beyond ten years after the Party must eliminate customs duties on that good pursuant to this Agreement;
 - (c) shall not take a safeguard action more than once against the same good of the other Party; and
 - (d) shall, on termination of the safeguard action, apply to the good that was subject to the safeguard action the rate of duty that would have been in effect but for the action.
6. The importing Party shall provide to the exporting Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the safeguard action. Such concessions shall be limited to textile and apparel goods, unless the Parties agree otherwise. If the Parties are unable to agree on compensation, the exporting Party may suspend tariff concessions under this Agreement having trade effects substantially equivalent to the trade effects of the safeguard action. Such tariff action may be taken against any goods of the exporting Party. The exporting Party shall apply the tariff action only for the minimum period necessary to achieve the substantially equivalent trade effects. The importing Party's obligation to provide trade compensation and the exporting Party's right to take tariff action shall terminate when the safeguard action terminates.
7. Nothing in this Agreement shall be construed to limit a Party's right to restrain imports of textile and apparel goods in a manner consistent with the Agreement on Textiles and Clothing or the Safeguards Agreement. However, a Party may not take or maintain a safeguard action under this Article against a textile or apparel good that is subject, or becomes subject, to a safeguard measure that a Party takes pursuant to either such agreement.

*Article 4.3*Rules Of Origin And Related Matters*Application of Chapter Five*

1. Except as provided in this Chapter, including its Annexes, Chapter Five (Rules of Origin) applies to textile and apparel goods.
2. For greater certainty, the rules of origin set forth in this Agreement shall not apply in determining the country of origin of a textile or apparel good for non-preferential purposes.

Consultations

3. On the request of either Party, the Parties shall consult to consider whether the rules of origin applicable to a particular textile or apparel good should be revised to address issues of availability of supply of fibers, yarns, or fabrics in the territories of the Parties.
4. In the consultations referred to in paragraph 3, each Party shall consider all data presented by the other Party that demonstrate substantial production in its territory of a particular fiber, yarn, or fabric. The Parties shall consider that there is substantial production if a Party demonstrates that its domestic producers are capable of supplying commercial quantities of the fiber, yarn, or fabric in a timely manner.
5. On request of an exporting Party, the Parties shall consult to consider revising the rules of origin applicable to originating textile and apparel goods described in HS 6207, 6208, and 6212, with a view to furthering the objectives of the Agreement, if:
 - (a) at any time beginning one year after the date of entry into force of this Agreement, the requesting Party's annual exports of such goods to the other Party are not significantly higher than its annual exports of such goods before the date of entry into force of this Agreement, or
 - (b) at any time after this Agreement enters into force, either Party enters into an agreement that establishes a rule of origin for such goods that differs from the rule of origin provided for under this Agreement.
6. The Parties shall endeavor to conclude the consultations referred to in paragraphs 3 and 5 within 60 days after delivery of a request. If the Parties agree in the consultations to revise a rule of origin, the agreement shall supersede that rule of origin when approved by the Parties in accordance with Article 22.2 (Amendments).

De Minimis

7. classification of the good shall be considered to be an originating good only if such yarns are wholly formed in the territory of a Party.

Treatment of Sets

8. Notwithstanding the specific rules of origin set out in Annex 4-A, textile or apparel goods classified under General Rule of Interpretation 3 of the Harmonized System as goods put up in sets for retail sale shall not be regarded as originating goods unless each of the goods in the set is an originating good or the total value of the non-originating goods in the set does not exceed 10 percent of the value of the set determined for purposes of assessing customs duties.

Preferential Tariff Treatment for Non-Originating Fabric and Apparel Goods (Tariff Preference Levels)

9. Subject to paragraph 11, each Party shall accord preferential tariff treatment to fabric goods provided for in Chapters 51, 52, 54, 55, 58, and 60 of the Harmonized System that are wholly formed in the territory of a Party, regardless of the origin of the fiber or yarn used to produce the goods, and that meet the applicable conditions for preferential tariff treatment under this Agreement other than the condition that they be originating goods.

10. Subject to paragraph 11, each Party shall accord preferential tariff treatment to apparel goods provided for in Chapters 61 and 62 of the Harmonized System that are cut or knit to shape, or both, and sewn or otherwise assembled in the territory of a Party, regardless of the origin of the fabric or yarn used to produce the goods, and that meet the applicable conditions for preferential tariff treatment under this Agreement other than the condition that they be originating goods.

11. A Party shall accord preferential tariff treatment to the goods described in paragraphs 9 and 10 up to the combined annual quantities specified in the following schedule:

The declaration shall be prepared by the importer and shall consist of information demonstrating that the good satisfies the requirements for preferential tariff treatment under paragraph 9 or 10. An exporting Party may require the exporter to prepare a declaration of eligibility for preferential tariff treatment under paragraph 9 or 10 in order to monitor the use of tariff preference levels.

13. To determine the quantity in square meters equivalent that is charged against the annual quantity set out in paragraph 11, the importing Party shall apply the conversion factors listed in, or utilize a methodology based on, the *Correlation: U.S. Textile and Apparel Category System with the Harmonized Tariff Schedule of the United States of America, 2003* (“The Textile Correlation”), U.S. Department of Commerce, Office of Textiles and Apparel, or successor publication.

The total quantity of goods that may be accorded preferential tariff treatment based on this paragraph shall be limited to 1,067,257 kilograms annually. On request of either Party, the Parties shall consult on whether to adjust this quantity, or on any other matter related to this paragraph.

 - (b) verifying the accuracy of claims of origin;
 - (c) enforcing or assisting in the enforcement of measures implementing international agreements affecting trade in textile and apparel goods; and
 - (d) preventing circumvention of international agreements affecting trade in textile and apparel goods.
2. On the request of the importing Party, the exporting Party shall conduct a verification for purposes of enabling the importing Party to determine that a claim of origin for a textile or apparel good is accurate. The exporting Party shall conduct such a verification, regardless of whether an importer claims preferential tariff treatment for the good. The exporting Party also may conduct such a verification on its own initiative.
3. Where the importing Party has a reasonable suspicion that an exporter or producer of the exporting Party is engaging in unlawful activity relating to trade in textile or apparel goods, the exporting Party shall conduct, on the request of the importing Party, a verification for purposes of enabling the importing Party to determine that the exporter or producer is complying with applicable customs measures regarding trade in textile and apparel goods, including measures that the exporting Party adopts and maintains pursuant to this Agreement and measures of either Party implementing other international agreements affecting trade in textile or apparel goods, or to determine that a claim of origin regarding textile or apparel goods exported or produced by that enterprise is accurate. For

purposes of this paragraph, **a reasonable suspicion of unlawful activity** means a suspicion based on relevant factual information of the type set forth in Article 6.5.5 (Cooperation) or information that indicates:

- (a) circumvention by the exporter or producer of applicable customs measures regarding trade in textile and apparel goods, including measures adopted to implement this Agreement; or
- (b) conduct that facilitates the violation of measures relating to any other international agreement regarding trade in textile or apparel goods.

4. The exporting Party, through its competent authorities, shall permit the importing Party, through its competent authorities, to assist in a verification conducted pursuant to paragraph 2 or 3, including by conducting, along with the competent authorities of the exporting Party, visits in the territory of the exporting Party to the premises of an exporter, producer, or any other enterprise involved in the movement of a textile or apparel good from the territory of the exporting Party to the territory of the importing Party. The importing Party shall notify the exporting Party in advance of any such visits.

5. Each Party shall provide to the other Party, consistent with the Party's law, production, trade, and transit documents and other information necessary for the exporting Party to conduct a verification under paragraph 2 or 3. Each Party shall treat any documents or information exchanged in the course of such a verification in accordance with Article 6.6 (Confidentiality).

6. While a verification is being conducted, the importing Party may, consistent with its law, take appropriate action, which may include suspending the application of preferential tariff treatment to:

- (a) the textile or apparel good for which a claim of origin has been made, in the case of a verification under paragraph 2; or
- (b) any textile or apparel good exported or produced by the person subject to a verification under paragraph 3, where the reasonable suspicion of unlawful activity relates to that good.

7. The Party conducting a verification under paragraph 2 or 3 shall provide the other Party with a written report on the results of the verification, which shall include all documents and facts supporting any conclusion that the Party reaches.

8. (a) If the importing Party is unable to make the determination described in paragraph 2 within 12 months after its request for a verification, or makes a negative determination, it may, consistent with its law, take appropriate action, including denying preferential tariff treatment to the textile or apparel good subject to the verification, and to similar goods exported or produced by the person that exported or produced the good.
- (b) If the importing Party is unable to make a determination described in paragraph 3 within 12 months after its request for a verification, or makes a negative determination, it may, consistent with its law, take appropriate action, including denying preferential tariff treatment to any textile or apparel good exported or produced by the person subject to the verification.

9. (a) The importing Party may deny preferential tariff treatment or entry under paragraph 8 only after notifying the other Party of its intention to do so.

- (b) If the importing Party takes action under paragraph 8 because it is unable to make a determination described in paragraph 2 or 3, it may continue to take appropriate action under paragraph 8 until it receives information sufficient to enable it to make the determination.

10. On the request of either Party, the Parties shall consult to resolve any technical or interpretive difficulties that may arise under this Article or to discuss ways to improve the effectiveness of their cooperative efforts. In addition, either Party may request technical or other assistance from the other Party in implementing this Article. The Party receiving such a request shall make every effort to respond favorably and promptly.

CHAPTER FIVE: RULES OF ORIGIN

Article 5.1

Originating Goods

Except as otherwise provided in this Chapter or Chapter Four (Textiles and Apparel), each Party shall provide that a good is an originating good where it is imported directly from the territory of one Party into the territory of the other Party, and

- (a) it is a good wholly the growth, product, or manufacture of one or both of the Parties;
- (b) for goods other than those covered by the rules in Annex 4-A or Annex 5-A, the good is a new or different article of commerce that has been grown, produced, or manufactured in the territory of one or both of the Parties; and the sum of (i) the value of materials produced in the territory of one or both of the Parties, plus (ii) the direct costs of processing operations performed in the territory of one or both of the Parties is not less than 35 percent of the appraised value of the good at the time it is imported into the territory of a Party; or
- (c) for goods covered by the rules in Annex 4-A or Annex 5-A, the good has satisfied the requirements specified in that Annex.

Article 5.2

New Or Different Article Of Commerce

For purposes of this Chapter, **new or different article of commerce** means a good that has been substantially transformed from a good or material that is not wholly the growth, product, or manufacture of one or both of the Parties and that has a new name, character, or use distinct from the good or material from which it was transformed.

Article 5.3

Non-Qualifying Operations

Each Party shall provide that, for purposes of Article 5.1, no good shall be considered a new or different article of commerce by virtue of having merely undergone (a) simple combining or packaging operations or (b) mere dilution with water or with another substance that does not materially alter the characteristics of the good.

Article 5.4

Cumulation

1. Each Party shall provide that direct costs of processing operations performed in one or both of the Parties as well as the value of materials produced in the territory of one or both of the Parties may be counted without limitation toward satisfying the 35 percent value-content requirement specified in Article 5.1(b).

2. Each Party shall provide that an originating good or a material produced in the territory of one or both of the Parties, incorporated into a good in the territory of the other Party, shall be considered to originate in the other Party.

3. Each Party shall provide that a good grown, produced, or manufactured in the territory of one or both of the Parties by one or more producers shall be an originating good, provided that it satisfies the requirements of Article 5.1 and all other applicable requirements in this Chapter and Chapter Four (Textiles and Apparel).

Article 5.5

Value Of Materials

1. For purposes of this Chapter, each Party shall provide that the value of a material produced in the territory of one or both of the Parties includes:

- (a) the price actually paid or payable by the producer of the good for the material;
- (b) when not included in the price actually paid or payable by the producer of the good for the material, the freight, insurance, packing, and all other costs incurred in transporting the material to the producer's plant;
- (c) the cost of waste or spoilage, less the value of recoverable scrap; and
- (d) taxes or customs duties imposed on the material by one or both of the Parties, provided the taxes or customs duties are not remitted on exportation.

2. Each Party shall provide that where the relationship between the producer of the good and the seller of the material influenced the price actually paid or payable for the material, or where paragraph 1 is otherwise not applicable, the value of the material produced in the territory of one or both of the Parties includes:

- (a) all expenses incurred in the growth, production, or manufacture of the material, including general expenses;
- (b) a reasonable amount for profit; and

- (c) freight, insurance, packing, and all other costs incurred in transporting the material to the producer's plant.

Article 5.6

Direct Costs Of Processing Operations

1. For purposes of this Chapter, **direct costs of processing operations** means those costs either directly incurred in, or that can be reasonably allocated to, the growth, production, or manufacture of the good. Such costs include the following, to the extent that they are includable in the appraised value of goods imported into the territory of a Party:

- (a) all actual labor costs involved in the growth, production, or manufacture of the specific good, including fringe benefits, on-the-job training, and the costs of engineering, supervisory, quality control, and similar personnel;
- (b) tools, dies, molds, and other indirect materials, and depreciation on machinery and equipment that are allocable to the specific good;
- (c) research, development, design, engineering, and blueprint costs, to the extent that they are allocable to the specific good;
- (d) costs of inspecting and testing the specific good; and
- (e) costs of packaging the specific good for export to the territory of the other Party.

2. For greater certainty, costs that are not included as direct costs of processing operations are those that are not directly attributable to the good or are not costs of growth, production, or manufacture of the good. These include:

- (a) profit; and
- (b) general expenses of doing business that are either not allocable to the good or are not related to the growth, production, or manufacture of the good, such as administrative salaries, casualty and liability insurance, advertising, and salesmen's salaries, commissions, or expenses.

Article 5.7

Packaging And Packing Materials And Containers For Retail Sale And For Shipment

Each Party shall provide that packaging and packing materials and containers for retail sale and for shipment shall be disregarded in determining whether the good qualifies as an originating good, except to the extent that the value of such packaging and packing materials and containers may be counted toward satisfying the 35 percent value-content requirement specified in Article 5.1(b), where applicable.

Article 5.8

Indirect Materials

Each Party shall provide that indirect materials shall be disregarded in determining whether the good qualifies as an originating good, except that the cost of such indirect materials may be counted toward satisfying the 35 percent value-content requirement where applicable.

*Article 5.9*Transit And Transshipment

For purposes of this Chapter, each Party shall provide that a good shall not be considered to be imported directly from the territory of the other Party if the good undergoes subsequent production, manufacturing, or any other operation outside the territories of the Parties, other than unloading, reloading, or any other operation necessary to preserve it in good condition or to transport the good to the territory of the other Party.

*Article 5.10*Importer Requirements

Each Party shall provide that whenever an importer makes a claim for preferential tariff treatment for a good, the importer:

- (a) shall be deemed to have certified that the good qualifies for preferential tariff treatment; and
- (b) shall submit to the customs authority of the importing Party, on request, a signed declaration setting forth all pertinent information concerning the growth, production, or manufacture of the good. Each Party may require that the declaration contain at least the following details:
 - (i) a description of the good, quantity, numbers, and invoice numbers and bills of lading;
 - (ii) a description of the operations performed in the growth, production, or manufacture of the good in the territory of one or both of the Parties and, where applicable, identification of the direct costs of processing operations;
 - (iii) a description of any materials used in the growth, production, or manufacture of the good that are wholly the growth, product, or manufacture of one or both of the Parties, and a statement as to the value of such materials;
 - (iv) a description of the operations performed on, and a statement as to the origin and value of, any materials used in the good that are claimed to have been sufficiently processed in the territory of one or both of the Parties so as to be materials produced in the territory of one or both of the Parties, or are claimed to have undergone an applicable change in tariff classification specified in Annex 4-A or Annex 5-A; and
 - (v) a description of the origin and value of any foreign materials used in the good that are not claimed to have been substantially transformed in the territory of one or both of the Parties, or are not claimed to have undergone an applicable change in tariff classification specified in Annex 4-A or Annex 5-A.

The importing Party should request a declaration only when that Party has reason to question the accuracy of a deemed certification referred to in subparagraph (a), when that Party's risk assessment procedures indicate that verification of an entry is appropriate, or when the Party conducts a random verification. The importer shall retain the information necessary to prepare the declaration for five years from the date of importation of the good.

Article 5.11

Obligations Relating To Importation

1. Each Party shall grant any claim for preferential tariff treatment, unless the Party possesses information indicating that the importer's claim fails to comply with any requirement under this Chapter or Chapter Four (Textiles and Apparel).
2. To determine whether a good imported into its territory qualifies for preferential tariff treatment, the importing Party may, through its customs authority, verify the origin.
3. Where a Party denies a claim for preferential tariff treatment, it shall issue a written determination containing findings of fact and the legal basis for its determination. The Party shall issue the determination within a period established under its law.
4. Nothing in this Article shall prevent a Party from taking action under Article 4.4 (Customs and Administrative Cooperation).

Article 5.12

Consultations And Modifications

1. The Parties shall consult and cooperate to ensure that this Chapter is applied in an effective and uniform manner, in accordance with the objectives of this Agreement.
2. The Parties may establish *ad hoc* working groups, or a subcommittee of the Joint Committee established pursuant to Article 19.2 (Joint Committee), to consider any matter related to this Chapter (including Annex 5-A). On request of a Party, the Parties may direct a working group or subcommittee to review operation of this Chapter (including Annex 5-A) and develop recommendations for amending them in the light of pertinent developments, including changes in technology and production processes, and other relevant factors.

Article 5.13

Regional Cumulation

At a time to be determined by the Parties, and in the light of their desire to promote regional integration, the Parties shall enter into discussions with a view to deciding the extent to which materials that are products of countries in the region may be counted for purposes of satisfying the origin requirement under this Agreement as a step toward achieving regional integration.

Conditions And Limitations

1. A Party shall notify the other Party in writing on initiation of an investigation described in paragraph 2 and shall consult with the other Party as far in advance of applying a safeguard measure as practicable, with a view to reviewing the information arising from the investigation and exchanging views on the measure.
2. A Party shall apply a safeguard measure only following an investigation by the Party's competent authorities in accordance with Articles 3 and 4.2(c) of the Safeguards Agreement, and to this end, Articles 3 and 4.2(c) of the Safeguards Agreement are incorporated into and made a part of this Agreement, *mutatis mutandis*.
3. In the investigation described in paragraph 2, the Party shall comply with the requirements of Article 4.2(a) of the Safeguards Agreement, and to this end, Article 4.2(a) is incorporated into and made a part of this Agreement, *mutatis mutandis*.
4. Neither Party may apply a safeguard measure against a good:
 - (a) except to the extent and for such time as may be necessary to prevent or remedy serious injury and to facilitate adjustment;

- (b) for a period exceeding three years, except in the case provided for under Article 8.3; or
 - (c) beyond five years after the Party applying the measure must eliminate customs duties on that good pursuant to its Schedule to Annex IV (Tariff Elimination), except with the consent of the other Party.
5. Neither Party may apply a safeguard measure more than once against the same good.
6. Where the expected duration of the safeguard measure is over one year, the importing Party shall progressively liberalize it at regular intervals.
7. On the termination of the safeguard measure, the rate of customs duty shall be the rate that, according to the Party's Schedule to Annex IV (Tariff Elimination), would have been in effect but for the measure.

Article 8.3

Extension

If the competent authorities of a Party determine, in conformity with the procedures set out in Article 8.2, that a safeguard measure continues to be necessary to prevent or remedy serious injury and to facilitate adjustment and that there is evidence that the industry is adjusting, the Party may extend the application of the safeguard measure for up to an additional two years.

Article 8.4

Provisional Measures

In critical circumstances where delay would cause damage that would be difficult to repair, a Party may apply a safeguard measure on a provisional basis pursuant to a preliminary determination that there is clear evidence that imports of an originating good from the other Party have increased as the result of the reduction or elimination of a customs duty under this Agreement, and such imports constitute a substantial cause of serious injury, or threat thereof, to the domestic industry. The duration of any provisional measure shall not exceed 200 days, during which time the Party shall comply with the requirements of Articles 8.2.2 and 8.2.3. The Party shall promptly refund any tariff increases if the investigation described in Article 8.2.2 does not result in a finding that the requirements of Article 8.1 are met. The duration of any provisional measure shall be counted as part of the period described in Article 8.2.4(b).

Article 8.5

Compensation

A Party applying a safeguard measure shall endeavor to provide to the other Party mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects or equivalent to the value of the additional duties expected to result from the measure. If the Parties are unable to agree on compensation within 30 days from the date the Party announces a decision to apply the measure, the other Party may take tariff action having trade effects substantially equivalent to the safeguard measure. The Party shall apply the action only for the minimum period necessary to achieve the substantially equivalent effects and, in any event, only while the safeguard measure is being applied.

Article 8.6

Global Safeguard Actions

Each Party retains its rights and obligations under Article XIX of GATT 1994 and the Safeguards Agreement. This Agreement does not confer any additional rights or obligations on the Parties with regard to actions taken under Article XIX of GATT 1994 and the Safeguards Agreement.

serious injury means a significant overall impairment in the position of a domestic industry;

CHAPTER NINE: GOVERNMENT PROCUREMENT

Article 9.1

Scope And Coverage

Application of Chapter

1. This Chapter applies to any measure, including any act or guideline of a Party, regarding covered procurement.
2. For purposes of this Chapter, **covered procurement** means a procurement of goods, services, or both:
 - (a) by any contractual means, including purchase, rental, or lease, with or without an option to buy; build-operate-transfer contracts; and public works concession contracts;
 - (b) where the value is estimated, in accordance with paragraph 4, to equal or exceed the relevant threshold specified in the Annexes;
 - (c) that is conducted by a procuring entity; and

- (d) that is not excluded from coverage by this Agreement.
3. This Chapter does not apply to:
- (a) non-contractual agreements or any form of assistance that a Party or a state enterprise provides, including grants, loans, equity infusions, fiscal incentives, subsidies, guarantees, cooperative agreements, and government provision of goods and services to persons or to state, regional, or local governments;
 - (b) purchases funded entirely or partially by international grants, loans, or other international assistance, where the provision of such assistance is subject to conditions inconsistent with this Chapter; and
 - (c) acquisition of fiscal agency or depository services, liquidation and management services for regulated financial institutions, and sale and distribution services for government debt.

Compliance

4. Each Party shall ensure that its procuring entities comply with this Chapter in conducting covered procurements.

Valuation

5. In estimating the value of a procurement for the purpose of ascertaining whether it is a covered procurement, a procuring entity:
- (a) may not prepare, design, or otherwise structure or divide a procurement, in any stage of the procurement, in order to avoid the application of this Chapter; and
 - (b) shall take into account all forms of remuneration, including any premiums, fees, commissions, interest, other revenue streams that may be provided for under the contract, and, where the procurement provides for the possibility of option clauses, the total maximum value of the procurement, inclusive of optional purchases.

Article 9.2

General Principles

National Treatment and Non-Discrimination

1. With respect to any measure covered by this Chapter, each Party, including its procuring entities, shall accord to the goods and services of the other Party, and to the suppliers of the other Party of such goods and services, treatment no less favorable than the most favorable treatment the Party accords to its own goods, services, and suppliers.
2. With respect to any measure covered by this Chapter, a Party may not:
- (a) treat a locally established supplier less favorably than another locally established supplier on the basis of degree of foreign affiliation or ownership; nor
 - (b) discriminate against a locally established supplier on the basis that the goods or services offered by that supplier for a particular procurement are goods or services of the other Party.

Rules of Origin

3. For purposes of procurement covered by this Chapter, neither Party may apply rules of origin to goods imported from the other Party that are different from the rules of origin the Party applies in the normal course of trade to imports of the same goods from the other Party.

Offsets

4. A procuring entity may not seek, take account of, or impose offsets in any stage of a covered procurement.

Measures Not Specific to Procurement

5. Paragraphs 1 and 2 do not apply to measures respecting customs duties or other charges of any kind imposed on or in connection with importation, the method of levying such duties or charges, other import regulations, including restrictions and formalities, or measures affecting trade in services other than measures governing covered procurement.

Article 9.3

Publication Of Procurement Measures

Each Party shall promptly publish laws, regulations, judicial decisions, administrative rulings, procedures, and other measures of general application specifically governing procurement, and any changes to such measures, in officially designated electronic or paper media that are widely disseminated and readily accessible to the public.

Article 9.4

Publication Of Notice Of Intended Procurement And Notice Of Planned Procurement

Notice of Intended Procurement

1. For each covered procurement, a procuring entity shall publish in advance a notice inviting interested suppliers to submit tenders (“notice of intended procurement”) in an electronic or paper medium that is widely available and remains readily accessible to the public for the entire period established for tendering for that procurement.

2. Each notice of intended procurement shall include a description of the intended procurement, any conditions for participation, the name of the procuring entity, the address where all documents relating to the procurement may be obtained, the deadline for submission of tenders, and the time for delivery of the goods or services being procured.

Notice of Planned Procurement

3. Each Party shall encourage its procuring entities to publish as early as possible in each fiscal year a notice regarding each entity’s planned procurements. The notice should include the subject matter of any planned procurement and the estimated date of the publication of the notice of intended procurement.

*Article 9.5*Time Limits For Tendering Process

1. A procuring entity shall prescribe time limits for tendering that allow suppliers sufficient time to prepare and submit responsive tenders, taking into account the nature and complexity of the procurement. Except as provided in paragraph 3, a procuring entity shall provide no less than 40 days from the date of publication of a notice of intended procurement to the deadline for submission of tenders.
2. Notwithstanding paragraph 1, a procuring entity may establish a period of less than 40 days, provided that the period is sufficiently long to enable suppliers to prepare and submit responsive tenders and is in no case less than ten days:
 - (a) where the entity has published a separate notice, including a notice of planned procurement under Article 9.4.3, at least 40 days and not more than 12 months in advance, and such notice contains a description of the procurement, the time limits for the submission of tenders or, where appropriate, applications for participation in a procurement, and the address from which documents relating to the procurement may be obtained;
 - (b) where the entity procures commercial goods or services, except that the procuring entity may not rely on this provision if it requires suppliers to satisfy conditions for participation; or
 - (c) in duly substantiated cases of extreme urgency brought about by events unforeseeable by the procuring entity, such that a 40-day deadline would result in serious adverse consequences to the entity or the relevant Party.

*Article 9.6*Information On Intended Procurement*Tender Documentation*

1. A procuring entity shall provide to an interested supplier tender documentation that includes all information necessary to permit suppliers to prepare and submit responsive tenders. Unless already provided in the notice of intended procurement, such documentation shall include a complete description of:
 - (a) the procurement, including the nature, scope, and, where quantifiable, the quantity of the goods or services to be procured and any requirements to be fulfilled, including any technical specifications, conformity certification, plans, drawings, or instructional materials;
 - (b) any conditions for participation, information, or documents that suppliers are required to submit;
 - (c) all criteria, including all cost factors, to be considered in awarding the contract, and the relative importance of each criterion;
 - (d) the date, time, and place for the opening of tenders; and
 - (e) any other terms or conditions, including terms of payment, relating to the procurement.

2. A procuring entity shall promptly:
 - (a) provide, on request, the tender documentation to any supplier participating in the procurement; and
 - (b) reply to any reasonable request for relevant information by a supplier participating in the procurement, provided that such information does not give that supplier an advantage over its competitors in the procurement.

Modifications

3. If, during the course of a procurement, a procuring entity modifies the criteria or technical requirements set out in the notice of intended procurement or tender documentation provided to participating suppliers, or amends or reissues a notice or tender documentation, the procuring entity shall transmit in writing any such modification or amended or reissued notice or tender documentation:
 - (a) to all suppliers that are participating at the time the information is amended, if known, and, in all other cases, in the same manner as the original information;
 - (b) in sufficient time to allow such suppliers to modify and submit amended tenders, as appropriate; and
 - (c) in cases where a notice is reissued, in accordance with the time limits set out in Article 9.5.

Article 9.7

Technical Specifications

1. A procuring entity may not prepare, adopt, or apply any technical specification or prescribe any conformity assessment procedure with the purpose or the effect of creating unnecessary obstacles to trade between the Parties.
2. In prescribing any technical specification for the good or service being procured, a procuring entity shall:
 - (a) specify the technical specification, wherever appropriate, in terms of performance or functional requirements, rather than design or descriptive characteristics; and
 - (b) base the technical specification on international standards, where such exist and are applicable to the procuring entity, except where the use of an international standard would fail to meet the procuring entity's program requirements or would impose more burdens than the use of a government-unique standard.
3. A procuring entity may not prescribe technical specifications that require or refer to a particular trademark or trade name, patent, copyright, design or type, specific origin, producer, or supplier, unless there is no other sufficiently precise or intelligible way of describing the procurement requirements and provided that, in such cases, words such as "or equivalent" are included in the tender documentation.
4. A procuring entity may not seek or accept, in a manner that would have the effect of precluding competition, advice that may be used in preparing or adopting any technical specification for a specific procurement from a person that may have a commercial interest in that procurement.

5. For greater certainty, this Article is not intended to preclude a procuring entity from preparing, adopting, or applying technical specifications to promote the conservation of natural resources or to protect the environment.

Article 9.8

Conditions For Participation

1. Where a procuring entity requires suppliers to satisfy conditions for participation, the entity shall, subject to the other provisions of this Chapter:

- (a) limit any conditions for participation in a covered procurement to those that are essential to ensure that the supplier has the legal, technical, and financial abilities to fulfil the requirements and technical specifications of the procurement;
- (b) evaluate a supplier's financial and technical abilities on the basis of its global business activities, including both its activities in the territory of the Party of the supplier, as well as its activities, if any, in the territory of the Party of the procuring entity, and may not impose the condition that, in order for a supplier to participate in a procurement, the supplier has previously been awarded one or more contracts by a procuring entity of that Party or that the supplier has prior work experience in the territory of that Party;
- (c) base its determination of whether a supplier has satisfied the conditions for participation solely on the conditions that it has specified in advance in notices or tender documentation; and
- (d) allow all suppliers that satisfy the conditions for participation to participate in the procurement.

2. Nothing in this Article shall preclude a procuring entity from excluding a supplier from a procurement on grounds such as bankruptcy or false declarations.

3. Where a procuring entity requires suppliers to satisfy conditions for participation, the entity shall publish a notice inviting suppliers to apply for participation. The entity shall publish the notice sufficiently in advance to provide interested suppliers adequate time to prepare and submit responsive applications and for the entity to evaluate and make its determination based on such applications.

4. A procuring entity may establish a publicly available multi-use list of suppliers that satisfy its conditions for participation. Where a procuring entity requires suppliers to qualify for such a list in order to participate in a covered procurement, the entity shall promptly process any application for inclusion on the list. The entity shall allow a supplier whose application for inclusion on such a list is pending to participate in a procurement, provided that the entity determines that the supplier satisfies the conditions for participation and that there is sufficient time for the procuring entity to complete its evaluation of the supplier within the time period established for tendering.

5. A procuring entity shall promptly communicate to any supplier that has applied for participation its decision on whether that supplier has satisfied the conditions for participation. Where a procuring entity rejects an application for participation or ceases to recognize a supplier as having satisfied the conditions for participation, the entity shall promptly inform the supplier and, on request of the supplier, promptly provide a written explanation of the reasons for its decision.

*Article 9.9*Limited Tendering

1. Subject to paragraph 2, a procuring entity shall award contracts by means of open tendering procedures, in the course of which any interested supplier may submit a tender.
2. Provided that the tendering procedure is not used to avoid competition, to protect domestic suppliers, or in a manner that discriminates against suppliers of the other Party, a procuring entity may contact a supplier of its choice and may choose not to apply Articles 9.4 through 9.8 and Article 9.10 in relation to a covered procurement in any of the following circumstances:
 - (a) where, in response to a prior notice of intended procurement or invitation to tender,
 - (i) no tenders were submitted;
 - (ii) no tenders were submitted that conform to the essential requirements in the tender documentation; or
 - (iii) no suppliers satisfied the conditions for participation;and the entity does not substantially modify the essential requirements of the procurement or the conditions for participation;
 - (b) where the goods or services can be supplied only by a particular supplier and no reasonable alternative or substitute goods or services exist because:
 - (i) the requirement is for works of art;
 - (ii) the procuring entity is obligated to protect patents, copyrights, or other exclusive rights, or proprietary information; or
 - (iii) there is an absence of competition for technical reasons;
 - (c) for additional deliveries of goods or services by the original supplier that are intended either as replacement parts, extensions, or continuing services for existing equipment, software, services, or installations, where a change of supplier would compel the procuring entity to procure goods or services that do not meet requirements of interchangeability with existing equipment, software, services, or installations;
 - (d) for goods purchased on a commodity market;
 - (e) where a procuring entity procures a prototype or a first good or service that is developed at its request in the course of, and for, a particular contract for research, experiment, study, or original development. When such contracts have been fulfilled, subsequent procurements of goods or services shall be subject to Articles 9.4 through 9.8 and 9.10; or
 - (f) insofar as is strictly necessary where, for reasons of extreme urgency brought about by events unforeseeable by the procuring entity, the goods or services could not be obtained in time by means of an open tendering procedure and the use of an open tendering procedure would result in serious injury to the entity, the entity's program responsibilities, or the Party.

3. For each contract awarded under paragraph 2, a procuring entity shall prepare a written report that includes the name of the procuring entity, the value and kind of goods or services procured, and a statement indicating the circumstances and conditions described in paragraph 2 that justify the use of a procedure other than open tendering procedures. The procuring entity shall provide the report to the other Party on request.

Article 9.10

Awarding Of Contracts

1. A procuring entity shall require that, in order to be considered for award, a tender must be submitted in writing and must, at the time it is submitted:

- (a) conform to the essential requirements of the tender documentation and evaluation criteria specified in the notices and tender documentation; and
- (b) be submitted by a supplier that has satisfied any conditions for participation.

2. Unless a procuring entity determines that it is not in the public interest to award a contract, the entity shall award the contract to a supplier that the entity has determined to be fully capable of undertaking the contract and whose tender is determined to be the most advantageous in terms of the requirements and evaluation criteria set out in the notices and tender documentation.

3. No procuring entity may cancel a procurement, or terminate or modify a contract it has awarded, in order to avoid the obligations of this Chapter.

Information Provided to Suppliers

4. Subject to Article 9.14, a procuring entity shall promptly inform suppliers that have submitted tenders of its contract award decision. A procuring entity, on request of a supplier whose tender was not selected for award, shall provide the supplier the reasons for not selecting its tender and the relative advantages of the tender selected.

Publication of Award Information

5. Promptly after awarding a contract in a covered procurement, a procuring entity shall publish a notice that includes at least the following information about the award:

- (a) the name of the entity;
- (b) a description of the goods or services procured;
- (c) the name of the supplier awarded the contract;
- (d) the value of the contract award; and
- (e) where the entity did not use an open tendering procedure, an indication of the circumstances justifying the procedure used.

Maintenance of Records

6. A procuring entity shall maintain records and reports relating to tendering procedures and contract awards in covered procurements, including the reports required by Article 9.9.3, according to the practices of each Party, for at least three years after the date a contract is awarded.

*Article 9.11*Ensuring Integrity In Procurement Practices

Further to Article 18.5 (Anti-Corruption), each Party shall adopt or maintain procedures to declare ineligible for participation in the Party's procurements, either indefinitely or for a specified time, suppliers that the Party has determined to have engaged in fraudulent or illegal action in relation to procurement. On request of the other Party, a Party shall identify the suppliers determined to be ineligible under these procedures, and, where appropriate, exchange information regarding those suppliers or the fraudulent or illegal action.

*Article 9.12*Domestic Review Of Supplier Challenges

1. Each Party shall permit a supplier to challenge a Party's compliance with its measures implementing this Chapter without prejudice to that supplier's participation in ongoing or future procurement activities. Each Party shall ensure that its review procedures are made publicly available in writing, and are timely, transparent, effective, and consistent with the principle of due process.

2. Each Party shall establish or designate at least one impartial administrative or judicial authority that is independent of the procuring entity that is the subject of the challenge to receive and review challenges that suppliers submit in connection with any covered procurement. Where a body other than such an authority initially reviews a challenge, the Party shall ensure that the supplier may appeal the initial decision to an impartial administrative or judicial authority that is independent of the procuring entity that is the subject of the challenge.

3. Each Party shall authorize the authority that it establishes or designates under paragraph 2 to take prompt interim measures, pending the resolution of a challenge, to ensure that the Party complies with its measures implementing this Chapter and to preserve the supplier's opportunity to participate in the procurement, including by suspending the contract award or the performance of a contract that has already been awarded. However, in deciding whether to apply an interim measure, each Party may take into account any overriding adverse consequences to the public interest if an interim measure were taken. If a Party decides not to apply an interim measure, it shall provide a written explanation of the grounds for its decision.

4. Each Party shall ensure that the authority that it establishes or designates under paragraph 2 conducts its review in accordance with the following:

- (a) a supplier shall be allowed sufficient time to prepare and submit a written challenge, which in no case shall be less than ten days from the time when the basis of the challenge became known or reasonably should have become known to the supplier;
- (b) the procuring entity shall be required to respond in writing to the supplier's challenge and provide all relevant documents to the authority;
- (c) the supplier that initiates the challenge shall be provided an opportunity to reply to the procuring entity's response before the authority makes a decision on the challenge; and
- (d) the authority shall promptly provide decisions relating to a supplier's challenge in writing, with an explanation of the grounds for each decision.

*Article 9.13*Modifications And Rectifications To Coverage

1. Either Party may modify its coverage under this Chapter provided that it:
 - (a) notifies the other Party in writing and that Party does not object in writing within 30 days after the notification; and
 - (b) within 30 days after notifying the other Party, offers acceptable compensatory adjustments to the other Party to maintain a level of coverage comparable to that existing before the modification, except as provided in paragraph 3.
2. Either Party may make rectifications of a purely formal nature to its coverage under this Chapter, or minor amendments to its Schedule to Annex 9-A-1, 9-A-2, or 9-A-3, provided that it notifies the other Party in writing and the other Party does not object in writing within 30 days after the notification. A Party that makes such a rectification or minor amendment need not offer compensatory adjustments to the other Party.
3. A Party need not offer compensatory adjustments where the Parties agree that the proposed modification covers a procuring entity over which the Party has effectively eliminated its control or influence. Where the Parties do not agree that government control or influence has been effectively eliminated, the objecting Party may request further information or consultations with a view to clarifying the nature of any government control or influence and reaching agreement on the procuring entity's continued coverage under this Chapter.
4. The Joint Committee shall modify the relevant Annex to reflect any agreed modification, technical rectification, or minor amendment.

*Article 9.14*Non-Disclosure Of Information

1. A Party, including its procuring entities and review authority referred to in Article 9.12, shall not disclose confidential information that a person provides in the course of a procurement or challenge without the authorization of the person that provided the information. A procuring entity shall treat tenders in confidence.
2. Nothing in this Chapter shall be construed to require a Party, including its procuring entities, to provide confidential information the disclosure of which would:
 - (a) impede law enforcement;
 - (b) prejudice fair competition between suppliers;
 - (c) prejudice the legitimate commercial interests of particular suppliers or persons, including the protection of intellectual property; or
 - (d) otherwise be contrary to the public interest.

Article 9.15

Exceptions

1. Provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between the Parties where the same conditions prevail or a disguised restriction on trade between the Parties, nothing in this Chapter shall be construed to prevent a Party from adopting or maintaining measures:

- (a) necessary to protect public morals, order, or safety;
- (b) necessary to protect human, animal, or plant life or health;
- (c) necessary to protect intellectual property; or
- (d) relating to goods or services of handicapped persons, of philanthropic institutions, or of prison labor.

2. The Parties understand that paragraph 1(b) includes environmental measures necessary to protect human, animal, or plant life or health.

Article 9.16

- (b) addresses terminology, symbols, packaging, marking, or labelling requirements, as they apply to a good or service.

CHAPTER TEN: INVESTMENT

Section A: Investment

Article 10.1

Scope And Coverage

This Chapter applies to measures adopted or maintained by a Party relating to:

- (a) investors of the other Party;
- (b) covered investments; and
- (c) with respect to Articles 10.8 and 10.10, all investments in the territory of the Party.

Article 10.2

Relation To Other Chapters

1. In the event of any inconsistency between this Chapter and another Chapter, the other Chapter shall prevail to the extent of the inconsistency.
2. A requirement by a Party that a service supplier of the other Party post a bond or other form of financial security as a condition of the cross-border supply of a service does not of itself make this Chapter applicable to measures adopted or maintained by the Party relating to such cross-border supply of the service. This Chapter applies to measures adopted or maintained by the Party relating to the posted bond or financial security, to the extent that such bond or financial security is a covered investment.
3. This Chapter does not apply to measures adopted or maintained by a Party to the extent that they are covered by Chapter Twelve (Financial Services).

*Article 10.3*National Treatment

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of its own investors with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.
3. The treatment to be accorded by a Party under paragraphs 1 and 2 means, with respect to a regional level of government, treatment no less favorable than the most favorable treatment accorded, in like circumstances, by that regional level of government to investors, and to investments of investors, of the Party of which it forms a part.

*Article 10.4*Most-Favored-Nation Treatment

1. Each Party shall accord to investors of the other Party treatment no less favorable than that it accords, in like circumstances, to investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments in its territory.
2. Each Party shall accord to covered investments treatment no less favorable than that it accords, in like circumstances, to investments in its territory of investors of any non-Party with respect to the establishment, acquisition, expansion, management, conduct, operation, and sale or other disposition of investments.

*Article 10.5*Minimum Standard Of Treatment¹

1. Each Party shall accord to covered investments treatment in accordance with customary international law, including fair and equitable treatment and full protection and security.
2. For greater certainty, paragraph 1 prescribes the customary international law minimum standard of treatment of aliens as the minimum standard of treatment to be afforded to covered investments. The concepts of “fair and equitable treatment” and “full protection and security” do not require treatment in addition to or beyond that which is required by that standard, and do not create additional substantive rights. The obligation in paragraph 1 to provide:
 - (a) “fair and equitable treatment” includes the obligation not to deny justice in criminal, civil, or administrative adjudicatory proceedings in accordance with the principle of due process embodied in the principal legal systems of the world; and
 - (b) “full protection and security” requires each Party to provide the level of police protection required under customary international law.

¹ Article 10.5 shall be interpreted in accordance with Annex 10-A.

3. A determination that there has been a breach of another provision of this Agreement, or of a separate international agreement, does not establish that there has been a breach of this Article.

4. Notwithstanding Article 10.12.5(b), each Party shall accord to investors of the other Party, and to covered investments, non-discriminatory treatment with respect to measures it adopts or maintains relating to losses suffered by investments in its territory owing to armed conflict or civil strife.

5. Notwithstanding paragraph 4, if an investor of a Party, in the situations referred to in paragraph 4, suffers a loss in the territory of the other Party resulting from:

- (a) requisitioning of its covered investment or part thereof by the latter's forces or authorities; or
- (b) destruction of its covered investment or part thereof by the latter's forces or authorities, which was not required by the necessity of the situation,

the latter Party shall provide the investor restitution, compensation, or both, as appropriate, for such loss. Any compensation shall be prompt, adequate, and effective in accordance with Article 10.6.2 through 10.6.4, *mutatis mutandis*.

6. Paragraph 4 does not apply to existing measures relating to subsidies or grants that would be inconsistent with Article 10.3 but for Article 10.12.5(b).

Article 10.6

Expropriation And Compensation²

1. Neither Party may expropriate or nationalize a covered investment either directly or indirectly through measures equivalent to expropriation or nationalization ("expropriation"), except:

- (a) for a public purpose;
- (b) in a non-discriminatory manner;
- (c) on payment of prompt, adequate, and effective compensation; and
- (d) in accordance with due process of law and Article 10.5.1 through 10.5.3.

2. The compensation referred to in paragraph 1(c) shall:

- (a) be paid without delay;

2. Articles 10.3, 10.4, 10.8, and 10.9 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities, as set out in its Schedule to Annex II.

2. Notwithstanding Articles 10.3 and 10.4, a Party may require an investor of the other Party, or a covered investment, to provide information concerning that investment solely for informational or statistical purposes.  - (b) Article II of the New York Convention for an "agreement in writing."

Article 10.17

Conditions And Limitations On Consent Of Each Party

1. No claim may be submitted to arbitration under this Section if more than three years have elapsed from the date on which the claimant first acquired, or should have first acquired, knowledge of the breach alleged under Article 10.15.1 and knowledge that the claimant (for claims brought under Article 10.15.1(a)) or the enterprise (for claims brought under Article 10.15.1(b)) has incurred loss or damage.

3. Notwithstanding paragraph 2(b), the claimant (for claims brought under Article 10.15.1(a)) and the claimant or the enterprise (for claims brought under Article 10.15.1(b)) may initiate or continue an action that seeks interim injunctive relief and does not involve the payment of monetary damages before a judicial or administrative tribunal of the respondent, provided that the action is brought for the sole purpose of preserving the claimant's or the enterprise's rights and interests during the pendency of the arbitration. In no case should such relief, if granted, be dispositive of the issues in dispute before the tribunal or suspend the proceedings before the tribunal.

*Article 10.18*Selection Of Arbitrators

1. Unless the disputing parties agree otherwise, the tribunal shall comprise three arbitrators, one arbitrator appointed by each of the disputing parties and the third, who shall be the presiding arbitrator, appointed by agreement of the disputing parties.
2. The Secretary-General shall serve as appointing authority for an arbitration under this Section.
3. If a tribunal has not been constituted within 75 days from the date that a claim is submitted to arbitration under this Section, the Secretary-General, on the request of a disputing party, shall appoint, in his or her discretion, the arbitrator or arbitrators not yet appointed.
4. For purposes of Article 39 of the ICSID Convention and Article 7 of Schedule C to the ICSID Additional Facility Rules, and without prejudice to an objection to an arbitrator on a ground other than nationality:

 - (b) a claimant referred to in Article 10.15.1(a) may submit a claim to arbitration under this Section, or continue a claim, under the ICSID Convention or the ICSID Additional Facility Rules, only on condition that the claimant agrees in writing to the appointment of each individual member of the tribunal; and

*Article 10.19*Conduct Of The Arbitration

1. The disputing parties may agree on the legal place of any arbitration under the arbitral rules applicable under Article 10.15.3. If the disputing parties fail to reach agreement, the tribunal shall determine the place in accordance with the applicable arbitral rules, provided that the place shall be in the territory of a State that is a party to the New York Convention.
2. The non-disputing Party may make oral and written submissions to the tribunal regarding the interpretation of this Agreement.
3. The tribunal shall have the authority to accept and consider amicus curiae submissions from a person or entity that is not a disputing party.
4. Without prejudice to a tribunal's authority to address other objections as a preliminary question, a tribunal shall address and decide as a preliminary question any objection by the respondent that, as a matter of law, a claim submitted is not a claim for which an award in favor of the claimant may be made under Article 10.25.
 - (a) Such objection shall be submitted to the tribunal as soon as possible after the tribunal is constituted, and in no event later than the date the tribunal fixes for the respondent to submit its counter-memorial (or, in the case of an amendment to the notice of

arbitration, the date the tribunal fixes for the respondent to submit its response to the amendment).

- (b) On receipt of an objection under this paragraph, the tribunal shall suspend any proceedings on the merits, establish a schedule for considering the objection consistent with any schedule it has established for considering any other preliminary question, and issue a decision or award on the objection, stating the grounds therefore.
- (c) In deciding an objection under this paragraph, the tribunal shall assume to be true claimant's factual allegations in support of any claim in the notice of arbitration (or any amendment thereof) and, in disputes brought under the UNCITRAL Arbitration Rules, the statement of claim referred to in Article 18 of the UNCITRAL Arbitration Rules. The tribunal may also consider any relevant facts not in dispute.
- (d) The respondent does not waive any objection as to competence or any argument on the merits merely because the respondent did or did not raise an objection under this paragraph or make use of the expedited procedure set out in paragraph 5.

5. In the event that the respondent so requests within 45 days after the tribunal is constituted, the tribunal shall decide on an expedited basis an objection under paragraph 4 and any objection that the dispute is not within the tribunal's competence. The tribunal shall suspend any proceedings on the merits and issue a decision or award on the objection(s), stating the grounds therefor, no later than 150 days after the date of the request. However, if a disputing party requests a hearing, the tribunal may take an additional 30 days to issue the decision or award. Regardless of whether a hearing is requested, a tribunal may, on a showing of extraordinary cause, delay issuing its decision or award by an additional brief period, which may not exceed 30 days.

6. When it decides a respondent's objection under paragraph 4 or 5, the tribunal may, if warranted, award to the prevailing disputing party reasonable costs and attorney's fees incurred in submitting or opposing the objection. In determining whether such an award is warranted, the tribunal shall consider whether either the claimant's claim or the respondent's objection was frivolous, and shall provide the disputing parties a reasonable opportunity to comment.

7. A respondent may not assert as a defense, counterclaim, right of set-off, or for any other reason that the claimant has received or will receive indemnification or other compensation for all or part of the alleged damages pursuant to an insurance or guarantee contract.

8. The tribunal may order an interim measure of protection to preserve the rights of a disputing party, or to ensure that the tribunal's jurisdiction is made fully effective, including an order to preserve evidence in the possession or control of a disputing party or to protect the tribunal's jurisdiction. The tribunal may not order attachment or enjoin the application of a measure alleged to constitute a breach referred to in Article 10.15. For purposes of this paragraph, an order includes a recommendation.

9. (a) In any arbitration conducted under this Section, at the request of a disputing party, a tribunal shall, before issuing a decision or award on liability, transmit its proposed decision or award to the disputing parties and to the non-disputing Party. Within 60 days after the tribunal transmits its proposed decision or award, the disputing parties may submit written comments to the tribunal concerning any aspect of its proposed decision or award. The tribunal shall consider any such comments and issue its decision or award not later than 45 days after the expiration of the 60-day comment period.

- (b) Subparagraph (a) shall not apply in any arbitration conducted pursuant to this Section for which an appeal has been made available pursuant to paragraph 10 or Annex 10-D.

10. If a separate regional or multilateral agreement concerning investment enters into force between the Parties that establishes an appellate body for purposes of reviewing awards rendered by tribunals constituted pursuant to international trade or investment arrangements to hear investment disputes, the Parties shall strive to reach an agreement that would have such appellate body review awards rendered under Article 10.25 in arbitrations commenced after the regional or multilateral agreement enters into force between the Parties.

Article 10.20

- (a) the notice of intent;
- (b) the notice of arbitration;
- (c) pleadings, memorials, and briefs submitted to the tribunal by a disputing party and any written submissions submitted pursuant to Article 10.19.2 and 10.19.3 and Article 10.24;
- (d) minutes or transcripts of hearings of the tribunal, where available; and
- (e) orders, awards, and decisions of the tribunal.

2. The tribunal shall conduct hearings open to the public and shall determine, in consultation with the disputing parties, the appropriate logistical arrangements. However, any disputing party that intends to use information designated as protected information in a hearing shall so advise the tribunal. The tribunal shall make appropriate arrangements to protect the information from disclosure.

3. Nothing in this Section requires a respondent to disclose protected information or to furnish or allow access to information that it may withhold in accordance with Article 21.2 (Essential Security) or Article 21.5 (Disclosure of Information).

4. Any protected information that is submitted to the tribunal shall be protected from disclosure in accordance with the following procedures:

- (a) Subject to subparagraph (d), neither the disputing parties nor the tribunal shall disclose to the non-disputing Party or to the public any protected information where the disputing party that provided the information clearly designates it in accordance with subparagraph (b);
- (b) Any disputing party claiming that certain information constitutes protected information shall clearly designate the information at the time it is submitted to the tribunal;
- (c) A disputing party shall, at the time it submits a document containing information claimed to be protected information, submit a redacted version of the document that

does not contain the information. Only the redacted version shall be provided to the non-disputing Party and made public in accordance with paragraph 1; and

- (d) The tribunal shall decide any objection regarding the designation of information claimed to be protected information. If the tribunal determines that such information was not properly designated, the disputing party that submitted the information may (i) withdraw all or part of its submission containing such information, or (ii) agree to resubmit complete and redacted documents with corrected designations in accordance with the tribunal's determination and subparagraph (c). In either case, the other disputing party shall, whenever necessary, resubmit complete and redacted documents which either remove the information withdrawn under (i) by the disputing party that first submitted the information or redesignate the information consistent with the designation under (ii) of the disputing party that first submitted the information.

5. Nothing in this Section requires a respondent to withhold from the public information required to be disclosed by its laws.

Article 10.21

Governing Law

1. Subject to paragraph 3, when a claim is submitted under Article 10.15.1(a)(i)(A) or Article 10.15.1(b)(i)(A), the tribunal shall decide the issues in dispute in accordance with this Agreement and applicable rules of international law.

2. Subject to paragraph 3 and the other terms of this Section, when a claim is submitted under Article 10.15.1(a)(i)(B) or (C), or Article 10.15.1(b)(i)(B) or (C), the tribunal shall apply:

- (a) the rules of law specified in the pertinent investment authorization or investment agreement, or as the disputing parties may agree otherwise; or
- (b) if the rules of law have not been specified or agreed otherwise:
- (i) the law of the respondent, including its rules on the conflict of laws;⁸ and
- (ii) such rules of international law as may be applicable.

3. A decision of the Joint Committee declaring its interpretation of a provision of this Agreement under Article 19.2 (Joint Committee) shall be binding on a tribunal, and any decision or award issued by a tribunal must be consistent with that decision.

Article 10.22

Interpretation Of Annexes

1. Where a respondent asserts as a defense that the measure alleged to be a breach is within the scope of an entry set out in Annex I or Annex II, the tribunal shall, on request of the respondent, request the interpretation of the Joint Committee on the issue. The Joint Committee shall submit in writing any decision declaring its interpretation under Article 19.2 (Joint Committee) to the tribunal within 60 days of delivery of the request.

⁸ The **law of the respondent** means the law that a domestic court or tribunal of proper jurisdiction would apply in the same case.

2. A decision issued by the Joint Committee under paragraph 1 shall be binding on the tribunal, and any decision or award issued by the tribunal must be consistent with that decision. If the Joint Committee fails to issue such a decision within 60 days, the tribunal shall decide the issue.

Article 10.23

Expert Reports

Without prejudice to the appointment of other kinds of experts where authorized by the applicable arbitration rules, a tribunal, at the request of a disputing party or, unless the disputing parties disapprove, on its own initiative, may appoint one or more experts to report to it in writing on any factual issue concerning environmental, health, safety, or other scientific matters raised by a disputing party in a proceeding, subject to such terms and conditions as the disputing parties may agree.

Article 10.24

Consolidation

1. Where two or more claims have been submitted separately to arbitration under Article 10.15.1 and the claims have a question of law or fact in common and arise out of the same events or circumstances, any disputing party may seek a consolidation order in accordance with the agreement of all the disputing parties sought to be covered by the order or the terms of paragraphs 2 through 10.

2. A disputing party that seeks a consolidation order under this Article shall deliver, in writing, a request to the Secretary-General and to all the disputing parties sought to be covered by the order and shall specify in the request:

- (a) the names and addresses of all the disputing parties sought to be covered by the order;
- (b) the nature of the order sought; and
- (c) the grounds on which the order is sought.

3. Unless the Secretary-General finds within 30 days after receiving a request under paragraph 2 that the request is manifestly unfounded, a tribunal shall be established under this Article.

4. Unless all the disputing parties sought to be covered by the order agree otherwise, a tribunal established under this Article shall comprise three arbitrators:

- (a) one arbitrator appointed by agreement of the claimants;
- (b) one arbitrator appointed by the respondent; and
- (c) the presiding arbitrator appointed by the Secretary-General, provided, however, that the presiding arbitrator shall not be a national of either Party.

5. If, within 60 days after the Secretary-General receives a request made under paragraph 2, the respondent fails or the claimants fail to appoint an arbitrator in accordance with paragraph 4, the Secretary-General, on the request of any disputing party sought to be covered by the order, shall appoint the arbitrator or arbitrators not yet appointed. If the respondent fails to appoint an arbitrator, the Secretary-General shall appoint a national of the disputing Party, and if the claimants fail to appoint an arbitrator, the Secretary-General shall appoint a national of the non-disputing Party.

6. Where a tribunal established under this Article is satisfied that two or more claims that have been submitted to arbitration under Article 10.15.1 have a question of law or fact in common, and arise out of the same events or circumstances, the tribunal may, in the interest of fair and efficient resolution of the claims, and after hearing the disputing parties, by order:

- (a) assume jurisdiction over, and hear and determine together, all or part of the claims;
- (b) assume jurisdiction over, and hear and determine one or more of the claims, the determination of which it believes would assist in the resolution of the others; or
- (c) instruct a tribunal previously established under Article 10.18 to assume jurisdiction over, and hear and determine together, all or part of the claims, provided that

ANNEX 10-A

Customary International Law

The Parties confirm their shared understanding that “customary international law” generally and as specifically referenced in Article 10.5 and Annex 10-B results from a general and consistent practice of States that they follow from a sense of legal obligation. With regard to Article 10.5, the customary international law minimum standard of treatment of aliens refers to all customary international law principles that protect the economic rights and interests of aliens.

ANNEX 10-B

Expropriation

The Parties confirm their shared understanding that:

1. Article 10.6.1 is intended to reflect customary international law concerning the obligation of States with respect to expropriation.
2. An action or a series of actions by a Party cannot constitute an expropriation unless it interferes with a tangible or intangible property right or property interest in an investment.
3. Article 10.6.1 addresses two situations. The first is direct expropriation, where an investment is nationalized or otherwise directly expropriated through formal transfer of title or outright seizure.
4. The second situation addressed by Article 10.6.1 is indirect expropriation, where an action or series of actions by a Party has an effect equivalent to direct expropriation without formal transfer of title or outright seizure.
 - (a) The determination of whether an action or series of actions by a Party, in a specific fact situation, constitutes an indirect expropriation, requires a case-by-case, fact-based inquiry that considers, among other factors:
 - (i) the economic impact of the government action, although the fact that an action or series of actions by a Party has an adverse effect on the economic

- value of an investment, standing alone, does not establish that an indirect expropriation has occurred;
- (ii) the extent to which the government action interferes with distinct, reasonable investment-backed expectations; and
 - (iii) the character of the government action.
- (b) Except in rare circumstances, non-discriminatory regulatory actions by a Party that are designed and applied to protect legitimate public welfare objectives, such as public health, safety, and the environment, do not constitute indirect expropriations.

2. Articles 11.2, 11.3, 11.4, and 11.5 do not apply to any measure that a Party adopts or maintains with respect to sectors, sub-sectors, or activities set out in its Schedule to Annex II.
3. Annex 11-A sets out specific commitments by the Parties.

² This paragraph does not cover measures of a Party that limit inputs for the supply of services.

Article 11.7

Domestic Regulation

1. Where a Party requires authorization for the supply of a service, the Party's competent authorities shall, within a reasonable period after the submission of an application considered complete under its laws and regulations, inform the applicant of the decision concerning the application. At the request of the applicant, the competent authorities of the Party shall provide, without undue delay, information concerning the status of the application. This obligation shall not apply to authorization requirements that are within the scope of Article 11.6.2.

2. With a view to ensuring that measures relating to qualification requirements and procedures, technical standards, and licensing requirements do not constitute unnecessary barriers to trade in services, each Party shall endeavor to ensure, as appropriate for individual sectors, that such measures are:

- (a) based on objective and transparent criteria, such as competence and the ability to supply the service;
- (b) not more burdensome than necessary to ensure the quality of the service; and
- (c) in the case of licensing procedures, not in themselves a restriction on the supply of the service.

3. If the results of the negotiations related to Article VI:4 of GATS (or the results of any similar negotiations undertaken in other multilateral fora in which both Parties participate) enter into effect, this Article shall be amended, as appropriate, after consultations between the Parties, to bring those results into effect under this Agreement. The Parties agree to coordinate on such negotiations, as appropriate.

Article 11.8

Such recognition, which may be achieved through harmonization or otherwise, may be based on an agreement or arrangement with the country concerned or may be accorded autonomously.
2. Where a Party recognizes, autonomously or by agreement or arrangement, the education or experience obtained, requirements met, or licenses or certifications granted in the territory of a non-Party, nothing in Article 11.3 shall be construed to require the Party to accord such recognition to the education or experience obtained, requirements met, or licenses or certifications granted in the territory of the other Party.
3. A Party that is a party to an agreement or arrangement of the type referred to in paragraph 1, whether existing or future, shall afford adequate opportunity for the other Party, if the other Party is interested, to negotiate its accession to such an agreement or arrangement or to negotiate a comparable one with it. Where a Party accords recognition autonomously, it shall afford adequate opportunity for the other Party to demonstrate that education, experience, licenses, or certifications obtained or requirements met in that other Party's territory should be recognized.
4. Neither Party may accord recognition in a manner that would constitute a means of discrimination between countries in the application of its standards or criteria for the authorization, licensing, or certification of services suppliers, or a disguised restriction on trade in services.
5. Annex 11-B applies to measures adopted or maintained by a Party relating to the licensing or certification of professional service suppliers as set out in that Annex.

*Article 11.10*Transfers And Payments

1. Each Party shall permit all transfers and payments relating to the cross-border supply of services to be made freely and without delay into and out of its territory.

2. A Party may determine the institutional and juridical form through which the new financial service may be supplied and may require authorization for the supply of the service. Where a Party would permit the new financial service and authorization is required, the decision shall be made within a reasonable time and authorization may only be refused for prudential reasons.

2. Articles 12.2 through 12.5 and 12.8 do not apply to any measure that a Party adopts or maintains with respect to sectors, subsectors, or activities set out in Section B of its Schedule to Annex III.

2. Nothing in this Chapter or Chapters Ten (Investment), Thirteen (Telecommunications), or Fourteen (Electronic Commerce), including specifically Article 13.16 (Telecommunications, Relationship to Other Chapters), and Article 11.1 (Scope and Coverage) with respect to the supply of financial services in the territory of a Party by a covered investment applies to non-discriminatory measures of general application taken by any public entity in pursuit of monetary and related credit policies or exchange rate policies. This paragraph does not prejudice any other provision of this Agreement that permits a Party to restrict transfers.
4. For greater certainty, nothing in this Chapter shall be construed to prevent the adoption or enforcement by a Party of measures necessary to secure compliance with laws or regulations that are not inconsistent with this Chapter, including those relating to the prevention of deceptive and fraudulent practices or to deal with the effects of a default on financial services contracts, subject to the requirement that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination between countries where like conditions prevail, or a disguised restriction on investment in financial institutions or cross-border trade in financial services, as covered by this Chapter.

*Article 12.11*Transparency

ANNEX 12-B

Specific Commitments

United States – Expedited Availability of Insurance

Recognizing the principles of federalism under the U.S. Constitution, the history of state regulation of insurance in the United States, and the McCarran-Ferguson Act, the United States welcomes the efforts of the National Association of Insurance Commissioners (“NAIC”) relating to the availability of insurance services as expressed in the NAIC’s “Statement of Intent: The Future of Insurance Regulation,” including the initiatives on speed-to-market intentions and regulatory re-engineering (under Part II of the Statement of Intent).

Morocco – Expedited Availability of Insurance

Morocco reaffirms the transparency, rapidity, and efficiency of its procedures regarding introduction and distribution of products issued by insurance companies in its territory. In particular, Morocco deems any product to be approved unless it is disapproved within 30 days. Morocco imposes no limitations on the number or frequency of product introductions. As part of the work program of the Subcommittee on Financial Services, Morocco will be open to further discussions of the need for continuing review of products other than those sold to individuals (including life insurance), small- or medium-sized businesses, or compulsory insurance.

Morocco – Future Consultation and Implementing Actions Regarding Non-Insurance Financial Services

To follow up on discussions that took place during the negotiation of this Agreement with respect to non-insurance financial services, Morocco and the United States agree as follows:

1. Morocco shall begin consultations, in the context of the Subcommittee on Financial Services, and shall consider liberalizing changes with respect to the following two areas:

- (a) Morocco's current requirement that operations of banks incorporated abroad and functioning as branches in Morocco be limited by the amount of capital effectively allocated by those institutions to their operations in Morocco (*dotation en capital*). Morocco and the United States agree that any liberalizing change to this requirement would apply to new bank branches established after the change becomes effective and would not apply in the case of the conversion to a branch by a foreign bank operating through a subsidiary in Morocco, where that subsidiary is systemically important.⁴ Among possible approaches to liberalizing this requirement, the following two are noted:
 - (i) allowing a foreign branch bank to operate based on the capital of its parent company through a multiplying coefficient of the branch's paid-in capital in Morocco, and
 - (ii) allowing a foreign branch bank to operate based on the capital of its parent company, up to an amount that would be limited to the average of total capital of the banks operating in Morocco, as calculated at the end of the prior year.
- (b) Morocco's current prohibition on the holding of non-Moroccan securities by Moroccan mutual funds. Morocco and the United States agree that any such change to this prohibition would be implemented at a pace to be determined. Among possible approaches to liberalizing this prohibition, the following two examples are noted:
 - (i) Morocco considers that a possible first step would be to permit five percent of the total amount of securities to be invested in non-Moroccan securities; and
 - (ii) the United States considers that a possible first step would be to permit 25 percent of the total amount of securities to be invested in non-Moroccan securities.

2. Morocco agrees that it will decide, by no later than three years from the date of entry into force of this Agreement, to take action to implement liberalizing changes with respect to one of the above two areas.

⁴ For example, a bank with assets comprising one percent or less of the total assets of the Moroccan banking sector would not be considered systemically important.

ANNEX 12-C

Implementation Of Article 12.11

The Parties recognize that Morocco's implementation of the obligations of paragraphs 2, 3, and 4 of Article 12.11 may require changes to its process for issuing regulations. Morocco shall implement the obligations of paragraphs 2, 3, and 4 of Article 12.11 no later than two years after the date of entry into force of this Agreement. Morocco shall implement Article 12.11.2 within its constitutional framework.

- (a) safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally;

¹ For Morocco, subparagraphs (b) through (e) apply only to service suppliers in its territory classified as suppliers of public telecommunications services or suppliers of value-added services.

² In Morocco, only a licensed telecommunications supplier is permitted to own circuits.

- (b) protect the technical integrity of public telecommunications transport networks or services; or
- (c) ensure that service suppliers of the other Party do not supply services unless permitted pursuant to commitments in this Agreement.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to and use of public telecommunications transport networks and services may include:

- (iv) in a timely fashion, on terms, conditions (including technical standards and specifications), and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that suppliers need not pay for network components or facilities that they do not require for the service to be provided; and
- (v) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

(b) Options for Interconnecting with Major Suppliers

Each Party shall ensure that suppliers of public telecommunications services of the other Party may interconnect their facilities and equipment with those of major suppliers in its territory pursuant to at least one of the following options:

- (i) a reference interconnection offer or another standard interconnection offer containing the rates, terms, and conditions that the major suppliers offer generally to suppliers of public telecommunications services; or
- (ii) the terms and conditions of an existing interconnection agreement or through negotiation of a new interconnection agreement.

(c) Public Availability of Interconnection Offers

Co-location

- 6. (a) Subject to subparagraphs (b) and (c), each Party shall ensure that major suppliers in its territory provide to suppliers of public telecommunications services of the other Party physical co-location of equipment necessary for interconnection on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent.
- (b) Where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that major suppliers in its territory
 - (i) provide an alternative solution or
 - (ii) facilitate virtual co-location,
 on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory, and transparent.

 - (e) conform with any particular standard or technical regulation for interconnection other than for interconnection to a public telecommunications network.
2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1 to remedy a practice of a supplier of value-added services that the Party has found in a particular case to be anticompetitive under its law or regulations, or to otherwise promote competition or safeguard the interests of consumers.

Article 13.7

Independent Regulatory Bodies And Privatization

1. Each Party shall ensure that its telecommunications regulatory body is separate from, and not accountable to, any supplier of public telecommunications services. To this end, each Party shall ensure that its telecommunications regulatory body does not hold a financial interest or maintain an operating role in any such supplier.

2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated for specific government uses.

3. Decisions on allocating and assigning spectrum and frequency management are not measures that are *per se* inconsistent with Article 11.4 (Market Access), which is applied to Chapter Ten (Investment) through Article 11.1.3 (Scope and Coverage). Accordingly, each Party retains the right to exercise its spectrum and frequency management policies, which may affect the number of suppliers of public telecommunications services, provided that this is done in a manner that is consistent with the provisions of this Agreement. The Parties also retain the right to allocate frequency bands taking into account existing and future needs and spectrum availability.

- (ii) Suppliers of public telecommunications services of the other Party that have requested interconnection with a major supplier in the Party's territory may seek review, within a reasonable and publicly specified period after the supplier requests interconnection, by its telecommunications regulatory body¹⁰ to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier.

Reconsideration

- (b) Any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of its telecommunications regulatory body may petition the body to reconsider that determination or decision. Neither Party may permit such a petition to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body unless an appropriate authority stays the determination or decision.

Judicial Review

- (c) Any enterprise that is aggrieved or whose interests are adversely affected by a determination or decision of its telecommunications regulatory body may obtain judicial review of the determination or decision by an impartial and independent judicial authority.

¹⁰ The United States may comply with this obligation by providing for review by a state regulatory authority.

*Article 13.15*Forbearance

The Parties recognize the importance of relying on market forces to provide wide choices in the supply of telecommunications services. To this end, each Party may forbear from applying a regulation to a service that the Party classifies as a public telecommunications service, if its telecommunications regulatory body determines that:

- (a) enforcement of the regulation is not necessary to prevent unreasonable or discriminatory practices;
- (b) enforcement of the regulation is not necessary for the protection of consumers; and
- (c) forbearance is consistent with the public interest, including promoting and enhancing competition between suppliers of public telecommunications services.

2. Each Party shall provide that trademarks shall include certification marks.
3. Each Party shall ensure that its measures mandating the use of the term customary in common language as the common name for a good or service (“common name”), including, *inter alia*, requirements concerning the relative size, placement, or style of use of the trademark in relation to the common name, do not impair the use or effectiveness of trademarks used in relation to such good or service.
4. Each Party shall provide that the owner of a registered trademark shall have the exclusive right to prevent all third parties not having the owner’s consent from using in the course of trade identical or similar signs, including geographical indications, for goods or services that are related to those goods or services in respect of which the owner’s trademark is registered, where such use would result in a likelihood of confusion. In case of the use of an identical sign, including a geographical indication, for identical goods or services, a likelihood of confusion shall be presumed.
5. Each Party may provide limited exceptions to the rights conferred by a trademark, including a geographical indication, such as fair use of descriptive terms, provided that such exceptions take account of the legitimate interest of the owner of the trademark and of third parties.

Article 6bis of the *Paris Convention for the Protection of Industrial Property* (1967) shall apply, *mutatis mutandis*, to goods or services that are not identical or similar to those identified by a well-known trademark,⁴ whether registered or not, provided that use of that trademark in relation to those goods or services would indicate a connection between those goods or services and the owner of the trademark and provided that the interests of the owner of the trademark are likely to be damaged by such use.
7. Each Party shall provide a system for the registration of trademarks, which shall include:
 - (a) providing to the applicant a communication in writing, which may be provided electronically, of the reasons for a refusal to register a trademark;

- (a) an electronic means for applying for, processing, registering, and maintaining trademarks, and
 - (b) a publicly available electronic database, including an online database, of trademark applications and registrations.
9. Each Party shall provide that:
- (a) each registration, or publication that concerns a trademark application or registration, that indicates goods or services shall indicate the goods or services by their names, grouped according to the classes of the classification established by the *Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks* (1979), as revised and amended (“Nice Classification”).
 - (b) goods or services may not be considered as being similar to each other solely on the ground that, in any registration or publication, they appear in the same class of the Nice Classification. Conversely, each Party shall provide that goods or services may not be considered as being dissimilar from each other solely on the ground that, in any registration or publication, they appear in different classes of the Nice Classification.
10. Each Party shall provide that initial registration and each renewal of registration of a trademark shall be for a term of no less than ten years.
11. Neither Party may require recordation of trademark licenses to establish the validity of the license, to assert any rights in a trademark, or for other purposes.

Article 15.3

Geographical Indications

Procedures with Respect to Geographical Indications

1. If a Party provides the means to apply for protection or petition for recognition of geographical indications, it shall:
- (a) accept those applications and petitions without requiring intercession by a Party on behalf of its nationals;
 - (b) process those applications or petitions, as relevant, with a minimum of formalities.
 - (c) ensure that its regulations governing filing of those applications or petitions, as relevant, are readily available to the public and set out clearly the procedures for these actions;

 - (e) ensure that applications or petitions, as relevant, for geographical indications are published for opposition, and provide procedures for opposing geographical

indications that are the subject of applications or petitions. Each Party shall also provide procedures to cancel a registration resulting from an application or a petition.

Relationship to Trademarks

2. Each Party shall provide that each of the following shall be a ground for refusing protection or recognition of a geographical indication:
 - (a) the geographical indication is likely to be confusingly similar to a trademark that is the subject of a good-faith pending application or registration; and
 - (b) the geographical indication is confusingly similar to a pre-existing trademark, the rights to which have been acquired in the territory of the Party through use in good faith.

Definition

3. For purposes of this Chapter, **geographical indications** means indications that identify a good as originating in the territory of a Party, or a region or locality in that territory, where a given quality, reputation, or other characteristic of the good is essentially attributable to its geographical origin.⁵ Any sign or combination of signs (such as words, including geographical and personal names, as well as letters, numerals, figurative elements, and colors, including single colors), in any form whatsoever, shall be eligible to be a geographical indication.

Article 15.4

Domain Names On The Internet

1. In order to address the problem of trademark cyber-piracy, each Party shall require that the management of its country-code top-level domain (“ccTLD”) provide an appropriate procedure for the settlement of disputes, based on the principles established in the Uniform Domain-Name Dispute-Resolution Policy.
2. Each Party shall require that the management of its ccTLD provide online public access to a reliable and accurate database of contact information for domain-name registrants.

Article 15.5

2. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize or prohibit the importation into that Party’s territory of copies of the work, performance, or

⁵ For greater certainty, the term “originating”, as used in this Chapter, does not have the meaning ascribed to the term originating good in Article 1.3 (Definitions).

⁶ “Authors, performers, and producers of phonograms” includes any successors in interest.

⁷ With respect to copyrights and related rights in this Chapter, the “right to authorize or prohibit” and the “right to authorize” refer to exclusive rights.

⁸ With respect to copyrights and related rights in this Chapter, a “performance” means a performance fixed in a phonogram unless otherwise specified.

3. Each Party shall provide to authors, performers, and producers of phonograms the right to authorize the making available to the public of the original and copies of their works, performances, and phonograms through sale or other transfer of ownership.

4. In order to ensure that no hierarchy is established between rights of authors, on the one hand, and rights of performers and producers of phonograms, on the other hand, each Party shall provide that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the author does not cease to exist because the authorization of the performer or producer is also required. Likewise, each Party shall establish that in cases where authorization is needed from both the author of a work embodied in a phonogram and a performer or producer owning rights in the phonogram, the need for the authorization of the performer or producer does not cease to exist because the authorization of the author is also required.

5. Each Party shall provide that, where the term of protection of a work (including a photographic work), performance, or phonogram is to be calculated:

- (a) on the basis of the life of a natural person, the term shall be not less than the life of the author and 70 years after the author's death; and
- (b) on a basis other than the life of a natural person, the term shall be
 - (i) not less than 70 years from the end of the calendar year of the first authorized publication of the work, performance, or phonogram, or
 - (ii) failing such authorized publication within 50 years from the creation of the work, performance, or phonogram, not less than 70 years from the end of the calendar year of the creation of the work, performance, or phonogram.

6. Each Party shall apply Article 18 of the *Berne Convention for the Protection of Literary and Artistic Works* (1971) (Berne Convention) and Article 14.6 of the TRIPS Agreement, *mutatis mutandis*, to the subject matter, rights, and obligations in this Article and Articles 15.6 and 15.7.

7. Each Party shall provide that for copyright and related rights, any person acquiring or holding any economic right in a work, performance, or phonogram:

- (a) may freely and separately transfer that right by contract; and
- (b) by virtue of a contract, including contracts of employment underlying the creation of works, performances, and phonograms, shall be able to exercise that right in that person's own name and enjoy fully the benefits derived from that right.

8. (a) In order to provide adequate legal protection and effective legal remedies against the circumvention of effective technological measures that authors, performers, and producers of phonograms use in connection with the exercise of their rights and that restrict unauthorized acts in respect of their works, performances, and phonograms, each Party shall provide that any person who:

- (i) circumvents without authority any effective technological measure that controls access to a protected work, performance, phonogram, or other subject matter; or

- (ii) manufactures, imports, distributes, offers to the public, provides, or otherwise trafficks in devices, products, or components, or offers to the public or provides services, that:
 - (A) are promoted, advertised, or marketed for the purpose of circumvention of any effective technological measure,
 - (B) have only a limited commercially significant purpose or use other than to circumvent any effective technological measure, or
 - (C) are primarily designed, produced, or performed for the purpose of enabling or facilitating the circumvention of any effective technological measure, shall be liable and subject to the remedies set out in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.
- (b) In implementing subparagraph (a), neither Party shall be obligated to require that the design of, or the design and selection of parts and components for, a consumer electronics, telecommunications, or computing product provide for a response to any particular technological measure, so long as the product does not otherwise violate any measures implementing subparagraph (a).
- (c) Each Party shall provide that a violation of a measure implementing this paragraph is a separate civil or criminal offense, independent of any infringement that might occur under the Party's law on copyright and related rights.
- (d) Each Party shall confine exceptions and limitations to any measures implementing subparagraph (a) to the following activities, which shall be applied to relevant measures in accordance with subparagraph (e):
 - (i) noninfringing reverse engineering activities with regard to a lawfully obtained copy of a computer program, carried out in good faith with respect to particular elements of that computer program that have not been readily available to the person engaged in those activities, for the sole purpose of achieving interoperability of an independently created computer program with other programs;
 - (ii) noninfringing good faith activities, carried out by an appropriately qualified researcher who has lawfully obtained a copy, unfixated performance, or display of a work, performance, or phonogram and who has made a good faith effort to obtain authorization for such activities, to the extent necessary for the sole purpose of research consisting of identifying and analyzing flaws and vulnerabilities of technologies for scrambling and descrambling of information;
 - (iii) the inclusion of a component or part for the sole purpose of preventing the access of minors to inappropriate online content in a technology, product, service, or device that itself is not prohibited under the measures implementing subparagraph (a)(ii);

- (iv) noninfringing good faith activities that are authorized by the owner of a computer, computer system, or computer network for the sole purpose of testing, investigating, or correcting the security of that computer, computer system, or computer network;
 - (v) noninfringing activities for the sole purpose of identifying and disabling a capability to carry out undisclosed collection or dissemination of personally identifying information reflecting the online activities of a natural person in a way that has no other effect on the ability of any person to gain access to any work;
 - (vi) lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar governmental purposes; and
 - (vii) access by a nonprofit library, archive, or educational institution to a work not otherwise available to it, for the sole purpose of making acquisition decisions; and
 - (viii) noninfringing uses of a work, performance, or phonogram in a particular class of works, performances, or phonograms when an actual or likely adverse impact on those noninfringing uses is demonstrated in a legislative or administrative proceeding by substantial evidence; provided that any limitation or exception adopted in reliance upon this clause shall have effect for a period of not more than three years from the date of conclusion of such proceeding.
- (e) The exceptions and limitations to any measures implementing subparagraph (a) for the activities set forth in subparagraph (d) may only be applied as follows, provided that they do not impair the adequacy of legal protection or the effectiveness of legal remedies against the circumvention of effective technological measures:
- (i) Measures implementing subparagraph (a)(i) may be subject to exceptions and limitations with respect to each activity set forth in subparagraph (d).
 - (ii) Measures implementing subparagraph (a)(ii), as they apply to effective technological measures that control access to a work, performance, or phonogram, may be subject to exceptions and limitations with respect to activities set forth in subparagraph (d)(i), (ii), (iii), (iv), and (vi).
 - (iii) Measures implementing subparagraph (a)(ii), as they apply to effective technological measures that protect any copyright or any rights related to copyright, may be subject to exceptions and limitations with respect to activities set forth in subparagraph (d)(i) and (vi).
- (f) For purposes of this paragraph, **effective technological measure** means any technology, device, or component that, in the normal course of its operation, controls access to a protected work, performance, phonogram, or other protected subject matter, or protects any copyright or any rights related to copyright.

9. In order to provide adequate and effective legal remedies to protect rights management information:

- (a) each Party shall provide that any person who without authority, and knowing, or, with respect to civil remedies, having reasonable grounds to know, that it would induce, enable, facilitate, or conceal an infringement of any copyright or related right,
 - (i) knowingly removes or alters any rights management information;
 - (ii) distributes or imports for distribution rights management information knowing that the rights management information has been removed or altered without authority; or
 - (iii) distributes, imports for distribution, broadcasts, communicates, or makes available to the public copies of works, performances, or phonograms, knowing that rights management information has been removed or altered without authority,

shall be liable and subject to the remedies set out in Article 15.11.14. Each Party shall provide for criminal procedures and penalties to be applied when any person, other than a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity, is found to have engaged willfully and for purposes of commercial advantage or private financial gain in any of the foregoing activities.

- (b) Each Party shall confine exceptions and limitations to measures implementing subparagraph (a) to lawfully authorized activities carried out by government employees, agents, or contractors for the purpose of law enforcement, intelligence, essential security, or similar government purposes.
- (c) For purposes of this paragraph, **rights management information** means:
 - (i) information that identifies a work, performance, or phonogram; the author of the work, the performer of the performance, or the producer of the phonogram; or the owner of any right in the work, performance, or phonogram;
 - (ii) information about the terms and conditions of the use of the work, performance, or phonogram; or
 - (iii) any numbers or codes that represent such information,

when any of these items is attached to a copy of the work, performance, or phonogram or appears in connection with the communication or making available of a work, performance, or phonogram to the public.
- (d) For greater certainty, nothing in this paragraph obligates a Party to require the owner of any right in the work, performance, or phonogram to attach rights management information to copies of the work, performance, or phonogram, or to cause rights management information to appear in connection with a communication of the work, performance, or phonogram to the public.

10. Each Party shall issue appropriate laws, orders, regulations, or administrative or executive decrees mandating that its agencies use computer software only as authorized by the right holder. These measures shall actively regulate the acquisition and management of software for government use.

11. (a) With respect to this Article and Articles 15.6, and 15.7, each Party shall confine limitations or exceptions to exclusive rights to certain special cases that do not conflict with a normal exploitation of the work, performance, or phonogram, and do not unreasonably prejudice the legitimate interests of the right holder.
- (b) Notwithstanding subparagraph (a) and Article 15.7.3(b), neither Party may permit the retransmission of television signals (whether terrestrial, cable, or satellite) on the Internet without the authorization of the right holder or right holders of the content of the signal, if any, and of the signal.

Article 15.6

Copyright

Without prejudice to Articles 11(1)(ii), 11*bis*(1)(i) and (ii), 11*ter*(1)(ii), 14(1)(ii), and 14*bis*(1) of the Berne Convention, each Party shall provide to authors the exclusive right to authorize or prohibit the communication to the public of their works, by wire or wireless means, including the making available to the public of their works in such a way that members of the public may access these works from a place and at a time individually chosen by them.

Article 15.7

Related Rights

1. Each Party shall accord the rights provided for in this Chapter with respect to performers and producers of phonograms to the performers and producers of phonograms who are nationals of the other Party and to performances or phonograms first published or fixed in the territory of the other Party. A performance or phonogram shall be considered first published in the territory of a Party in which it is published within 30 days of its original publication.⁹
2. Each Party shall provide to performers the right to authorize or prohibit:
 - (a) the broadcasting and communication to the public of their unfixed performances, except where the performance is already a broadcast performance, and
 - (b) the fixation of their unfixed performances.
3. (a) Each Party shall provide to performers and producers of phonograms the right to authorize or prohibit the broadcasting or any communication to the public of their performances or phonograms, by wire or wireless means, including the making available to the public of those performances and phonograms in such a way that members of the public may access them from a place and at a time individually chosen by them.
- (b) Notwithstanding subparagraph (a) and Article 15.5.11, the application of this right to traditional free over-the-air (*i.e.*, noninteractive) broadcasting, and exceptions or limitations to this right for such activity, shall be a matter of each Party's law.
- (c) Each Party may adopt limitations to this right in respect of other noninteractive transmissions in accordance with Article 15.5.11, provided that the limitations do not prejudice the right of the performer or producer of phonograms to obtain equitable remuneration.

⁹ For purposes of this Article, "fixation" includes the finalization of the master tape or its equivalent.

4. Neither Party may subject the enjoyment and exercise of the rights of performers and producers of phonograms provided for in this Chapter to any formality.

5. For purposes of this Article and Article 15.5, the following definitions apply with respect to performers and producers of phonograms:

- (a) **broadcasting** means the transmission to the public by wireless means or satellite of sounds or sounds and images, or representations thereof, including wireless transmission of encrypted signals where the means for decrypting are provided to the public by the broadcasting organization or with its consent; “broadcasting” does not include transmissions over computer networks or any transmissions where the time and place of reception may be individually chosen by members of the public;
- (b) **communication to the public** of a performance or a phonogram means the transmission to the public by any medium, other than by broadcasting, of sounds of a performance or the sounds or the representations of sounds fixed in a phonogram. Article 15.8

Protection Of Encrypted Program-Carrying Satellite Signals

1. Each Party shall make it a criminal offense:

- (a) to manufacture, assemble, modify, import, export, sell, lease, or otherwise distribute a tangible or intangible device or system, knowing or having reason to know that the device or system is primarily of assistance in decoding an encrypted program-carrying satellite signal without the authorization of the lawful distributor of such signal; and
- (b) willfully to receive or further distribute a program-carrying signal that originated as an encrypted satellite signal knowing that it has been decoded without the authorization of the lawful distributor of the signal.

2. Each Party shall provide for civil remedies, including compensatory damages, for any person injured by any activity described in paragraph 1, including any person that holds an interest in the encrypted programming signal or its content.

Article 15.9

Patents

1. Each Party may only exclude from patentability inventions, the prevention within its territory of the commercial exploitation of which is necessary to protect *ordre public* or morality, including to protect human, animal, or plant life or health or to avoid serious prejudice to the environment, provided that such exclusion is not made merely because the exploitation is prohibited by law.

2. Each Party shall make patents available for the following inventions:

- (a) plants, and
- (b) animals.

In addition, the Parties confirm that patents shall be available for any new uses or methods of using a known product, including new uses of a known product for the treatment of humans and animals.

3. Each Party may provide limited exceptions to the exclusive rights conferred by a patent, provided that such exceptions do not unreasonably conflict with a normal exploitation of the patent and do not unreasonably prejudice the legitimate interests of the patent owner, taking account of the legitimate interests of third parties.

4. Each Party shall provide that the exclusive right of the patent owner to prevent importation of a patented product, or a product that results from patented process, without the consent of the patent owner shall not be limited by the sale or distribution of that product outside its territory.¹⁰

5. Each Party shall provide that a patent may be revoked only on grounds that would have justified a refusal to grant the patent. A Party may also provide that fraud, misrepresentation, or inequitable conduct may be the basis for revoking a patent or holding a patent unenforceable. Where a Party provides proceedings that permit a third party to oppose the grant of a patent, a Party shall not make such proceedings available before the grant of the patent.

6. Consistent with paragraph 3, if a Party permits a third person to use the subject matter of a subsisting patent to generate information necessary to support an application for marketing approval of a pharmaceutical product, that Party shall provide that any product produced under such authority shall not be made, used, or sold in its territory other than for purposes related to generating information to meet requirements for approval to market the product, and if the Party permits exportation, the Party shall provide that the product shall only be exported outside its territory for purposes of meeting marketing approval requirements of that Party.

7. Each Party, at the request of the patent owner, shall adjust the term of a patent to compensate for unreasonable delays that occur in granting the patent. For purposes of this paragraph, an unreasonable delay shall at least include a delay in the issuance of the patent of more than four years from the date of filing of the application in the territory of the Party, or two years after a request for examination of the application, whichever is later. Periods attributable to actions of the patent applicant need not be included in the determination of such delays.

¹⁰ A Party may limit application of this paragraph to cases where the patent owner has placed restrictions on importation by contract or other means.

8. Each Party shall disregard information contained in public disclosures used to determine if an invention is novel or has an inventive step¹¹ if the public disclosure:

- (a) was made or authorized by, or derived from, the patent applicant, and
- (b) occurred within 12 months prior to the date of filing of the application in the territory of the Party.

9. Each Party shall provide patent applicants with at least one opportunity to make amendments, corrections, and observations in connection with their applications.

10. Each Party shall provide that a disclosure of a claimed invention shall be considered to be sufficiently clear and complete if it provides information that allows the invention to be made and used by a person skilled in the art, without undue experimentation, as of the filing date.

11. Each Party shall provide that a claimed invention:

- (a) is sufficiently supported by its disclosure if the disclosure reasonably conveys to a person skilled in the art that the applicant was in possession of the claimed invention, as of the filing date, and
- (b) is industrially applicable if it has a specific, substantial, and credible utility.

Article 15.10

Measures Related To Certain Regulated Products

1. If a Party requires, as a condition of approving the marketing of a new pharmaceutical or agricultural chemical product, the submission of:

- (a) safety and efficacy data, or
- (b) evidence of prior approval of the product in another territory that requires such information,

the Party shall not permit third persons not having the consent of the person providing the information to market a product on the basis of the approval granted to the person submitting that information for at least five years for pharmaceutical products and ten years for agricultural chemical products from the date of approval in the Party's territory. For purposes of this paragraph, a new product is one that contains a new chemical entity that has not been previously approved in the Party's territory.¹²

2. If a Party requires the submission of

- (a) new clinical information that is essential to the approval of a pharmaceutical product (other than information related to bioequivalency), or

¹¹ For purposes of this Article, "inventive step" shall be treated as synonymous with the term "non-obvious."

¹² As of the date of signature of this Agreement, neither Party permits third persons not having the consent of the person providing such information to market a product on the basis of such information submitted in another territory or evidence of prior approval of the product in another territory. In addition, when a product is subject to a system of marketing approval pursuant to this paragraph and is also subject to a patent in the territory of a Party, that Party may not alter the term of protection that it provides in accordance with this paragraph in the event that the patent protection terminates before the end of the term of protection specified in Article 10.1.

- (b) evidence of prior approval of the product in another territory that requires such new information,

the Party shall not permit third persons not having the consent of the person providing the information to market a pharmaceutical product on the basis of such new information or the approval granted to the person submitting such information for at least three years from the date of approval in the Party. A Party may limit such protection to new clinical information the origination of which involves considerable effort.¹³

3. With respect to patents covering pharmaceutical products, each Party shall make available an extension of the patent term to compensate the patent owner for unreasonable curtailment of the effective patent term as a result of the marketing approval process.

4. With respect to any pharmaceutical product that is subject to a patent, and where a Party permits authorizations to be granted or applications to be made to market a pharmaceutical product based on information previously submitted concerning the safety and efficacy of a product, including evidence of prior marketing approval by persons other than the person that previously submitted such information, that Party:

- (a) shall implement measures in its marketing approval process to prevent such other persons from marketing a product covered by a patent during the term of that patent, unless by consent or with the acquiescence of the patent owner,¹⁴ and
- (b) if it allows applications¹⁵ to be made to market a product during the term of a patent covering that product, shall provide that the patent owner shall be notified of the identity of any such other person who requests marketing approval to enter the market during the term of a patent notified to or identified by the approving authority as covering that product.

Article 15.11

General Obligations

1. Further to Article 18.1 (Publication), each Party shall provide that final judicial decisions and administrative rulings of general application pertaining to the enforcement of intellectual property rights shall be in writing and shall state any relevant findings of fact and the reasoning or the legal basis on which the decisions or rulings are based. Each Party shall provide that such decisions or rulings shall be published¹⁶ or, where publication is not practicable, otherwise made available to the

¹³ As of the date of signature of this Agreement, neither Party permits third persons not having the consent of the person providing such new information to market a product on the basis of such information submitted in another territory or evidence of prior approval of the product in another territory. In addition, when a product is subject to a system of marketing approval pursuant to this paragraph and is also subject to a patent in the territory of a Party, that Party may not alter the term of protection that it provides in accordance with this paragraph in the event that the patent protection terminates before the end of the term of protection specified in Article 10.2.

¹⁴ Each Party may limit such measures to patents claiming the product and patents covering approved indications.

¹⁵ The Parties understand that as of the date of signature of this Agreement Morocco does not allow such applications to be made, except in cases that are consistent with Article 15.9.6, which is commonly referred to as the “Bolar provision.”

¹⁶ For greater certainty, a Party may satisfy the requirement for publication by making the decision or ruling available to the public on the Internet.

public in a national language in such a manner as to enable governments and right holders to become acquainted with them.

2. Each Party shall publicize information on its efforts to provide effective enforcement of intellectual property rights in its civil, administrative, and criminal system, including any statistical information that the Party may collect for such purpose. Nothing in this paragraph shall require a Party to disclose confidential information that would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

3. The Parties understand that a decision that a Party makes on the distribution of enforcement resources shall not excuse that Party from complying with this Chapter.

4. In civil, administrative, and criminal proceedings involving copyright or related rights, each Party shall provide for a presumption that, in the absence of proof to the contrary, the person whose name is indicated as the author, producer, performer, or publisher of the work, performance, or phonogram in the usual manner is the designated right holder in such work, performance, or phonogram. Each Party shall also provide for a presumption that, in the absence of proof to the contrary, the copyright or related right subsists in such subject matter.

Civil and Administrative Procedures and Remedies

5. Each Party shall make available to right holders¹⁷ civil judicial procedures concerning the enforcement of any intellectual property right.

6. Each Party shall provide that:

- (a) in civil judicial proceedings, its judicial authorities shall have the authority to order the infringer to pay the right holder:
 - (i) damages adequate to compensate for the injury the right holder has suffered as a result of the infringement and,
 - (ii) at least in the case of copyright or related rights infringement and trademark counterfeiting, the profits of the infringer that are attributable to the infringement and that are not taken into account in computing the amount of the damages referred to in clause (i); and
- (b) in determining damages for infringement of intellectual property rights, its judicial authorities shall consider, *inter alia*, the value of the infringed-on good or service, measured by the suggested retail price or other legitimate measure of value submitted by the right holder.

7. In civil judicial proceedings, each Party shall, at least with respect to works, phonograms, and performances protected by copyright or related rights, and in cases of trademark counterfeiting, establish or maintain pre-established damages, which shall be available on the election of the right holder. Pre-established damages shall be in an amount sufficient to constitute a deterrent to future infringements and to compensate fully the right holder for the harm caused by the infringement. In civil judicial proceedings concerning patent infringement, each Party shall provide that its judicial

authorities, except in exceptional circumstances, shall have the authority to increase damages to an amount that is up to three times the amount of the injury found or assessed.

8. Each Party shall provide that its judicial authorities, except in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, that the prevailing party shall be awarded payment of court costs or fees and reasonable attorney's fees by the losing party. Further, each Party shall provide that its judicial authorities, at least in exceptional circumstances, shall have the authority to order, at the conclusion of civil judicial proceedings concerning patent infringement, that the prevailing party shall be awarded payment of reasonable attorney's fees by the losing party.¹⁸

9. In civil judicial proceedings concerning copyright or related rights infringement and trademark counterfeiting, each Party shall provide that its judicial authorities shall have the authority to order the seizure of suspected infringing goods, any related materials and implements, and, at least for trademark counterfeiting, documentary evidence relevant to the infringement.

10. Each Party shall provide that:

- (a) in civil judicial proceedings, at the right holder's request, goods that have been found to be pirated or counterfeit shall be destroyed, except in exceptional circumstances;
- (b) its judicial authorities shall have the authority to order that materials and implements that have been used in the manufacture or creation of the pirated or counterfeit goods be, without compensation of any sort, promptly destroyed or, in exceptional circumstances, without compensation of any sort, disposed of outside the channels of commerce in such a manner as to minimize the risks of further infringements; and
- (c) in regard to counterfeit trademarked goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of goods into the channels of commerce.

11. Each Party shall provide that in civil judicial proceedings concerning the enforcement of intellectual property rights, its judicial authorities shall have the authority to order the infringer to provide any information that the infringer possesses regarding any person involved in any aspect of the infringement and regarding the means of production or distribution channel of such goods, including the identification of third persons involved in the production and distribution of the infringing goods or services or in their channels of distribution, and to provide this information to the right holder.

12. Each Party shall provide that its judicial authorities have the authority to:

- (a) fine or imprison, in appropriate cases, a party to a litigation who fails to abide by valid orders issued by such authorities; and
- (b) impose sanctions on parties to a litigation, their counsel, experts, or other persons subject to the court's jurisdiction, for violation of judicial orders regarding the protection of confidential information produced or exchanged in a proceeding.

13. To the extent that any civil remedy can be ordered as a result of administrative procedures on the merits of a case, each Party shall provide that such procedures conform to principles equivalent in substance to those set out in this Chapter.

¹⁸ Neither Party shall be required to apply this paragraph to actions for (a) infringement by a Party, or (b) infringement authorized by a Party.

14. In civil judicial proceedings concerning the acts described in Articles 15.5.8 and 15.5.9, each Party shall provide that its judicial authorities shall have the authority to order or award at least:

- (a) provisional measures, including seizure of devices and products suspected of being involved in the prohibited activity;
- (b) the opportunity for the right holder to elect between actual damages it suffered (plus any profits attributable to the prohibited activity not taken into account in computing those damages) or pre-established damages;
- (c) payment to the prevailing right holder at the conclusion of civil judicial proceedings of court costs and fees, and reasonable attorney's fees, by the party engaged in the prohibited conduct; and
- (d) destruction of devices and products found to be involved in the prohibited activity.

Neither Party may make damages available against a nonprofit library, archive, educational institution, or public noncommercial broadcasting entity that sustains the burden of proving that it was not aware and had no reason to believe that its acts constituted a prohibited activity.

15. In civil judicial proceedings concerning the enforcement of intellectual property rights, each Party shall provide that its judicial authorities shall have the authority to order a party to desist from an infringement, in order, *inter alia*, to prevent, immediately after they clear customs, the entry into the channels of commerce in the jurisdiction of those authorities of imported goods that involve the infringement of an intellectual property right, or to prevent their exportation.

16. In the event that a Party's judicial or other authorities appoint technical or other experts in civil proceedings concerning the enforcement of intellectual property rights and require that the parties to the litigation bear the costs of such experts, the Party should seek to ensure that such costs are closely related, *inter alia*, to the quantity and nature of work to be performed and do not unreasonably deter recourse to such proceedings.

Provisional Measures

17. Parties shall act on requests for relief *inaudita altera parte* expeditiously, and shall, except in exceptional circumstances, generally execute such requests within ten days.

18. Each Party shall provide that its judicial authorities have the authority to require the plaintiff to provide any reasonably available evidence in order to satisfy themselves with a sufficient degree of certainty that the plaintiff's right is being infringed or that such infringement is imminent, and to order the plaintiff to provide a reasonable security or equivalent assurance set at a level sufficient to protect the defendant and to prevent abuse, and so as not to unreasonably deter recourse to such procedures.

19. In proceedings concerning the grant of provisional measures in relation to enforcement of a patent, each Party shall provide for a rebuttable presumption that the patent is valid.

Special Requirements Related to Border Measures

20. Each Party shall provide that any right holder initiating procedures for its competent authorities to suspend release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods¹⁹ into free circulation is required to provide adequate evidence to satisfy the

competent authorities that, under the laws of the country of importation, there is prima facie an infringement of the right holder's intellectual property right and to supply sufficient information that may reasonably be expected to be within the right holder's knowledge to make the suspected goods reasonably recognizable by its competent authorities. The requirement to provide sufficient information shall not unreasonably deter recourse to these procedures. Each Party shall provide that the application to suspend the release of goods shall remain in force for a period of not less than one year from the date of application, or the period that the good is protected by copyright or the relevant trademark registration, whichever is shorter.

21. Each Party shall provide that its competent authorities shall have the authority to require a right holder initiating procedures to suspend the release of suspected counterfeit or confusingly similar trademark goods, or pirated copyright goods, to provide a reasonable security or equivalent assurance sufficient to protect the defendant and the competent authorities and to prevent abuse. Each Party shall provide that such security or equivalent assurance shall not unreasonably deter recourse to these procedures. Each Party may provide that such security may be in the form of a bond conditioned to hold the importer or owner of the imported merchandise harmless from any loss or damage resulting from any suspension of the release of goods in the event the competent authorities determine that the article is not an infringing good.

22. Where its competent authorities have made a determination that goods are counterfeit or pirated, a Party shall grant its competent authorities the authority to inform the right holder of the names and addresses of the consignor, the importer, and the consignee, and of the quantity of the goods in question.

23. Each Party shall provide that its competent authorities may initiate border measures *ex officio*, with respect to imported, exported, or in-transit merchandise suspected of infringing an intellectual property right, without the need for a formal complaint from a private party or right holder.

24. Each Party shall provide that goods that have been determined to be pirated or counterfeit by its competent authorities shall be destroyed, except in exceptional circumstances. In regard to counterfeit trademark goods, the simple removal of the trademark unlawfully affixed shall not be sufficient to permit the release of the goods into the channels of commerce. In no event shall the competent authorities be authorized, except in exceptional circumstances, to permit the exportation of counterfeit or pirated goods or to permit such goods to be subject to other customs procedures.

25. Where an application fee or merchandise storage fee is assessed in connection with border measures to enforce an intellectual property right, each Party shall provide that such fee shall not be set at an amount that unreasonably deters recourse to these measures.

Criminal Procedures and Remedies

26. (a) Each Party shall provide for criminal procedures and penalties to be applied at least in cases of willful trademark counterfeiting or copyright or related rights piracy on a

(a) **counterfeit trademark goods** means any goods, including packaging, bearing without authorization a trademark that is identical to the trademark validly registered in respect of such goods, or that cannot be distinguished in its essential aspects from such a trademark, and that thereby infringes the rights of the owner of the trademark in question under the law of the country of importation; and

(b) **pirated copyright goods** means any goods that are copies made without the consent of the right holder or person duly authorized by the right holder in the country of production and which are made directly or indirectly from an article where the making of that copy would have constituted an infringement of a copyright or a related right under the law of the country of importation.

commercial scale. Willful copyright or related rights piracy on a commercial scale includes

- (i) significant willful copyright or related rights infringements that have no direct or indirect motivation of financial gain, and
- (ii) willful infringements for purposes of commercial advantage or private financial gain.

Each Party shall treat willful importation or exportation of counterfeit or pirated goods as unlawful activities subject to criminal penalties to the same extent as the trafficking or distribution of such goods in domestic commerce.

(b) Specifically, each Party shall provide:

- (i) remedies that include sentences of imprisonment as well as monetary fines sufficient to provide a deterrent to future infringements, consistent with a policy of removing the infringer's monetary incentive, and shall further establish policies or guidelines that encourage judicial authorities to impose those remedies at levels sufficient to provide a deterrent to future infringements;
- (ii) that its judicial authorities shall have the authority to order the seizure of suspected counterfeit or pirated goods, any related materials and implements used in the commission of the offense, any assets traceable to the infringing activity, and any documentary evidence relevant to the offense. Each Party shall provide that items that are subject to seizure pursuant to any such judicial order need not be individually identified, so long as they fall within general categories specified in the order;
- (iii) that its judicial authorities shall have the authority, among other measures, to order the forfeiture of any assets traceable to the infringing activity and shall, except in exceptional cases, order the forfeiture and destruction of all counterfeit or pirated goods, and, at least with respect to willful copyright or related rights piracy, order the forfeiture and destruction of materials and implements that have been used in the creation of infringing goods. Each Party shall further provide that such forfeiture and destruction shall occur without compensation of any kind to the defendant; and
- (iv) that its authorities may initiate legal action *ex officio* with respect to the offenses described in this Chapter, without the need for a formal complaint by a private party or right holder.

27. Party shall also provide for criminal procedures and penalties to be applied in the following cases, even absent willful trademark counterfeiting or copyright piracy:

- (a) knowing trafficking in counterfeit labels affixed or designed to be affixed to: a phonogram, a copy of a computer program, documentation or packaging for a computer program, or a copy of a motion picture or other audiovisual work; and
- (b) knowing trafficking in counterfeit documentation or packaging for a computer program.

Limitations on Liability for Service Providers

28. For the purpose of providing enforcement procedures that permit effective action against any act of copyright infringement covered by this Chapter, including expeditious remedies to prevent infringements and criminal and civil remedies, each Party shall provide, consistent with the framework set out in this Article:

- (a) legal incentives for service providers to cooperate with copyright²⁰ owners in deterring the unauthorized storage and transmission of copyrighted materials; and
- (b) limitations in its law regarding the scope of remedies available against service providers for copyright infringements that they do not control, initiate, or direct, and that take place through systems or networks controlled or operated by them or on their behalf, as set forth in this subparagraph.²¹
 - (i) These limitations shall preclude monetary relief, and provide reasonable restrictions on court-ordered relief to compel or restrain certain actions, for the following functions, and shall be confined to those functions:²²
 - (A) transmitting, routing, or providing connections for material without modification of its content, or the intermediate and transient storage of such material in the course thereof;
 - (B) caching carried out through an automatic process;
 - (C) storage at the direction of a user of material residing on a system or network controlled or operated by or for the service provider; and
 - (D) referring or linking users to an online location by using information location tools, including hyperlinks and directories.
 - (ii) These limitations shall apply only where the service provider does not initiate the chain of transmission of the material and does not select the material or its recipients (except to the extent that a function described in clause (i)(D) in itself entails some form of selection).
 - (iii) Qualification by a service provider for the limitations as to each function in clause (i)(A) through (D) shall be considered separately from qualification for the limitations as to each other function, in accordance with the conditions for qualification set forth in clauses (iv) through (vii).
 - (iv) With respect to functions referred to in clause (i)(B), the limitations shall be conditioned on the service provider:
 - (A) permitting access to cached material in significant part only to users of its system or network who have met conditions on user access to that material;
 - (B) complying with rules concerning the refreshing, reloading, or other updating of the cached material when specified by the person making

²⁰ For purposes of this paragraph, “copyright” includes related rights.

²¹ This subparagraph is without prejudice to the availability of defenses to copyright infringement that are of general applicability.

²² Either Party may request consultations with the other Party to consider how to address under this paragraph functions of a similar nature that a Party identifies after the date of entry into force of this Agreement.

the material available online in accordance with a generally accepted industry standard data communications protocol for the system or network through which that person makes the material available;

- (C) not interfering with technology consistent with industry standards accepted in the Party's territory used at the originating site to obtain information about the use of the material, and not modifying its content in transmission to subsequent users; and
 - (D) expeditiously removing or disabling access, on receipt of an effective notification of claimed infringement, to cached material that has been removed or access to which has been disabled at the originating site.
- (v) With respect to functions referred to in clause (i)(C) and (D), the limitations shall be conditioned on the service provider:
- (A) not receiving a financial benefit directly attributable to the infringing activity, in circumstances where it has the right and ability to control such activity;
 - (B) expeditiously removing or disabling access to the material residing on its system or network on obtaining actual knowledge of the infringement or becoming aware of facts or circumstances from which the infringement was apparent, such as through effective notifications of claimed infringement in accordance with clause (ix);and
 - (C) publicly designating a representative to receive such notifications.
- (vi) Eligibility for the limitations in this subparagraph shall be conditioned on the service provider:
- (A) adopting and reasonably implementing a policy that provides for termination in appropriate circumstances of the accounts of repeat infringers; and
 - (B) accommodating and not interfering with standard technical measures accepted in the Party's territory that protect and identify copyrighted material, that are developed through an open, voluntary process by a broad consensus of copyright owners and service providers, that are available on reasonable and nondiscriminatory terms, and that do not impose substantial costs on service providers or substantial burdens on their systems or networks.
- (vii) Eligibility for the limitations in this subparagraph may not be conditioned on the service provider monitoring its service, or affirmatively seeking facts indicating infringing activity, except to the extent consistent with such technical measures.
- (viii) If the service provider qualifies for the limitations with respect to the function referred to in clause (i)(A), court-ordered relief to compel or restrain certain actions shall be limited to terminating specified accounts, or to taking reasonable steps to block access to a specific, non-domestic online location.

If the service provider qualifies for the limitations with respect to any other function in clause (i), court-ordered relief to compel or restrain certain actions shall be limited to removing or disabling access to the infringing material, terminating specified accounts, and other remedies that a court may find necessary, provided that such other remedies are the least burdensome to the service provider among comparably effective forms of relief. Each Party shall provide that any such relief shall be issued with due regard for the relative burden to the service provider and harm to the copyright owner, the technical feasibility and effectiveness of the remedy and whether less burdensome, comparably effective enforcement methods are available. Except for orders ensuring the preservation of evidence, or other orders having no material adverse effect on the operation of the service provider's communications network, each Party shall provide that such relief shall be available only where the service provider has received notice of the court order proceedings referred to in this subparagraph and an opportunity to appear before the judicial authority.

- (ix) For purposes of the notice and take down process for the functions referred to in clauses (i)(C) and (D), each Party shall establish appropriate procedures for effective notifications of claimed infringement, and effective counter-notifications by those whose material is removed or disabled through mistake or misidentification. Each Party shall also provide for monetary remedies against any person who makes a knowing material misrepresentation in a notification or counter-notification that causes injury to any interested party as a result of a service provider relying on the misrepresentation.
- (x) If the service provider removes or disables access to material in good faith based on claimed or apparent infringement, each Party shall provide that the service provider shall be exempted from liability for any resulting claims, provided that, in the case of material residing on its system or network, it takes reasonable steps promptly to notify the person making the material available on its system or network that it has done so and, if such person makes an effective counter-notification and is subject to jurisdiction in an infringement suit, to restore the material online unless the person giving the original effective notification seeks judicial relief within a reasonable time.
- (xi) Each Party shall establish an administrative or judicial procedure enabling copyright owners who have given effective notification of claimed infringement to obtain expeditiously from a service provider information in its possession identifying the alleged infringer.
- (xii) For purposes of the function referred to in clause (i)(A), **service provider** means a provider of transmission, routing, or connections for digital online communications without modification of their content between or among points specified by the user of material of the user's choosing, and for purposes of the functions referred to in clause (i)(B) through (D), **service provider** means a provider or operator of facilities for online services or network access.

2. Each Party recognizes that it is inappropriate to encourage trade or investment by weakening or reducing the protections afforded in domestic labor laws. Accordingly, each Party shall strive to ensure that it does not waive or otherwise derogate from, or offer to waive or otherwise derogate from, such laws in a manner that weakens or reduces adherence to the internationally recognized labor rights referred to in Article 16.7 as an encouragement for trade with the other Party, or as an

encouragement for the establishment, acquisition, expansion, or retention of an investment in its territory.

Article 16.3

The Parties shall begin consultations promptly after delivery of the request.

2. The Parties shall make every attempt to arrive at a mutually satisfactory resolution of the matter and may seek advice or assistance from any person or body they deem appropriate.

If the consultations fail to resolve the matter, and if a subcommittee on labor affairs has been established pursuant to Article 19.2 (Joint Committee), either Party may refer the matter to the subcommittee by delivering a written notification to the other Party’s contact point. The subcommittee shall convene within 30 days after a Party delivers a notification, unless the Parties agree otherwise. If the Parties have not established a subcommittee by the date a Party delivers a notification, they shall do so during the 30-day period described in this paragraph. The subcommittee shall endeavor to resolve the matter expeditiously, including, where appropriate, by consulting governmental or non-governmental experts and having recourse to such procedures as good offices, conciliation, or mediation.

Once consultations have begun pursuant to Article 20.5, no consultations on the same matter may be entered into pursuant to this Article.
- (b) If a Party requests consultations pursuant to Article 20.5 more than 60 days after the delivery of a request for consultations pursuant to paragraph 1, the Parties may agree at any time to refer the matter to the Joint Committee pursuant to Article 20.6 (Referral to the Joint Committee).

2. Unless the Parties agree otherwise, the panel shall follow the model rules of procedure and may, after consulting the Parties, adopt additional rules of procedure not inconsistent with the model rules.

*Article 20.9*Panel Report

1. Unless the Parties agree otherwise, the panel shall, within 180 days after the chair is appointed, present to the Parties an initial report containing findings of fact, and its determination as to whether:

as well as any other determination requested by the Parties with regard to the dispute.

2. The panel shall base its report on the relevant provisions of the Agreement and the submissions and arguments of the Parties. The panel may, at the request of the Parties, make recommendations for the resolution of the dispute.

3. After considering any written comments by the Parties on the initial report, the panel may modify its report and make any further examination it considers appropriate.
4. The panel shall present a final report to the Parties within 45 days of presentation of the initial report, unless the Parties agree otherwise. The Parties shall make the final report public within 15 days thereafter, subject to the protection of confidential information.

Article 20.10

Implementation Of The Final Report

- 1 On receipt of the final report of a panel, the Parties shall agree on the resolution of the dispute, which normally shall conform with the determinations and recommendations, if any, of the panel.
- 2 If, in its final report, the panel determines that a Party has not conformed with its obligations under this Agreement or that a Party's measure is causing nullification or impairment in the sense of Article 20.2(c), the resolution, whenever possible, shall be to eliminate the non-conformity or the nullification or impairment.

Article 20.11

Non-Implementation

1. If a panel has made a determination of the type described in Article 20.10.2, and the Parties are unable to reach agreement on a resolution pursuant to Article 20.10.1 within 45 days of receiving the final report, or such other period as the Parties agree, the Party complained against shall enter into negotiations with the other Party with a view to developing mutually acceptable compensation.
2. If the Parties:
 - (a) are unable to agree on compensation within 30 days after the period for developing such compensation has begun, or
 - (b) have agreed on compensation or on a resolution pursuant to Article 20.10.1 and the complaining Party considers that the other Party has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter provide written notice to the other Party that it intends to suspend the application to the other Party of benefits of equivalent effect. The notice shall specify the level of benefits that the Party proposes to suspend. Subject to paragraph 5, the complaining Party may begin suspending benefits 30 days after the later of the date on which it provides notice under this paragraph or the panel issues its determination under paragraph 3, as the case may be.

3. If the Party complained against considers that:
 - (a) the level of benefits that the other Party has proposed to be suspended is manifestly excessive; or
 - (b) it has eliminated the non-conformity or the nullification or impairment that the panel has found,

it may, within 30 days after the complaining Party provides notice under paragraph 2, request that the panel be reconvened to consider the matter. The Party complained against shall deliver its request in

writing to the other Party. The panel shall reconvene as soon as possible after delivery of the request and shall present its determination to the Parties within 90 days after it reconvenes to review a request under subparagraph (a) or (b), or within 120 days for a request under subparagraphs (a) and (b). If the panel determines that the level of benefits proposed to be suspended is manifestly excessive, it shall determine the level of benefits it considers to be of equivalent effect.

4. The complaining Party may suspend benefits up to the level the panel has determined under paragraph 3 or, if the panel has not determined the level, the level the Party has proposed to suspend under paragraph 2, unless the panel has determined that the Party complained against has eliminated the non-conformity or the nullification or impairment.

5. The complaining Party may not suspend benefits if, within 30 days after it provides written notice of intent to suspend benefits or, if the panel is reconvened under paragraph 3, within 20 days after the panel provides its determination, the Party complained against provides written notice to the other Party that it will pay an annual monetary assessment. The Parties shall consult, beginning no later than ten days after the Party complained against provides notice, with a view to reaching agreement on the amount of the assessment. If the Parties are unable to reach an agreement within 30 days after consultations begin, the amount of the assessment shall be set at a level, in U.S. dollars, equal to 50 percent of the level of the benefits the panel has determined under paragraph 3 to be of equivalent effect or, if the panel has not determined the level, 50 percent of the level that the complaining Party has proposed to suspend under paragraph 2.

6. Unless the Joint Committee decides otherwise, a monetary assessment shall be paid to the complaining Party in U.S. currency, or in an equivalent amount of Moroccan currency, in equal, quarterly installments beginning 60 days after the Party complained against gives notice that it intends to pay an assessment. Where the circumstances warrant, the Joint Committee may decide that an assessment shall be paid into a fund established by the Joint Committee and expended at the direction of the Joint Committee for appropriate initiatives to facilitate trade between the Parties, including by further reducing unreasonable trade barriers or by assisting a Party in carrying out its obligations under the Agreement.

7. If the Party complained against fails to pay a monetary assessment, the complaining Party may suspend the application to the Party complained against of benefits in accordance with paragraph 4.

8. This Article shall not apply with respect to a matter described in Article 20.12.1.

Article 20.12

Non-Implementation In Certain Disputes

1. If, in its final report, a panel determines that a Party has not conformed with its obligations under Article 16.2.1(a) (Application and Enforcement of Labor Laws) or Article 17.2.1(a) (Application and Enforcement of Environmental Laws), and the Parties:

- (a) are unable to reach agreement on a resolution pursuant to Article 20.10.1 within 45 days of receiving the final report; or
- (b) have agreed on a resolution pursuant to Article 20.10.1 and the complaining Party considers that the other Party has failed to observe the terms of the agreement,

the complaining Party may at any time thereafter request that the panel be reconvened to impose an annual monetary assessment on the other Party. The complaining Party shall deliver its request in writing to the other Party. The panel shall reconvene as soon as possible after delivery of the request.

2. The panel shall determine the amount of the monetary assessment in U.S. dollars within 90 days after it reconvenes under paragraph 1. In determining the amount of the assessment, the panel shall take into account:

- (a) the bilateral trade effects of the Party's failure to effectively enforce the relevant law;
- (b) the pervasiveness and duration of the Party's failure to effectively enforce the relevant law;
- (c) the reasons for the Party's failure to effectively enforce the relevant law;
- (d) the level of enforcement that could reasonably be expected of the Party given its resource constraints;
- (e) the efforts made by the Party to begin remedying the non-enforcement after the final report of the panel; and
- (f) any other relevant factors.

The amount of the assessment shall not exceed 15 million U.S. dollars annually, adjusted for inflation as specified in Annex 20-A.

3. On the date on which the panel determines the amount of the monetary assessment under paragraph 2, or at any other time thereafter, the complaining Party may provide notice in writing to the Party complained against demanding payment of the monetary assessment. The monetary assessment shall be payable in U.S. currency, or in an equivalent amount of Moroccan currency, in equal, quarterly installments beginning 60 days after the complaining Party provides such notice.

4. Assessments shall be paid into a fund established by the Joint Committee and shall be expended at the direction of the Joint Committee for appropriate labor or environmental initiatives, including efforts to improve or enhance labor or environmental law enforcement, as the case may be, in the territory of the Party complained against, consistent with its law. In deciding how to expend monies paid into the fund, the Joint Committee shall consider the views of interested persons in each Party's territory.

5. If the Party complained against fails to pay a monetary assessment, and if the Party has created and funded an escrow account to ensure payment of any assessments against it, the other Party shall, before having recourse to any other measure, seek to obtain the funds from the account.

6. If the complaining Party cannot obtain the funds from the other Party's escrow account within 30 days of the date on which payment is due, or if the other Party has not created an escrow account, the complaining Party may take other appropriate steps to collect the assessment or otherwise secure compliance. These steps may include suspending tariff benefits under the Agreement as necessary to collect the assessment, while bearing in mind the Agreement's objective of eliminating barriers to bilateral trade and while seeking to avoid unduly affecting parties or interests not party to the dispute.

Article 20.13

Compliance Review

1 Without prejudice to the procedures set out in Article 20.11.3, if the Party complained against considers that it has eliminated the non-conformity or the nullification or impairment that the panel has found, it may refer the matter to the panel by providing written notice to the other Party. The panel shall issue its report on the matter within 90 days after the Party complained against provides notice.

2 If the panel decides that the Party complained against has eliminated the non-conformity or the nullification or impairment, the complaining Party shall promptly reinstate any benefits it has suspended under Article 20.11 or 20.12 and the Party complained against shall no longer be required to pay any monetary assessment it has agreed to pay under Article 20.11.5 or that has been imposed on it under Article 20.12.

Article 20.14

Five-Year Review

The Joint Committee shall review the operation and effectiveness of Articles 20.11 and 20.12 not later than five years after the Agreement enters into force, or within six months after benefits have been suspended or monetary assessments have been imposed in five proceedings initiated under this Chapter, whichever occurs first.

Article 20.15

Private Rights

Neither Party may provide for a right of action under its law against the other Party on the ground that a measure of the other Party is inconsistent with this Agreement.

3. The period used for the accumulated inflation adjustment shall be calendar year 2004 through the most recent calendar year preceding the one in which the assessment is owed.
4. The relevant inflation rate shall be the U.S. inflation rate as measured by the Producer Price Index for Finished Goods published by the U.S. Bureau of Labor Statistics.
5. The inflation adjustment shall be estimated according to the following formula:

Π_i = accumulated U.S. inflation rate from calendar year 2004 through the most recent calendar year preceding the one in which the assessment is owed.

A = cap for the assessment for the year in question.

In the case of the *Convention Between the Government of the United States of America and the Kingdom of Morocco for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income*, the competent authorities of the Parties, as defined in that convention, are exclusively responsible for determining whether any inconsistency exists between this Agreement and that convention.

4. Subject to paragraph 2:

- (a) Article 11.2 (Cross-Border Trade in Services – National Treatment) and Article 12.2 (Financial Services – National Treatment) shall apply to taxation measures on income, capital gains, or on the taxable capital of corporations that relate to the purchase or consumption of particular services, except that nothing in this subparagraph shall prevent a Party from conditioning the receipt or continued receipt of an advantage relating to the purchase or consumption of particular services on requirements to provide the service in its territory; and
- (b) Articles 10.3 (Investment – National Treatment) and 10.4 (Investment – Most-Favored-Nation Treatment), Articles 11.2 (Cross-Border Trade in Services – National Treatment) and 11.3 (Cross-Border Trade in Services – Most-Favored-Nation Treatment), and Articles 12.2 (Financial Services – National Treatment) and 12.3 (Financial Services – Most-Favored-Nation Treatment) shall apply to all taxation measures other than those on income, capital gains, or on the taxable capital of corporations, taxes on estates, inheritances, gifts, and generation-skipping transfers,

except that nothing in those Articles shall apply:

- (c) any most-favored-nation obligation with respect to an advantage accorded by a Party pursuant to a tax convention;
- (d) to a non-conforming provision of any existing taxation measure;
- (e) to the continuation or prompt renewal of a non-conforming provision of any existing taxation measure;
- (f) to an amendment to a non-conforming provision of any existing taxation measure to the extent that the amendment does not decrease its conformity, at the time of the amendment, with any of those Articles;
- (g) to the adoption or enforcement of any taxation measure aimed at ensuring the equitable or effective imposition or collection of taxes (as permitted by Article XIV(d) of GATS); or
- (h) to a provision that conditions the receipt, or continued receipt, of an advantage relating to the contributions to, or income of, pension trusts or pension plans on a requirement that the Party maintain continuous jurisdiction over the pension trust or pension plan.

5. Subject to paragraph 2 and without prejudice to the rights and obligations of the Parties under paragraph 3, paragraphs 2, 3, and 4 of Article 10.8 (Investment – Performance Requirements) shall apply to taxation measures.²

6. Article 10.6 (Expropriation and Compensation) and Article 10.15 (Submission of a Claim to Arbitration) shall apply to a taxation measure alleged to be an expropriation or a breach of an investment agreement or investment authorization. However, no investor may invoke Article 10.6 as the basis of a claim where it has been determined pursuant to this paragraph that the measure is not an expropriation. An investor that seeks to invoke Article 10.6 with respect to a taxation measure must first refer to the competent authorities at the time that it gives notice of intent under Article 10.15.2 the issue of whether the measure involves an expropriation. If the competent authorities do not agree to consider the issue or, having agreed to consider it, fail to agree that the measure is not an expropriation within a period of six months of such referral, the investor may submit its claim to arbitration under Article 10.15.

7. For purposes of paragraph 6, **competent authorities** means (a) in the case of Morocco, the minister in charge of finances or his delegate (Director General of Taxes); and (b) in the case of the United States, the Assistant Secretary of the Treasury (Tax Policy).

Article 21.4

Disclosure Of Information

Nothing in this Agreement shall be construed to require a Party to furnish or allow access to information the disclosure of which would impede law enforcement or would be contrary to the Party's law protecting personal privacy or the financial affairs and accounts of individual customers of financial institutions.

Article 21.5

In adopting such measures, the Party shall immediately consult with the other Party and shall not impair the relative advantages accorded to the goods of the other Party under this Agreement.³

² For greater certainty, nothing in paragraphs 2, 3, and 4 of Article 10.8 (Investment – Performance Requirements) shall be construed to prevent a Party from conditioning the receipt or continued receipt of a tax advantage for income earned from the export of any goods or services, in connection with an investment in its territory of an investor of a Party or of a non-Party, on compliance with a requirement that such income be denominated in a foreign currency and received in its territory.

³ For greater certainty, this Article applies to balance of payments measures imposed on trade in goods.
